### 165 REGISTER FOR IRRIGATION MEET

Delegates From 44 Towns of State Arrive to Participate in Water Sessions.

BEND SENDS LARGE PARTY

Greater Part of Representation From Eastern Oregon Due Today and Total Is Expected to Approximate 400.

One hundred and sixty-five delegates to the Oregon Prigation Congress had registered at the headquarters at the Imperial yesterday, representing 44 different cities.

Aside from Portland's delegation, Send had the largest representation, with Al registered. Next in order came

Madras, Prinevelle and Tumale.

A large propertion of the representation from Eastern Oregon to not yet in and will not be registered until this morning. It is believed that the total registration of delegates will be approximately 400 hafore the close of Delegates registered up to last night were as follows:

Were as follows:

Arington—C. C. Clark, E. J. Clough,

Experiment Stations for Southeastern Oregon Are Suggested.

Ballway and irrigation development

Through water right withdrawale it

is expected that ultimately, when construction is undertaken, the cost of these preliminary plans will be paid back by each commanity benefited. Published reports are now available for the Deschutes, Ochoco and Silver Lake projects and similar reports will be available for the John Day, Malbeur, Owybes, Harney, Silver Creek, and that such development recessarily implies a considerable measure of Nais expected that ultimately, when con-struction is undertaken, the cost of these preliminary plans will be paid back by each community benefited. Lake projects and similar reports will soon he available for the John Day, Malheur, Owyhee, Harney, Silver Creek, Warner Valley and Rogue River proj-

ents mentioned, which represent an ag-gregate of between 400,000 and 300,000

These lands have the advantage of

"There are indications that the 200,000 acres of marsh land along the Silvies. Bilizen, Chewancan, Klamath, and
other rivers of Central Oregon which,
if properly handled, may be found to
be the richest and most fertile in this
whole vertice.

whole region.

It would be a calamity if railroads should build to Central Oregon with the understanding that these extensive heidings will be cut up and sold to settlers, unless we know that such settlers can make good. I wish to suggest that this congress take some definite action looking toward the establishes action looking toward the establishes

Inhiment of experiment stations on these awamp lands."

Leonard Lundgren, district engineer of the United States Forestry Service, spoke on "Government Rights of Way for Irrigation," and outlined the methods of procedure to expedite securing the contract of the contract

VISITORS ARE WELCOMED

Carl Woods, C. H. Brewett, H. N. Aldrich, Irksome and injurious restrictions that Hiller Labor Court Parries, H. N. Aldrich, Irksome and injurious restrictions and

ENGINEER LEWIS IS HEARD the lateral and canal system with their land for

"Railway and irrigation development tenst go hand in hand for Central Oregan," said John H. Lawis, State Engineer, in his address before the Oregan Irrigation Congress on Meritirious Irrigation Projects as Shown by Co-operation in the Interior Department; in fact I do not know what they are, but as an individual, I would not favor any active State and Foderal Surveys" at its session has night "Italiways will not built without come prospect for irrigation."

To prepare the way for effective ignigation development he said that the surveys of the various projects have been undertaken by the state and Government.

be politically practical. Hope for Action Expressed,

Warner Valley and Rogue River projeds.

Mr. Lewis outlined the methods and
merits of each of the irrigation projests manifoned, which represent an aggregate of between 400,000 and 200,000 the Government, on a dollar for dollar
gregate of between 400,000 and 200,000 the Government, on a dollar for dollar The marsh lands of Harney, Lake basis, then I can see every reason to expect that success might be achieved on a factor that must not be overlooked in plans for the development of Carlot.

the same idea of co-operation, and also urged that greater consideration be heing partially irrigated and require only drainage at small additional cost to make them productive.

The settler and the promoter must

# A COLD? LISTEN!

in Few Hours.

