Your Grocer Will Tell You---

Yes! Almost any grocer will tell you that he sells more German-American Coffee than any other brand and has fewer complaints on it. You take no chance when you buy G .- A. at 30c the / pound can - it has been indorsed by thousands. Once you try it you will

realize how extravagant you've been in judging quality by price alone. G.-A. is steel cut-no chaff, no dirt, no dust-and packed in airtight tins, which preserve its strength.

For **Thanksgiving**

You should try German - American — i ts full, mellow, satisfying flavor and delightful aroma will add mightily to any Thanksgiving dinner. And then G.-A. should be packed in every Thanksgiving basket. It's reasonable in price and it's sure to please. In placing your order for the "Thanks" bas-

kets which you send to those less fortunate, be sure and specify German-American-30c the pound tin, 85c for

The Reason We Want You to Try G-A Is This---

We believe German-American to be the best coffee ever packed to sell for 30 cents the pound tin. We want you to know its wonderful quality-we want you to save money on each and every pound. G.-A. is now sold at this reduced price because of the present low coffee market. An advancing market may force the retail price up at any time. You just as well profit by the present saving-25% is quite worthy of your consideration.
