Possible Origin of "Oregon."

PORTLAND, Or. Dec. 21.-(To the Editor.)-From time to time I have noticed discussions in The Oregonian, and elsewhere, relative to the derivation of the name Oregon. As far as I know, it has never been satisfactorily explained where this nume came from.

explained where this nume came from. So I offer the following suggestion: About the middle of the 16th century the Spaniards, who had conquered the races generally known as the Incas, which dwelt in the extremely moun-tainous regions of Western South America, gave to certain tribes the name of "Orejones." In the Spanish language this word is pronounced ex-actly as would be the word "Oregones," as both the "J" and the "g" have the sound of our "h." Is it not possible that the Spanish cheaper there and of as good quality. Now I am not "kicking" on Portland, but eight others besides myself-we are

Truth

"Advertising," says Newspaper-dom, "has had a tremendous effect on marketing morals-this because of its public character.

"A business requires a great many years of steady, profitable business in order to pay back the investment. "The product must be good, and the truth must be told about it to keep up the business.

"A firm cannot talk to millions of people and expect to get away con-inuously with a lie.

"It cannot afford to reduce or wipe ut Its future profits.

"Telling the truth in advertising really is business insurance."
