George Jumped up, for he heard his mother after all, and she was calling that the baby was awake and George went down with a pleasant face and was glad he heard her.

The picnic lunch in the kitchen was great fun, and George told his mother he liked it better than the one cook served.

"I don't know what has happened to our George," he heard his mother tell-ing his father that night, "but he was such a help he didn't have to be told

to do a thing, and I am not a bit tired tonight, he did so much." George felt that he had done some good deeds that day and he knew it was the attic Brownie who had put him on the right track to become a man, but he didn't say a word. He just kept on doing as the Brownie told him to do.

But this matter of getting light upon But this matter of getting light upon truth so as to make it practical does not to many of us, seem easy. In the matter of observances, we do the things we are told to do, but when we come up against the hard practical problems of everyday life, we seem to have nothing to fall back upon that gives us real help to produce the results desired. To many, the Christ truth seems a beautiful theory, something perhaps to please the emotions, but not a tangible thing that we can actually use. It is not, or so it seems, a matter of switching on an electric current and placing a softly glowing bulb in the window. We may look longingly at the Christ truth. We may

If we are out of a job will the Christ truth help us to get one? If we are sick, how will it make us well? If we are bound by some cvil habit how will it help us to throw off the chain? These are the ways in which we want help. If the Christ truth can help us in these ways, how can we use it?

fired from her long-maintained posi-tion of superintendent of the public schools of Chicago, is recognized by her friends and enemies alike as one of the most remarkable women living. Her vast education and knowledge of humanity has won for her the esteem of the greatest men of the day. Mrs. Young has been engaged in the teaching profession for more than 50 years. During that time she has inaugurated many modern educational movements. In her capacity of superintendent she has been intrusted with the education of almost half a million children in a single year. Her influence has made itself felt in the simplification of the curriculum of the primary grades, an increase in the scope of vecational training and the teaching of

vocational training and the teaching of sex hygiene in the public schools. Her work represented a long endeavor to

We do know that he whose life is especially in our thoughts at this season did these things. So did those who came after him for several hundred years. History tells us this. Though we may have no regard for the Bible, evidence comes from other sources to prove these matters. And before that time and since, there have been cases here and there of such work being done. Does not all this point to the fact, then, that some law or laws exist and can be called upon to produce these results again? Law knows neither time nor place but is ever operative to the mind that perceives it. We have spent so much time discovering and studying the so-called physical laws that we have given little thought to spiritual laws. But that does not mean that they do not exist.

Spiritual knowledge, then, would make way for the Christ child to come into our lives. And if we observe the pretty custom of hanging a light in our windows to light the Christ child on his way, let us determine also to put into our hearts that light which will bring the Christ child and all he stands for into our lives.

She returned with the understanding that the warring faction be removed from the School Board.

At intervals during her teaching ca reer Mrs. Young returned to college that she might acquire a doctor's degree. Like all people possessing great executive ability and aggressiveness, Mrs. Young has few mild admirers. Her scope of acquaintances includes only those who are her enemies or her
