STEAMSHIP LINE WILL RAISE RATES

Action of American-Hawaiian Company Taken to Indicate Canal Opening Not Close.

MANY ITEMS ARE AFFECTED

Partland Houses Send Pleas for Haste in Unloading Holiday Goods on Vessels Held Up When Slides First Came.

Evidence that the directorate of the American-Hawalian service does not look for a recomption of traffic by way of the Panama Canal soon after January I is intimated by notice reseived yesterday of an advance of I cents on each 186 pounds covering cer-tain commodities westloand, that will become effective December 27 with the departure from New York of the

Hardware, agricultural implements. Hardware, agricultural implements, paints, wire, wire cloth and notting, heas and copper wire and faccets, printing ink and numerous articles are affected by the raise, and, as with an advance made a mestic age on other shipments, it is understood to be simply to provide for the extra expense of steaming the liners by way of the straits of Magellan since the Panama rests is blockaded. The announcement gives Portland houses epportunity to order supplies for earlier shipment to avoid the higher rates on what is required for the trade in the near future. At present the Atlantic-Pacific lines are being besieged by Portland firms

are being besieged by Portland firms to rush goods ashore from the first steamers that were held at the eastern steamers that were held at the eastern entrance to the Canal, with the expectation that the stides would be cleared without delay, as on those versels are many holiday goods that will be in active demand early next month. The liner Santa Cecilia, of the Grace dest, is looked for her December 4 and G. M. McDowell, Portland agent, mays the vessel will be worked nights to hurry her cargo ashore, with preference heing given Christmas stock as far as possible, a list having been made of the phokages and marks and their location in the ship se as to facilitate the unlocating.

The American-Hawalian will have

the unloading.

The American-Hawalian will have the Igwan here December 16, and her feeight will be handled with the same speed to accommodate the trade. At the office of that line it is said that if inquiries are any criterion every pound of cargo absent the Iowan comes within the class of holiday goods.

When both of those steamers were leaded at New York II was not thought that elides in the Canal would prove sufficiently serious to block the channel for such a long period, and the sched-

aufficiently serious to block the channel for such a long period, and the scheduled time of arrival here was such that shipments could have been delivered leistrely and abundant time allowed for gutting them in shape for display to the holiday trade. When it became certain that the vessels would be late some additional holiday goods were ardered to be hurried by railroad, but for some houses the bulk of the surchasses will be available only a short time terfore the big valetide rush in da. before the big ymistide rush in do.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for caloniel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edward's determination not to treat liver and bowel completints with caloniel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that caloniel does, but have no bad after effects. They don't injure the teeth like strong liquids or caloniel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Caloniel sometimes plays havon with the gums. So do strong liquids.

It is best not to take caloniel, but to let Dr. Edwards' Olive Tablets take its place.

place.

Most headaches, "duliness" and that lary feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "loggy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. At 10c and 250 per box. All druggists.

ANTI-KAMNIA TABLETS FOR ALL PAIN

"The efficiency of any drug" says Dr. C. P. Robbins, "is known to us by the results we obtain from its use. If we are able to control pain and disease by means of any preparation, we certainly are warranted in the use. One of the principal symptoms of all diseases is pain, and this is what the patient most often applies to us for, 1 e. something to relieve his pain. If we can arrest this promptly, the patient is most habite to trust in us for the other remedies which will effect a permanent cure. One remedy which have used largely in my practice is Antikamnia Tablets. Many and varied are their uses. I have put them to the test on many occasions and have never been disappointed. I found them especially valuable for headaches of malarist origin, where quinne was being taken. They appear to prevent the bad after-effects of the quinine. Antikamnia Tablets are also excellent for the headaches from improper digestion, and expectally for womenst, opect to pains at certain times. Two Anti-kamnia Tablets give prompt relief, and in a short time the patient is able to go ab out as usua. These tablets nay be obtained at all druggists. Ask for A-K Tablets. They are also unexcelled for a leadaches neuralgia and all pains.
