A 10-cent advance in sugar took effect in the local market yesterday morning. No change was announced for today's market.

Commenting on the Eastern situation, the Federal company says:

"The development of the strong statistical position, which we have all along stated would exist this Fall, has been about as anticipated, with the result that the market has been gaining strength all the week. On the one hand, the remaining supplies of sugar are in strong hands, and the number of boats available for shipping are limited.

COPPERS AND SPECIALTIES GO TO HIGHER LEVELS.

Industrial Developments Furnish Grounds for Increased Optimism. Bond Market Is Strong.

NEW YORK, Nov. 12.—In his technical and speculative aspects today's market was largely a repetition of the sessions immediately preceding. Trading again savore of the professional and was duil, except during the forenoon and in the final hour, when moderate activity ruled.

Numerous specialies, including war shares and like issues, were moved to higher levels, and coppers, particularly American Smelting, the second most active issue of the day, substantially supplemented recent gains. High-grade railways and kindred investment stocks were irregular, when not actually reactionary.

Overnight developments, so far as they touched upon home affairs, furnished ground for increased optimism, especially as approximate the contract of the contract NEW YORK, Nov. 12 .- In its technical
