

## MONROE DOCTRINE NOW 'TIE OF UNION'

South and Central American Countries Take New View of Famous Policy.

### SECRETARY LANSING TALKS

Vice-President Marshall, Speaking for Mr. Wilson Before Pan-American Congress, Says: 'In Presence of Love, Science Silent.'

WASHINGTON, Dec. 27.—Pan-Americanism, characterized by Secretary Lansing in his address of welcome as the "expression of the idea of internationalism," was the central thought in the speeches made today at the opening of the second Pan-American Scientific Congress.

Men and women from all the republics of the two Americas attended the session, which was held in Continental Memorial Hall of the Daughters of the American Revolution. There were more than 1900 of them, including official delegates, guests of the Carnegie Endowment and many others prominent in science and other fields of investigation. Tomorrow they will begin the serious work of the congress.

Vice-President Marshall welcomed the visitors after John Barrett, director-general of the Pan-American Union, had introduced Eduardo Suarez Muller, Ambassador of Chile, the president of the congress.

President's Place Filled. Mr. Marshall took the place of President Wilson, who is away on his wedding trip. "And I shall not apologize for the President's absence," he said. "After this explanation, he continued: 'In the presence of love, science is silent.'

After welcoming the guests in the name of the Nation, the Vice-President said a word about preparations to defend the rights of Americans.

"I am one of those men who believe in preparation for war," he said. "Not that I want war, because the dream and the prayer of my life is that we shall keep out of war, but I know myself I am not willing to have some ruffian interfere with what I believe to be my rights."

The Monroe Doctrine was discussed by Ambassador Suarez, who declared that so long as it was understood as a threat, it was viewed with distrust by South and Central America, but that defined as a derivation of Pan-Americanism, it had become a "tie of union, a guarantee, a bulwark for our democracy."

"Equality and fraternity that know no superior and no inferior, but which recognize only equality and fraternity" was the thought Secretary Lansing left in his address on Pan-Americanism and the Monroe Doctrine.

President's Words Message. From Hot Springs, Va., President Wilson sent to the Congress a message, expressing his hope for its success and his appreciation of the large attendance.

Erasmo Quezada, of the Argentine delegation, expressed a wish to see some practical accomplishment result from the meeting, proposed that steps be taken for creation of a bureau for interchange of university instructors and students, a bibliographical union for exchange of publications and an international union for conservation of pre-Columbian records.

Members of the congress were guests tonight at a reception by Secretary Lansing and members of the official delegation of the United States.

## 2 BANK ROBBERS SHOT

\$4000 RECOVERED BY MAN TIED BY PAIR OF YOUTHS.

Oklahoma Desperadoes Unable to Lock Door After Throwing Bomb Cashed Into Vault.

GRANT, Okla., Dec. 27.—After having been thrown into the bank vault with his hands tied by two youths who robbed the Bank of Grant of \$4000 today, Cashier Webb slipped out of his bonds, intercepted the desperadoes before they got out of town, and shot and badly wounded both of them.

The robbers, who came to the Sheriff's office, gave as Claud Jones and Arthur McFarland, were taken to jail at Hugo tonight. Physicians said Jones probably would die. Both live near Grant.

A customer who was in the bank when the robbers entered was driven with the cashier into the vault, the door of which the youths could not lock through their ignorance of the time lock.

Webb loosened his hands and as they left the building he left the vault and obtained a shotgun. Taking a short cut to the railroad station, Webb concealed himself behind a pile of ties. As the robbers approached, Webb ordered them to put up their hands. They failed to obey and the cashier opened fire. Nine or 10 shots struck McFarland and one struck Jones.

The money was recovered.

## STATE TROPHY AWARDED

NAVAL RESERVE GUNNERS GET MEDALS AT INSPECTION.

Coast Record Established by Oregon Men Expected to Lead Country. Dance Follows Ceremony.

Award of the state trophy in the winning gun crew on the cutter Boston was made at the quarterly inspection on board the training ship last night, and the state medals were conferred upon each member of the gun crew.

This crew was No. 1 in the first division, and made the record of 14 hits out of 16 shots, and four hits in 30 seconds, last August at the annual practice. This is the record for the Pacific Coast and is expected to stand as the record for the naval militia of the entire country.

