Provision Made for Deduction From Oregon's Share of Forest Reserve Receipts-Bills in Line With

Department Policy.

OREGONIAN NEWS BUREAU, Washmeton, Dec. 17 .- Representatives Mc-Arthur and Sinnott are co-operating in preparing a bill authorising the Secretary of Agriculture to expend \$225,-800 from receipts of the forest reserves in Oregon for the current and coming fiscal years in constructing the Mount

The bill will provide that the read shall be 24 feet wide and shall run from a point near Government Camp, in Clackamas County, to a point near Mount Hood Lodge in Upper Hood Valley, with a branch road extending

Valley, with a branch road extending westward to Elk Meadow and branches extending eastward to Brookes Meadow and to the western terminus of the Louis Klinger road from Dufur.
The main road not only will connect with the Barlow and Wapinitia roads at Government Camp and the Columbia River Highway, via Hood River, but will afford outlets to The Dalles, Dufur and other points in Rastern Oregon.

Cost to Be Deducted. proposed by the bill that the ment shall construct these roads Government shall construct these roads through the forest reservation out of its share of the annual receipts from the forest reserves of Gregon, but that the cost of construction eventually shall be deducted from the 25 per cent allested to the state. No interest is to be charged against the state for tunds so advanced, but from July 1, 1912, the percentage of forestry receipts allested to the State of Gregon is to be reduced from 25 to 10 per cent until the difference, 15 per cent, equals the cost of road construction, after which the state shall receive its full 25 per state shall receive its full 25 per

ount.

Officials of the Forest Service estimated that by 1922, chiefly by reason of the construction of the roads contemplated in the bill now in preparation, the receipts from the Oregon National Forest will be increased to such a figure that the decreased percentage will yield more to the state than the present 25 per cent.

Representative McArthur will introduce this bill in the House and it will be referred to the committee on agriculture, of which Representative Hawley is a member. Mr. McArthur said today that introduction had been delayed until after the holidays because the data relative to surveys had not yet reached Washington from the Portland office of the Forest Service. It is expected daily.

Taylor of Colorado and Mondell of Wyoming, providing for similar financing of roads in forest reserves in their convertes states. Inamuch as these respective states. Insemuch as these bills call for no direct appropriation and are in line with a policy favored by the Secretary of Agriculture, they stand better chance of passage than they would if they had to run the gauntlet of the appropriations committee.
