SALEM, Or., Jan. 2.—(Special.)—The United States Bureau of Education has requested eight special photographs of the Oreegon rural school exhibit in the Educational Palace at the Panama-Pacific Exposition, to be used in a Government bulletin on rural schools. That the Oregon exhibit attracted unusual interest is shown by the official reports received each week by the State Department of Education from Mrs. W. E. Buster, who was in charge of the

Palace.
The reports for one week alone contained the names of 130 persons who were anxious to have the bulletins published by Superintendent of Public Instruction Churchill on "Playgrounds,"

New Jersey Commissioner Visitor.

Mrs. Buster also reported:
"Mrs. H. J. Shute, of Esparts, Cal., said: 'Oregon deserves much praise for what she is doing for rural schools. It is a great help to us in trying to solve

bur rural problem and we find an inswer right here.'

"This is what we need in our state,' aid G. C. Sherwood, Superintendent of ichools, of Mesa, Ariz, and I am glad o see this work being done as it is over the standardies.

For two days the subject of which of the popular beaches here as the subject of place as the subject of the subject of place as the subject of parishes to be need as a place from which to sweep the enemy into the east, was the context of former controversy.

Vians for repelling the enemy were laid in afferance and all the master minds of the state devoted their time to grappling with the local dissention that had arises.

devoted their time to armpling with the local dissension that had arisen.

W. J. Hofmann finally brought forward the plan that arraightened soit the tangle and averted the civil war.

It was agreed by Dan Moore and the other beach bossters that the chamy should be given its own selection of beaches from which to be ewent into the sea all of the newspapers piedsite themselves no matter what heach the battle took place on to mention all the other beaches with equal prominence in their headines and dispatches.

This matter settled, attention was surned once more to plans for Tepelling the invalers. General White and his start firmly advocabed believing up the har so that the heatile fleet couldn't get across.

"George Henry Jenson, director of industrial arts of the Stockton schools, said: "This exhibit is extremely interesting to me. In fitting the vocational work to the needs of the community, you have done what so many other states have not done, and this accounts for the many failures in taking up this work."

In cloning the report, Mrs. Buster wrote: The churches of the country must be bereft of denominational ideas and the center of gravity must be shifted from a mere complaisance to a new sense of responsibility if they are to cope with the conditions that the new year brings."

These declarations were the essence of the sermon delivered by Dr. William T. Ellot paster of the First Unitarian Church, at the Sunday morning service.

HEALED BY CUTICURA SOAP AND OINTMENT

"I noticed that my face was covered with pimples which began getting bigger. They were large and hard and were very red and re were so many festered at a time that I had to squeeze them out and they formed like a boil under the skin. They scattered all over my face and the itching was so intense that I had to scratch my face so much it bled.

"The trouble lasted about a month and I ne troute tared about a month and I tablets, but they did not do any good. I noticed a Cutleurs Seap and Cintment advertisement so I thought I would try them. The next day I saw the pimples were going away and I used two cakes of Cuticura Soap and three boxes of Cuticura Cintment and I was healed." the snow will not cover it. For the seed-cating birds trays should be prepared and piaced on city perchas, under trees or against the sides of barns or sheds or tied in the trees. The Fish and Game Commission officials are arranging to offer food for the birds in all the city parks and at the Beed College campus. They have appealed, however, for general cooperation from residents of the city and from farmers. "Many of the birds will die within a few days unles sthey have food." said Mr. Finley resterday. "For the chickadees and bluchirds bits of beef suet should be tied to the limbs of trees. This will keep these particular birds warm and they can forage for other food.
