THE WEARING-DOWN PROCESS. Ever since the first battle of Ypres the allies have been saying from time to time that the Teutons have passed the point of maximum power and that from that time they must grow weaker. Since that battle the Teutons have driven the Russians several hundred miles eastward and have lost little ground in the west. Italy has been added to the number of their enemies without appreciable effect on their but Bulgaria has been added to their forces with the result that they have advanced from the Danube within fifty miles of the Aegean

These advances can only have been made at heavy cost in men and material-much heavier in proportion than that to each one of the allies, for the Germans and Austrians have been fighting continually on two fronts, while each of the allies has fought enly on one front, the Durdanelles campaign being a side issue. The central empires must surely have their bast available man in the field or in first reserves, and their losses have certainly been such that the number of youths attaining military age each ear cannot have filled the gaps. France is the only one among allies of which this can be said, for Britain has only begun during the past Summer to put her new levies just when or where the bandit Villa in the field, and will have 2,000,000 is going to turn up next, but leaving aside mere matters of detail, his prestically the only limit to Russia's abilant condition is a precarious one. A Ity to provide new armics is her ability to train and equip them. Italy's forces have suffered no reduction which a year's new levies cannot make without following hams of a man with the presidency his for the asking, the is now reduced to the state of a man with the presidency his for the asking, the is now reduced to the state of a man with the presidency his for the asking, the is now reduced to the state of a man with the presidency his for the asking, the is now reduced to the state of a man with the presidency his for the asking, the is now reduced to the state of a man with the presidency his for the asking, the is now reduced to the state of a man with the presidency his for the asking, the is now reduced to the state of a man with the presidency his for the asking, the is now reduced to the state of a man with the presidency his for the asking, the is now reduced to the state of a man with the presidency his for the asking, the is now reduced to the state of a man with the state of a man wi
