Don't waste dollars in smoke!

"That smoke represents wasted profits—lost fuel—unburned coal—and breaks the city smoke laws. Let us show you how to burn it—and turn a waste into a profit."

"We will prove to you by test that you may burn the very cheapest grades of soft coal and get quite as much total heating power (without smoke) as if you used high-priced hard coal or semi-bituminous coals."

Thousands of owners of apartments, large residences, factories, office buildings, institutions, greenhouses, schools, etc., are now profiting in this way by using the

not require expensive excavation or brick setting. When the short-lived old steel plate and tube boiler gives out, ask your contractor to bury it under the basement floor (not an unusual practice) and erect an IDEAL SMOKELESS Down-Draft Boiler in its place.

The IDEAL Boiler is made in sections or units and is easily carried through doorway and set up quickly at any time in buildings already erected. If building is altered or enlarged IDEAL Boiler may have extra sections added easily.

Let us show them to you in operation and give you the actual results and reasons why they are best for your building. Send for catalogue "IDEAL SMOKELESS Down-Draft Boilers" and get in touch with our nearest Sales Branch...
