Although S. S. McClure has consented at the request of Henry Ford to stay with the party, Judge See B. Lindsey. Mrs. Lindsey and others of the secensionist group are still undecided.

Except for his intervention with respect to Mr. McClure, Mr. Ford is not having anything to do with the conduct of the party except the important part of footing the hills. The trip so far has cost Mr. Ford \$125,000, and if the schedule is followed \$100,500 will have been expended before the pligrims set foot in America again.

Mr. Lochner intervened and squeiched it. Next came a well-circulated report that a system of espionage had been established as to the drings and sarings of the leading delegates. Contings of the leading was caused by this.

There were more entries of sheep, cattle and swine than in any other livestock show ever held. The quality afterable ill feeling was caused by this. On the whole the expedition totally lacks organisation and the delegates may be said to be on their way, but don't know where they are going.

PORTLAND THE TOURIST CENTER OF THE NORTH-WEST.

With the construction of the Columbia River Highway, the completion of 60 miles of hardsurfaced paving in Multnomah County, the improvement of scenic boulevards, the acquisition of Benson Park, the development of city parks and the building of Larch Mountain Trail, great strides have been made this year in Portland's programme to attract and entertain tourists and risitors who are expected to come West in increasing numbers in the future. With the attractions right at the city's door and the numerous scenic places directly accessible from the city, Portland ! rightfully can claim the distinction of being the "tourist center of the Pacific Northwest."

In the forthcoming New Year's edition of The Oregonian, Portland's many scenic attractions will be fully described and arguments presented to show why : Portland should be the centering place for tourists.

### ANTI-KAMNIA TABLETS STOP **The Pains** of Sciatica

Dr. E. C. Underwood says that there is no expression of neuralgia which is more distressing than that known as Sciatica. The cause of this condition is usually exposure to cold and dampness. One of the most common causes is rheumatism; indeed this is so often the cause that some writers include sciatics among the varieties of rheumatism.

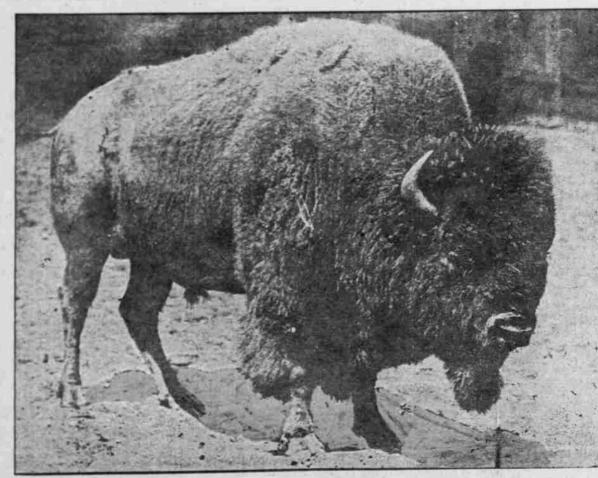

matism.

The treatment includes remedies to counteract the cause of the disease, as well as measures looking to the relief of pain. Whatever treatment may be employed, two things must be borne in mind—the patient must be kept as free from pain as possible. and be kept as quiet as possible. One of two Anti-Kammia Tablets should be given every two or three hours, and the patient must be warned against going out in incloment weather.

Anti-Kamnia Tablets may be obtained at all druggists in any quantity, 10c worth of more. Ask for A-K Tablets.
