\$2.50 an Acre and Timber Must Be Included in Sales.

Substantially all the cententions made by the Government in its application for a decree in the Oregon & California land grant case were sustained by Judge Wolverton in the United States. District Court yesterday.

Judge Wolverton's final decree coin-

cided with the tentative decree submitted to the court on the previous day by Constantine J. Smyth, special assistant to the Attorney-General in the two important particulars over which the opposing attorneys had disagreed. These two particulars limit the interest of the Southern Pacific company in the land to \$1.50 an acre, with no interest in the timber, stone or other natural resources, and charge the costs of the proceedings, which have covered a period of nine years, against the defendant railroad.
It is probable that the Southern Pacific will appeal the court's decision as set forth in the decree.

Appeal Is Probable. In arguing the case on Wednesday, Peter F. Dunne, attorney for the South-ern Pacific, threatened an appeal in the event the Government's viewpoint was accepted by the court. Mr. Dunne was not present in court yesterday. The railroad was represented by Ben C. Day,

Did You Hear About

Widow Week?

Did you know that at a simple request from their newspapers tens of thousands of storekeepers simultaneously made window displays?

And these showings were all with one keynote—"Newspaper Advertised Products." The newspaper's show window reached from the Atlantic to the Pacific and from Northern Can-

ada to Mexico. It was designed to show manufacturers the fact that the way to the dealer's counter is through the newspaper.
