

PRESIDENT URGES ALL-AMERICA PACT

Effective Agreement Between Nations of Western Hemisphere Championed.

DOMESTIC PEACE DESIRED

Wilson Says Monroe Doctrine Will Be Maintained, but That Latin America Should Cease to Distrust Interpretation.

WASHINGTON, Jan. 6.—The United States Government's Pan-American policy was revealed in detail by President Wilson tonight in an address before the second Pan-American Scientific Congress.

This programme, as outlined by the President, provides that all the American nations shall:

Agree to guarantee in each other absolute political independence and territorial integrity.

Agree to handle all disputes arising among them by peaceful methods of investigation and to settle them by arbitration.

Agree that no revolutionary expeditions shall be organized or supported by revolutionists shipped to neighboring states.

These are practical suggestions, said the President, and I for my part believe that they are going to lead the way to something that America has prayed for many a generation.

The Monroe Doctrine had been and always was maintained by the United States on its own authority, but that the doctrine did not determine what attitude the United States would assume toward other nations of the hemisphere, and consequently the other nations had been distrustful of it.

Deliberate Appraisal Sentiment. Enthusiastic applause from the delegates greeted the President's remarks. The President opened his address by placing emphasis on the mutual aims of the people of both American continents and by pointing out that co-operation was essential to their welfare.

"If nations are politically suspicious of one another, all their intercourse is embarrassed, and it is this which I take it, if it be true, as I hope it is, that your thoughts even during this congress, though the questions you are called to consider are apparently so foreign to politics, have, again and again been drawn back to the political interferences. The subject of American statesmanship, and the confidence it is to see to it that American friendship is founded on a rock."

The Monroe Doctrine was proclaimed by the United States on her own authority. It always was maintained upon her own responsibility. But the Monroe Doctrine demanded merely that European governments should not attempt to extend their political systems to this side of the Atlantic.

Does Not Mean to Be Removed. "It was a hand held up in warning, but there was no intention that America was going to do with the implied and partial protectorate which she apparently was trying to set up on this side of the Atlantic. You will find that in the statement that it has been fears and suspicions on this side which have hitherto prevented the settlement of the Monroe Doctrine and trust between the Americas. The states of America have not been certain what the United States would do with her power. That doubt must be removed."

"I hope and I believe that this can be accomplished. These conferences have a purpose, and it will be accomplished. It will be accomplished in the first place by the states of America uniting in guaranteeing to each other absolute political independence and territorial integrity. In the second place, guaranteeing the agreement to settle all pending boundary disputes by peaceful methods, and by arbitration; and the agreement to settle all disputes among themselves, should they unhappily arise, will be handled by peaceful methods, and the agreement to settle all disputes among themselves, should they unhappily arise, will be handled by peaceful methods, and the agreement to settle all disputes among themselves, should they unhappily arise, will be handled by peaceful methods."

"I hope and I believe that this can be accomplished. These conferences have a purpose, and it will be accomplished. MRS. HAMILTON DIES

Trade School Benefactor and Philanthropist Succumbs. ESTATE VALUE \$300,000

Charitable Institutions Are Expected to Benefit Most by Will of Well-Known Portland Woman.

Aid Given Home for Girls.

Mrs. Louise K. Hamilton, proprietress of the Ritz Hotel, Park and Morrison streets, and an old and widely-known resident of Portland, died late yesterday following a lingering illness.

Unable to establish whether it was usually a submarine which sank the Perla, much less the nationality of the vessel, the Administration is forced to rely on the candor of the Austro-Hungarian government.

NIMROD PRICE, 94, DIES

PIONEER OF 1851, FATHER-IN-LAW OF JUDGE WOLVERTON, PASSES.

Relative of General Sterling Price Lived on Claim in Lane County Almost 60 Years.

Nimrod Price, pioneer of 1851, father-in-law of Federal Judge Charles E. Wolverton, died Wednesday night at his home in Albany, aged 94.

Through his father's family Mr. Price was closely related to General Sterling Price, the Confederate leader, and through his mother's relatives he traced his ancestry to the Morgan family, of Revolutionary history.

Born September 1, 1822, Mr. Price spent his boyhood days in his native state. From Danville, Ill., he came to Oregon five years after his marriage in 1848.

He was the last surviving member of Corinthian Lodge, No. 17, now merged into St. John's Lodge, No. 17. He was made a Mason in 1848.

He is survived by four sons and three daughters—W. K. Price and Clark Price of Albany; R. K. Price and T. R. Price of Prineville; Mrs. Charles F. LaFollette and Mrs. H. A. Powell of Highland; and Mrs. Charles E. Wolverton, of this city.

There is no reason for anything but optimism in viewing the coming year's business in the belief of Joel L. Priest, of Boise, general agent of the Union Pacific Railway system in Idaho, who is visiting in Portland.