The gun crew was under Captain C. J. Dyer and his personnel follows: Gun captain, P. C. Edd; drummer, R. D. Thomas; pointers, L. J. Carson and J. P. Benedict; trainmen, A. G. Roe and W. D. Harvett; primer men, E. Mott, eight; setters, C. E. Christy and L. P. Mitchell; shellmen, F. D. Pierce and Charles

Dye, Jr.; powder men, O. Halliet and J. W. Carlin.

The inspection was conducted by Lieutenant John R. Blackburn, United States Navy, and Adjutant-General George A. Walte, of the State of Oregon.

"The naval militia is in exceptionally fine condition," said General White, in presenting the trophy to the gun crew.

"The record made in gun practice is the best indication of the splendid co-operation between officers and men, and the fine teamwork and spirit which characterizes the new naval militia."

Motion pictures of the presentation were made by the Pathé Weekly.

Following the inspection last night a ball was given and refreshments served. The ball was decorated with evergreens and Christmas trees adorned with bright lights.

## LAND-GRANT TIMBER VALUE ESTIMATED

Commissioner Tallman in Report Puts Figure at \$75,000,000 to \$100,000,000.

OREGONIAN NEWS BUREAU, Washington, Dec. 27.—"Of the 2,300,000 acres of land involved in the Oregon & California land grant suit, approximately 1,900,000 acres comprise timber lands, situated in 18 different counties of the state of Oregon. It has been estimated that the amount of timber on these lands is at least 75,000,000,000 feet, said to be worth from \$50,000,000 to \$100,000,000."

This statement is contained in the annual report of Clay Tallman, Commissioner of the General Land Office, Commissioner Tallman incorporated in his report an interpretation of the Supreme Court decision, but does not indicate the plan of legislation which he intends to recommend, that subject being still under consideration.

Definite Plan Not Formulated. "Several plans have been suggested for the disposition of the lands," says he, "with a view to recommending legislation to Congress to make the disposition suggested by the courts effective. The subject is still under consideration, but a definite plan has not yet been formulated, though one probably will be suggested to Congress, either by the Department of the Interior or by the Department of Justice."

In digesting the Supreme Court opinion, Commissioner Tallman says: "The decision rendered by the United States Supreme Court reversed the decree of the lower court and refused to declare the grant forfeited, principally on the ground that the conditions under which the grant was made did not amount to conditions subsequent, the fulfillment of which would invalidate the contract, but were enforceable covenants which the Government could require the grantees to perform."

Congress Has Reasonable Opportunity. "Among other things, the court decided, however, that the lands involved in the suit invite more to speculation than to settlement, and in view of that fact it enjoined the railroad company from making any disposition of the lands or of the timber upon the lands until Congress shall have had a reasonable opportunity to provide by legislation for such disposition as it may deem fitting under the circumstances, and at the same time secure to the defendants all the value which the granting acts conferred upon the railroads."

If Congress does not act, the defendants are granted the privilege of applying to the United States District Court within a reasonable time, not less than six months from the date of the entry of the decree, for a modification of so much of the injunction as affects the disposition of the lands and the timber thereon."

## COOS BAY HAS BEER SCARE

Supply Almost Exhausted When Ocean Shipments Arrive.

MARSHFIELD, Or., Dec. 27.—(Special.)—The dreaded drought had a strange hold on Marshfield and North Bend this morning, and but for the arrival of the steam schooner Yellowstone with a shipment of beer many saloons would have sold out their liquors and closed.

The Coos Bay brewery delivered its last beer Friday, and in the rush of the Christmas trade a number of saloons exhausted their beer stock. The shipment of this morning will tide them over for a few days, but half the saloons in the county will be without beer by the middle of the week.

## WOMAN, 82, NATURALIZED

United States Is Best Country on Earth, Says Native Canadian.

SAN JOSE, Cal., Dec. 27.—(Special.)—Mary Wheaton is 82 years old, but that does not prevent her from wanting to become a citizen of the United States. Her desire was gratified here today when she was admitted to citizenship after an examination before Judge Welch.

Mrs. Wheaton was born in Canada. The United States is the "best country on earth," she told the naturalization examiner.

## ALIENS ACCUSE VIRGINIANS

Russians Appeal to Embassy at Washington for Protection.

ROPERWELL, Va., Dec. 27.—Russian residents of Roperwell tonight sent to the Russian Ambassador at Washington an appeal for protection against abuses they alleged have been committed by the local police and state militiamen on guard since the disastrous fire several weeks ago.

The appeal followed the wounding of a Russian by a militiaman aiding in a raid on a house where it was charged liquor was being sold.

