Prices Not Affected by Latest Advance at Chicago-Export Movement Eastbound Halted by Congestion on Atlantic Coast.

There was a resumption of wheat buying in the country punterilay after a pause of we days, eccusioned by the Canadian grain secure. The Domining government's action less much of its offect as a market factor, and the disposition here was to go shee with business. The advance of about I's cents at Chicago probably was influential in starting the buying, but prices in the North-west were not raised. In fact, dealers reported the buring sasier, with offerinas larger than they have been for a month of

The only outlet for rail expert shipments is the Gulf, and an insurmounship abstants to shipments from the Pacific to Northwest by that route is the high steamer freight rate. Freights from the Atlantic Coust are also sevencing, and may be too bigh, when the terminal congestion at New Yerk and Stationers is releved, to permit a continuative of overland business. It is exti-mated that wheat sales, up to this time, for ust from the Northwest by the Atlandic side, aggregate 100,000 bushels. Interest in the harry market was ecca-sioned by the sharp nivence at that Fran-

cisco, where the December delivery has moved up about 5 cents this week. According to a fine Francisco correspondent, unusuheavy rules for shipment eastword by the ratt and Gulf route have been put through, with stocks already much reduced previous heavy shopments of this kind. The barley market in the Northwest has been inactive of late. Prices were lifted some time ago to a point that checked export operations, and the foreign trade has not been resumed.