During October, November and December the business of the Union Pacific was particularly good, he said. "Of course some of this increase was due to the closing of the Panama Canal, but nevertheless it also indicated improved business conditions. I think the railroad men all over the country are looking forward to this year's business and are expecting a general improvement."

Mr. Priest expressed the belief that the country was ripe for the new wave of prosperity because of the large amount of money available now in the banks. "Take the city of Twin Falls in my own state, for example. Now it was nothing but sagebrush, and now it has \$2,000,000 in the banks."

Mr. Priest says there is a great rush to take up the land in Idaho and that the Government land office in that state had applications for 400,000 acres during 1915.

Senator O'Sullivan of New York, and Senator Hitchcock, of Nebraska, have declared their stand in favor of limitations upon the rights of American travelers to the seas.

Senator Stone, chairman of the committee, is inclined to favor restrictions on Americans traveling in the war zone and is frankly hostile to a breach of relations with one or all of the central powers over the issue.

Resolutions Are Voted. Senator O'Sullivan of New York, and Senator Hitchcock, of Nebraska, have declared their stand in favor of limitations upon the rights of American travelers to the seas.

GIRLS! BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Hair Becomes Charming, Wavy, Lustrous and Thick in a Few Moments.

Every Bit of Dandruff Disappears and Hair Stops Coming Out.

For 25 cents you can save your hair. In less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and charming as a young girl's after applying some Dandruff. Also try this—moisten a cloth with a little Dandruff and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Dandruff dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks you will see new hair—fine and downy at first—growing all over the scalp. If you care for pretty, soft hair, and lots of it, clearly get a 25-cent bottle of Knowlton's Dandruff from any drug store or toilet counter and just try it.

It was still her purpose to have incorporated in the city school system a department that should be used to prevent girls from becoming delinquent. She wanted special education along certain useful lines, and in all her ideas she was decidedly practical. I feel that she was one of our best citizens."

It was also a chief ambition of Mrs. Hamilton's life to establish a home where unfortunate women and girls could obtain an education and training that would make them self-supporting. She clung to the resolve to collect a fortune so that she might devote it to the establishment of such a home.

Charities Aid Expected in Will. This was later given up, because Mrs. Hamilton found in St. Elizabeth's Hospital, an institution conducted locally by the Episcopal Church for the aid of wayward girls, just such a home as she had in mind and she declared this was conducted in a much better way than she herself could hope to carry the work forward. Thereafter she was generous in her aid to that institution, as well as in helping similar efforts.

Reverses were experienced by Mrs. Hamilton in her later years, her property becoming involved, and it is declared by those in close touch with her affairs that the actual cash value of her estate will be considerably less than the estimates made. It is said, however, that her holdings will eventually represent a large figure.

It is believed that charitable institutions will be prominent among the beneficiaries of her will, as she had declared to friends that her only wish to accumulate a fortune was that she might give it for some such purpose.

Tribute Paid by Dr. A. W. Smith. "Mrs. Hamilton was a remarkable woman," said Dr. Alan Welch Smith, member of the School Board, last night. "I feel that Portland has lost one of its best friends. She was not only charitable and a splendid citizen, but public-spirited and a worker along right lines as well."

"I consider her the mother of the trade school in Portland. Nearly ten years ago she asked that I come over and talk with her, and she strongly championed a trade school for this city. She had three petitions prepared to be submitted to the School Board asking that a start be made, and she requested that I take one of the petitions and circulate it about the city for signatures of business men."

"I did so. Mayor Albee took another, and I do not now recall who circulated the third petition, as contingencies of the near future, and while the government has secured what in ordinary circumstances would be regarded as a satisfactory majority, it is a pity that the defect of a large section of the Labor party, with the loss of four members of the government, admittedly places the country in a critical position, and many doubts are expressed that it will succeed in weathering the storm."

No Cabinet council has yet been summoned and a majority of the members of the House of Commons are adverse to a general election, but an appeal to the Labor party to come about in either of two ways. First, the House of Lords could, without the consent of the government, bring the life of the Parliament to an end by simply declining to proceed with the Parliament and registration bill, which prolongs the life of the Parliament eight months. On the other hand, it may be found that Reginald McKenna, Chancellor of the Exchequer, and Walter Runciman, president of the Board of Trade, are quitting the Cabinet, though nothing is yet known of their position, in which case it would not be improbable that the government would seek an exit from its difficulties by resigning and appealing to the country.

Chancellor of the Exchequer, and Walter Runciman, president of the Board of Trade, are quitting the Cabinet, though nothing is yet known of their position, in which case it would not be improbable that the government would seek an exit from its difficulties by resigning and appealing to the country.
