

ANOTHER GALE IS SWEEPING BARVIEW

Southern Pacific Is Rushing Work on Seawall to Save Its Tracks.

DAMAGE PLACED AT \$15,000

Several Feet of Jetty Washed Into Sea and More May Go, High Tide Rushing Over Tracks but Doing No Damage; Elmore Hit.

BAR VIEW, Or., Nov. 24.—(Special.)—Another gale, traveling at the rate of 40 miles an hour, is kicking up the surf here today and the Southern Pacific Company is still busy engaged in driving piling and dumping rocks alongside its tracks as a seawall to save the property, the water now being within five feet of the tracks.

Damage already done by the storm is estimated from \$15,000 to \$20,000 and it appears that more may be done in the present gale, which arose about 6 o'clock, continued. No other cottages are in immediate danger of being undermined by the angry waters.

Several feet of the jetty have been washed away by the breakers at the extreme end of the wall and there is the possibility that more will go out. Storm Once Thought Passed.

All day the sea was rolling easily and it appeared that the storm was over, but tonight the breakers are again rolling high.

At high tide the water washed over the tracks, but did no damage and the cargo of three cars was kept continuously at work to save the property of the hotel.

The Elmore Hotel, five miles north of here, is reported to be safe, though it was damaged last year by a storm similar to the one which has just swept over this territory.

Breakers Reach Hotel. Yesterday, however, the breakers came up to the hotel porch, but did no damage as their force was broken by the railroad track between the hotel and the shore line, protected by a rock seawall.

There was no damage at Gearhart, though the water dashed high on the beach. There is no little comment being heard here to the effect that the building of the jetty is the cause of the great loss of property.

ROCKAWAY WALL IS DAMAGED Two-Hundred-Foot Section Is Carried Away, but Sea Is Calmer.

ROCKAWAY, Or., Nov. 24.—(Special.)—Much excitement was felt along the Cliffside beach during the storm and high tide of yesterday, which caused so much damage at Bar View.

When it was seen at 10 A. M. that the 15-foot tide was then in as far as most ten-foot tides have been and with three hours more run, assisted by a strong offshore blow, that damage might result, property owners along the beach were apprehensive of big losses.

Huge cinders dished half way up the high sea walls, piling logs and drift up in pyramids to be carried away again on the next wave and deposited elsewhere.

BANISHED HIS DESIRE FOR TOBACCO

A Kansas Man Tells of a Simple Home Recipe That Broke Him of Using Tobacco.

Mr. John Miller, living at Waverly, Kas., after using tobacco for 20 years, banished his desire for tobacco with a simple recipe which he mixed at home. In a recent statement Mr. Miller said: "I could not stop the use of my own accord, so I used the following simple recipe almost two years ago and have not touched tobacco since. To 2 oz. of water add 20 grains of muriate of ammonia, a small box of Varlex Compound, and 10 grains of pepper. Take a teaspoonful three times a day. As it has no color or smell it can be given secretly in tea, coffee, milk or in food. Any druggist can fill this recipe at very little cost, and it certainly will banish all desire for tobacco."—Adv.

LORDS ARE SCORED

Attack on Headquarters Staff Is Denounced.

CENSORSHIP IS SUGGESTED

Harangue Before Peers Is Compared to Treachery by Director of Recruiting—Advice to Quit Dardanelles Is Denied.

LONDON, Nov. 24.—The Earl of Derby, in charge of British recruiting, speaking before the Stock Exchange today, declared that the House of Lords needed a censorship.

He denounced freedom of speech such as that employed in the recent harangue delivered by Lord St. David in the House of Lords, in which he attacked the British headquarters staff.

"The man who gives information to the enemy," said Lord Derby, "goes by an ugly name, and it should be given just as much to a speech delivered in the House of Lords as to a man who risks his life getting information for the enemy."

Act Held Un gentlemanly.

After saying that "no gentleman" would have made, and no gentleman would believe, Lord St. David's accusations and subjecting Lord Ribblesdale's recent utterances to a like denunciation, Lord Derby spoke of recruiting.

He said he did not come to enlist recruits in the Stock Exchange, but to seek the loyal co-operation of its members in the scheme he had undertaken.

Stung by the vitriolic criticism of his recent attack in the House of Lords on the British headquarters staff at the front, Lord St. David told the Peers today that wrong construction had been placed on his words.

When he spoke of the visits of women at headquarters he only had in mind a single visit at the beginning of the war, he said.

Blame Put on Self.

He thought it not appropriate that this great tragedy of war should be used as a peep show.

The Margat of Crew, said Lord St. David, had only himself to blame for the harsh remarks made about his indiscrete and damaging criticism of the headquarters staff.

Regarding Lord Ribblesdale's allegation in his recent speech that it was common knowledge that Lieutenant-General Sir Charles C. Monro, commander of the British expedition at the Dardanelles, had reported in favor of abandonment of the Dardanelles campaign, Lord Derby said:

"I am in the War Office and know nothing about it. There must have been a second traitor to give him information and we ought to know who he is."

ALLIES AND GREECE REACH AGREEMENT

Troops Entering Territory and Using It as Base Not to Have Opposition.

INDEMNITY IS PROMISED

Military Phase of Campaign in Balkans Grows Graver; Northern Serbian Army Preparing to Make Last Stand.

LONDON, Nov. 24.—There has been a distinct improvement in the diplomatic relations between Greece and the entente powers, following the presentation of a collective note by the representatives of the allies. The Greek Premier is reported to have said that while Greece put forward theoretical objections to action by allied troops in entering Greek territory, and using it as a victualing base, she would not raise a finger against them.

All that the allies are now waiting for is a guarantee that Greece will carry out this assurance.

Allies Not to Be Disarmed.

The Greek government replied Wednesday to the allied powers' note, according to a dispatch to Reuters' Telegram Company, which adds: "It is understood that the reply agrees not to disarm the allied forces, given their liberty of action on Greek territory for their own security, and accords railway and telegraphic facilities. The government only makes reservations regarding a further examination of certain details."

The Greek declaration that any part of the Greek territory occupied by the allies will be restored in the due course and any justifiable indemnities paid has favorably impressed the Greek government. The situation is developing so well that the Greek steamers held up at Malta have been released.

Military Situation Graver.

On the military side, the Balkans, on the other hand, especially so far as the Serbian northern army is concerned, the situation has grown graver. Austro-German and Bulgarian troops, operating in three separate columns, have entered Kossovo Plain, where the Serbians are expected to make their last stand, and have occupied Mitrovitz, Pristina, and at one point at least have driven the Serbians across the sitnica River, within dramatic the valley.

Although the Serbians might make a stand between the valley and the Albanian and Montenegrin frontiers, they will be at a great disadvantage, owing to their inability to get munitions and supplies, while their opponents will have virtually everything they require.

The Serbians on the Kachanik front and also in the southwest corner of their country continue to hold back the invaders, as do the Anglo-French forces in the southeast.
