Attempt to Make Civil Government Subservient to Religion and to Make Attendance at Church Compulsory, Is Charged.

"The principle that destroys all human liberty is back of the Sunday laws," said W. M. Healey, of San Diego. Cal., in an address yesterday morning in the Heilig Theater. Mr. Healey was see of the three speakers who addrassed mass meetings in the Heiltg. Naker and Pantages Theaters. The meetings were held simultaneously. Lether Warren, of Los Angales, and Professor C. Listher Warren referred to the subject of the Sunday-closing laws as one of the biggest topics of the day. "It is more than a matter of the right of each individual to earn his own living, "It is a question as big as

You cannot change the heart and character of man by the massage of civil laws. His spiritual life must be gained through the ministry of Jesus Christ. Christ said himself that he vums not to judge. One of the active organizations at Jefferson High School is the newly organized employment bureau, the purpose of which is to assist those students of the school wishing work to secure it. The bureau was organized by the commercial club of the school, which is composed of students of the commercial courses. The employment bureau is being conducted entirely along businesslike lines.

The bureau is making a survey of the student body of the school and is this way securing the names of all students who wish part time work. It is also taking the subject up with the business men of the city and obtaining a list of positions which might be filled by students. In this way the bureau will bring together the student wishing to work and the business man needing help.

To give prominence to this work and other activities of a commercial nature, which are being carried on at Jefferson High School, a 16-page publication, the Jefferson Business Journal, is being issued monthly.