## NOTED SCIENTISTS FROM SOUTH AMERICA ATTEND PAN-AMERICAN SCIENTIFIC CONGRESS.

Seated, Left to Right—Dr. J. de Oliveira Botelho, of Brazil; Mrs. Marcus M. Marks, of Guatemala; and Mrs. Antonio Batres, of Guatemala.

Standing, Left to Right—W. A. Ferguson, of Hawaii; Borough President Marks, Dr. Javier Liza Liza, of Chile; Dr. Jose Maripos, of Guatemala; Dr. Rodolfo Hobbes, of Guatemala; Ralph Folke, of Hawaii; and Salmier, Private Secretary to Dr. Botelho.

Every Latin-American country is represented among the delegates in Washington attending the second Pan-American Scientific Congress, which opened yesterday. This picture of the delegates was taken in the Municipal building, New York, December 22, where they were entertained by a committee appointed by the Secretary of State.

Seated, Left to Right—Dr. J. de Oliveira Botelho, of Brazil; Mrs. Marcus M. Marks, of Guatemala; and Mrs. Antonio Batres, of Guatemala. Standing, Left to Right—W. A. Ferguson, of Hawaii; Borough President Marks, Dr. Javier Liza Liza, of Chile; Dr. Jose Maripos, of Guatemala; Dr. Rodolfo Hobbes, of Guatemala; Ralph Folke, of Hawaii; and Salmier, Private Secretary to Dr. Botelho.

## LAND-GRANT TIMBER VALUE ESTIMATED

Commissioner Tallman in Report Puts Figure at \$75,000,000 to \$100,000,000.

### PLAN IS NOT FORMULATED

Subject Still Under Consideration by Department—Interpretation of Supreme Court Decision Is Incorporated.

OREGONIAN NEWS BUREAU, Washington, Dec. 27.—"Of the 2,300,000 acres of land involved in the Oregon & California land grant suit, approximately 1,900,000 acres comprise timber lands, situated in 18 different counties of the state of Oregon. It has been estimated that the amount of timber on these lands is at least 75,000,000,000 feet, said to be worth from \$50,000,000 to \$100,000,000."

This statement is contained in the annual report of Clay Tallman, Commissioner of the General Land Office, Commissioner Tallman incorporated in his report an interpretation of the Supreme Court decision, but does not indicate the plan of legislation which he intends to recommend, that subject being still under consideration.

Definite Plan Not Formulated. If Congress does not act, the defendants are granted the privilege of applying to the United States District Court within a reasonable time, not less than six months from the date of the entry of the decree, for a modification of so much of the injunction as affects the disposition of the lands and the timber thereon."

## LEPROSY CURE ASSERTED

PORTLAND CHIROPRACTOR WANTS TO GO TO ISLAND COLONY.

Dr. A. N. Briggs Seeks Government Appointment and Asks to Be Sent to Cullen or Molokai.

Albert N. Briggs, a Portland chiropractor, believes he can cure leprosy. He is confident he can cure the disease and is willing to give himself to the cause and go to one of the leper colonies.

To this end he has made application for appointment to the civil service and is patiently waiting a reply. In the meantime he is reluctant to discuss the situation, for he feels that there is a possibility for disappointment. It is not the first time, he says, that he has made such an application. He asked the Government to be sent into Mexico during a recent typhoid epidemic to apply a treatment for typhoid. He was

## WATCH SNATCHER JAILED

Herbert Fletcher Gets 60 Days for Taking Farmers' Timepiece.

Convicted of taking a valuable watch belonging to August Anderson, a farmer of Beaverton, Or., Herbert Fletcher was sentenced to 60 days in jail in Municipal Court yesterday. Fletcher met Mr. Anderson on the Federal's Thursday shortly after the latter had purchased the watch from a First-street jeweler. Fletcher asked the time and when Anderson pulled out his timepiece appropriated it.

Fletcher was arrested after he had sent a friend to sell the timepiece at the same shop from which it had been originally purchased by Anderson.

## ESCAPED PRISONER SOUGHT

WOODLAND, Wash., Dec. 27.—(Special.)—J. A. Carter, Deputy Sheriff of Cowlitz county, was in Woodland last night trying to get trace of a fugitive prisoner who escaped yesterday morning from the jail at Kalama while the prisoners were bringing in wood for the day's use.

## MEAT UNION DECIDES TO LAY FUSS BEFORE CHAMBER.

Regardless of Outcome of Demands on Market, Matter Will Be Laid Bare to Show Fairness.

