

TRIANGLE EXPECTED IN WASHINGTON RACE

Enoch A. Bryan, Retiring Chief of State College, Mentioned as Senatorial Aspirant.

RUMORS ARE RUN DOWN

Four of State, Now Being Completed by Friend, Believed to Have Been for Express Purpose of Feeling Public Sentiment.

OLYMPIA, Wash., Nov. 11.—(Special.)—Soon after January 1, when Enoch A. Bryan is due to retire as president of Washington State College, the Eastern Washington educator is expected to announce his candidacy to contest with Senator Miles Poindexter and Representative W. E. Humphrey for the Republican nomination for United States Senator.

State College alumni for months have heard reports that the retiring president would be a Senatorial candidate, but as similar rumors had connected his name with aspirations for the Governorship and for Representative from the Fourth District, and these reports proved false, there was a disposition to wait for further evidence before accepting such gossip as fact.

To top a mass of cumulative evidence, however, Representative Charles Timblin, of Spokane, for years a close associate and personal friend of President Bryan, is now completing a tour of the state, which seems to have been made for the express purpose of learning public sentiment regarding Bryan's probable candidacy, and from various sources Timblin appears to have gained much encouragement.

College Career Spectacular.
President Bryan's resignation as head of Washington State College more than a year ago, to take effect at the end of the current calendar year, and the board of regents recently announced the selection of Professor E. O. Holland, head of the Louisville public schools, as his successor.

During his incumbency as president of the Pullman institution and its remarkable building program President Bryan was a storm center for many years, being charged with attempting to build up the college at the expense of the University of Washington.

In Western Washington Representative Humphrey at present appears to have matters arranged altogether to his liking. Bryan supporters claim to see, however, a lack of enthusiasm on the part of Humphrey's backers such as the more fervid Bryan might inspire.

Geographical Situation Obstacle.
There is another circumstance that might tend to weaken Representative Humphrey and correspondingly strengthen the chances for an Eastern Washington candidate, and this is the likely candidacy of Judge H. B. Albertson, of the King County Superior Court. Judge Albertson's strength probably would be principally in King County, which is counted upon as the Humphrey stronghold.

Also, should Bryan and Albertson both enter the race, the choice not being would be called into play, and under these conditions almost any of the candidates named might be conceded a fair chance.

The great obstacle that President Bryan would be called upon to overcome as a candidate would be the geographical situation. Western Washington, with two-thirds of the population of the state, has not had a United States Senator since the term of S. H. Files expired, five years ago.

General Agreement Reached.
During the recent session of the Legislature a general agreement was reached among leading Republicans that King County would be entitled to name the next Senator. The candidacy of Representative Humphrey apparently settled this question for a time, as far as the regular party men were concerned, but the threatened candidacy of Judge Albertson and the anxiety of Eastern Washington to put Bryan forward may have the effect of throwing the fat into the fire.

The Democratic Senatorial situation at the present time continues to be a waiting game between ex-Senator George Turner, of Spokane, and Judge Stephen J. Chadwick, of the Supreme Court. Turner will not run if Chadwick desires to make the race.

Judge Chadwick apparently would like to gain some idea of the probable outcome of the Republican contest before making up his mind, especially since announcement of his candidacy would likely necessitate his resignation from the bench.

Anderson, who lives near Errol Heights, where the Bull Run pipeline that is to supply Milwaukie connects with the Portland system. He charges that the water leaked and flooded his yard, where he had some strawberries and also kept the road in front of his house so wet that
