Creations of style and beauty range from the simplest and most inexpensive frocks to the most elaborate and coatly. Moreover, this Winter's gowns are viewed with gladness, for they are just the kind that may be copied by the girl who has artistic inclinations and moderate means.

Among the most stunning of the gowns that have arrived within a day or so in the city are two that are of new design and unique coloring. One is new design and unique coloring. One is of soft green apple satin and shows that instead of panniers at the hims the skirts are to be puffed at the bottom. A simple waist has a low foundation of satin, with the shoulders and little short-puff sleeves of white tulle. The neck is low and V-shaped both in back and in front.

# **BE CLEAN** INTERNALLY

Over 300,000 People Are Now Doing So.

For many years physicians have agreed that 95 per cent, of human ills was caused by accumulated waste in the Lower Intestine; that in our present way of living Nature could not remove all this waste without assistance, no matter how regular we might be; and that the poisons from this waste circulating through the blood pulled us away down below par and were responsible for many diseases of a serious nature.

pulled us away down below par and were responsible for many discases of a serious nature.

During this time the "J. R. L. Cascade" for Internal Bathing has, because of their recommendation and those of its users, been steadily growing in favor.

Recently, however, the startling news which has been covering the country that great surgeons and specialists have been operating on the Lower Intestine in such serious discases as Tuberculosis, and attribute such conditions of chronic ill bealth as Nervous Debility and Rheumatism to this cause, also saying that these poisons are favorable to the development of Cancer and Tuberculosis (as stated in a recent article in the New York Times), has caused Americans to become thoroughly awake to the importance of keeping this Lower Intestine tree from all poisonous waste matter, and over J00,000 are now using Internal Baths.

If you try the "I. B. L. Cascade" you will find yourself always bright, confident and capable—the poisonous waste makes us bilious, him, dull and nervous. Internal Baths are Nature's own cure for Constipation—just warm water properly applied. Drugs force Nature—the "J. B. L. Cascade gently assists her.