Whether or not the demand of the Portland meat cutters' union is granted by the Jones market by mutual agreement between the union organization and the market committee, the question will be referred to the Chamber of Commerce and the Portland Central Labor Council.

That was the statement issued last night by O. A. Westerbeck, of the meat cutters' local. "We are asking for just a 10-hour day, and the trouble has arisen over a half hour extra that the employers have tried to force on the men," declared Mr. Westerbeck. "I think that the question will come to a favorable climax outside the conciliation board, but if it does we wish it referred to that body so that the public will be able to understand that we are not asking for much."

Mr. Westerbeck said last night that he was not averse to some of the union men going to work as early as 5:30 A. M., providing they received a 10-hour day.

A recommendation favorable to the union was adopted at the meeting of that local last night by the executive committee. Just what the recommendation was Mr. Westerbeck would not say. No statement as to the course of action adopted would be given out.

## WORK COSTS BABES' LIVES

Investigation Shows Employed Mothers Lose More Children.

WASHINGTON, Dec. 27.—The death rate in the United States among babies of mothers who work outside their homes far exceeds the infant mortality where the mother is not so employed. This is brought out in the annual report today of the Federal Child Welfare Bureau, conducting an inquiry into the social and economic causes of babies' deaths. The report shows an average infant death rate of 124 out of every 1000 babies in a steel-making and coal-mining town as against a rate of 84 out of every 1000 in a residential suburb. A greater contrast is found between the most congested sections and the choicest residential section in each of these two communities.

## GRANT DECREE STAYED

SOUTHERN PACIFIC GETS SIX WEEKS TO DECIDE COURSE.

Judge Wolverton Sets Execution for First Monday in February—Attorney Reams Objects.

Federal Judge Wolverton yesterday granted an order staying execution of the decree he has signed in the Oregon & California land grant case from January 15 to the first Monday in February.

A stay of 60 days was asked by William D. Fenton, representing the Oregon & California, who declared that attorneys for the Southern Pacific Railroad had not yet decided whether to appeal to the Circuit Court of Appeals, and thence to the United States Supreme Court, or to ask the Supreme Court for a writ of mandamus, which would bring the question to final decision at once.

United States Attorney Reams strenuously objected to granting the railroad 60 days more time. Mr. Reams declared that Congress could not act intelligently in the land grant case until it was definitely decided just what are the rights of the railroad in respect to the timber on the grant.

## Crew of Cruiser Gets \$1,200,000.

PERROL, Spain, Dec. 27.—The capital prize of \$1,200,000 (12,000,000 pesetas) in the Christmas drawing of the government lottery was won by the crew of the cruiser Alfonso XIII. The prize will be divided among 719 men who subscribed to the ticket, the price of which was 1000 pesetas.

## Town Official Sentenced.

NYACK, N. Y., Dec. 27.—William V.

disappointed that he was not given the opportunity.

If Dr. Briggs does receive his appointment, he is taking weird chances for his friends. The natives in these leper colonies suffer from the loathsome form of leprosy, said to be highly contagious. The lepers have their own schools, churches, newspapers and other institutions, and live almost an isolated life.

Dr. Briggs' application to the Secretary of the Interior at Washington was worded as follows:

"I hereby tender application for appointment to a civil service post in the National leprosy settlements, preferably at Cullen Island, Philippines, or Molokai Island, in the Hawaiian group. While I would expect some remuneration for services, I stand ready to devote exclusive service to the lepers, and am willing to defray my own traveling expenses."

"My motive in asking for this appointment is a desire to study leprosy at first hand, and apply certain scientific tests that I have worked out with the fullest faith in their absolute efficacy in eradicating leprosy when caught before the extreme stage of the disease."

## CUTTERS TO REFER WOE

MEAT UNION DECIDES TO LAY FUSS BEFORE CHAMBER.

Regardless of Outcome of Demands on Market, Matter Will Be Laid Bare to Show Fairness.

Whether or not the demand of the Portland meat cutters' union is granted by the Jones market by mutual agreement between the union organization and the market committee, the question will be referred to the Chamber of Commerce and the Portland Central Labor Council.

That was the statement issued last night by O. A. Westerbeck, of the meat cutters' local. "We are asking for just a 10-hour day, and the trouble has arisen over a half hour extra that the employers have tried to force on the men," declared Mr. Westerbeck.