Your cold will break and all gripps misery end after taking a dose of Pape's Cold Compound every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head,

developing irrigation projects through the fights of way and projects through the closing address of the evening atops masty incompanies. The closing address of the evening was by Frotescor Fredrick G. Young, ed the University of Oregon, on "Oregon Development," after which the meeting was thrown open to general meeting was thrown open to general Don't stay stuffed-up! Quit blowing meeting was thrown open to general Don't stay stuffed-up! Quit blowing meeting was thrown open to general and snuffling! Ease your throbbing head—nothing class in the world gives such prompt relief as "Pape's Cold Compound." The peningula of Massachusatis, it as and attiffness and artiffness and sufflings.

The peningula of Massachusatis, it as any drug store. It acts without assaistance, tastes nice, and causes no indexed at any drug store. It acts without assaistance, tastes nice, and causes no indexed at any drug store. Addy,

the most practical line of action.

"Personally I should like to see the adoption of new Federal projects limited to localities where a part of the funds came from the state or from the funds came from the state or from the stat

work more closely together," he said,

"We must work to lower the costs we must work to lower the costs of irrigation projects. There are too many big items of overhead expense, and too many high-salaried men employed on the projects whose salaries eat deeply into the funds available. The following committees were

J. Neff

Irrigation projects he declared further, must work toward the idea of providing land that can be settled, not by the man who has \$5000 or more laid by, but for the man who is able to get together a capital of only \$500 or \$1000 with which to start on the land.

C. L. Smith, agricultural expert for the O.-W. R. & N. spoke on the development of corn-raising in Malheur County, which, he asserted, produced in the last year better crops and a finer quality of corn than any other county in the United States.

Following his address reports were made from various counting her the content of t

Following his address reports were At present indications are that J. W made from various counties by the follower, secretary of the Oregon de-

lowing speakers: J. K. Fisher, of Haines, Baker County; S. E. Notson, of Heppner, More County; George T. Cochran, of Union; C. C. Clark, of Gilliam; A. A. Bonney, of Wasco; O. C. Young, of Jefferson, and George H. Russell, of Princyllie. Crook County.

Mr. Russell spoke on the irrigation district which is being formed north of Princyllie, on which the bond election is to be held in Pebruary, and declared that the best and surest investment that Portland capital can make, "for a greater Portland and a greater Oregon," is to take up the bonds that are issued for the development of irriga-

issued for the development of irriga-tion projects in Eastern and Central That is where the population will

go to balance the population of Port-land, and that is where the products will come from to make the backbone of Pertland's commercial life and pros-perity," he declared, "and the people must obtain cheap money to make this development possible,"

### Good News for Portland

The people have spoken. The Hofbrau will stay.

It means much to the public as well as to the community.

It means, first, that the proprietors have undertaken a tremendous

But they do it enthusiastically and confidently, in appreciative response to the unanmious expression of appreciation by the people in favor of Portland retaining her popular-priced Hofbrau—demonstrated by the tens of thousands of votes in the affirmative that have been received within the past few days. . .

It means, first, that the proprietors

-will dispense overnight on January 1st with the income from the buffet;

-will retain exactly the same number of employes;

-will retain the same high-class music and entertainment; -will maintain and, if possible, improve upon the cuisine and service, and -will endeavor to merit the patronage of ALL for this distinctive institution, to be conducted solely as a popular-priced restaurant under new and vastly changed conditions that will be in vogue after January 1st.

The people of this community have likewise undertaken a task.

By actual count of the ballots returned, enough patronage is in sight to assure the success of the Hofbrau under its new policy after Janu-

But it will require persistence and co-operation by all—to induce every man, woman and child in Portland to fully appreciate and visit it early and frequently, and to see for themselves that it is a place noted for a certain distinctive individuality-two new features shortly after January 1st being a breakfast-room and soda fountain.

This community effort and the effort of the proprietors to save a worthy industry and a big annual payroll for Portland is worthy and commendable and the proprietors pledge the best that experience, attention, courtesy and service can contribute in making the effort successfully cooperative.

# The Hofbrau
