EASTERN BIDS STOP

Wheat Demand Checked by Chicago Drop.

COUNTRY PRICES STEADY

No Improvement in Chances of Moving Grain to Atlantic Seaboard—Farmers Are Holding Oats for Higher Values.

Wheat trade in the country did not open as actively as it closed last week. With the decline at Chicago the feeling in the market was easier, but dealers offered practically the same prices as on Saturday. The demand was less, however, and some of the buyers were out of the market for the time being.

The Eastern weakness was naturally responsible for a cessation of bids from the East. Another reason specified was the dullness of the Eastern milling trade.

There has been no improvement in the railroad freight situation, so far as export shipments are concerned. It is easy to get wheat to Chicago, but it is difficult to get it far beyond that point. Grain has moved from the Pacific Northwest to Chicago in ten days, but there are thousands of cars out 28 days from Chicago, and not yet arrived at the Atlantic Seaboard, whereas the ordinary time on that stretch of the run is three days.

At the Merchants Exchange 1000 bushels of January club changed hands at 91 cents, a cent better than was offered on Saturday. Bluestem bids were advanced ½ cent, and red wheat bids ranged from unchanged to 1 cent higher. There was no change in forty-fold.

Oats bids were raised a quarter at the Board session. Higher prices are asked in the country, and for this reason trade for Eastern account has slowed down. Farmers are inclined now to hold their oats and sell their wheat. Oats are the cheapest of the grains, and in view of the prices at which barley and wheat are held, the prospect for this cereal seems bright.

Germany is now getting Russian wheat by way of Roumania, according to Broomhall's information. Reporting on the foreign situation, this English authority says:

Italian Status—Crop and weather reports favorable. Heavy sales to importers continue.

Russia—Considerable grain is being purchased by Roumania for reshipment, as reported from Odessa.

Germany—Weather mild with plenty of snow. Large takings are reported from Roumania, and it is reported that this is Russian wheat, as Roumania has purchased freely.

United Kingdom—Weather is fine, following rain and snow and severe cold. Parties offers are light and movement greatly impeded by weather and reduced railway facilities.

France—Crops are looking well. Weather generally mild after snow, and growers express satisfaction, with crop prospects on a reduced area. Large imports will be necessary as reserves are light.

Argentina—Weather favors harvesting, but wheat offers are small and the movement to ports light. Shipments during January-February will be moderate.

Australia—Prospects for a large surplus still maintained, but offers are limited and sharpened frost growing very slowly.

Italy—Crop outlook considered generally slightly under normal. Some ports have big supplies while others very scanty. Importation continues liberal, and it is believed this will continue during most of the season.

Terminal receipts, in cars, were reported by the Merchants Exchange as follows:

The United States visible corn supply increased 1,376,000 bushels and the oats supply decreased 278,000 bushels.

North American exports last week indicated 719,000 bushels of corn and 1,781,000 bushels of oats.

VEGETABLE STOCKS RUNNING LOW

Frost in Oregon and Storms in California Reduce Supply.

The scarcity of vegetables on Front street is beginning to be felt severely. The frost has cut down most of the local crop and storms in California have shut off a large part of the supply from that state.

Celery was especially scarce yesterday, and what little was on hand sold at $1 a dozen, or $5 a crate. A small shipment of celery is expected on the steamer today. Green potatoes were also in very small supply, but a carload is due today.

There are fair stocks of seasonable fruits on the street, for which there is a moderate demand.

Eggs Are Accumulating.

Eggs are accumulating in the local market. Jobbers yesterday tried to get Saturday's prices, but the demand did not keep pace with receipts.

Poultry arrivals were small and the market was firm. Dressed meats were also firm. Pork was higher at 8½ cents.

No change was reported in the butter market.

Changes in Provision List.

A new provision list issued yesterday quotes a decline of 1 cent on fancy bacon and an advance of ¼ cent on standard and compound lard. The remainder of the list is unchanged.

Bank Clearings.

Bank clearings of the Northwestern cities yesterday were as follows:

	Clearings.	Balances.

BEEF PRICES CLIMB

Grain-Fed Steers Bring $7.90 at Stockyards.

MARKET UP FIFTEEN CENTS

Butcher Cattle Are Also Higher. Hogs Gain Nickel in Day's Trading—Run Is Large and Quality Good.

There was a big run of stock at the yards yesterday; a strong market with plenty of competition between local and Puget Sound packers, and a better exhibition of quality than the yards has seen for some time past. The net result was a material advance in both cattle and hogs. Sheep were also firm.

The feature of the day in the cattle division was the sale of two loads of grain-fed 2-year-old steers at $7.90, an advance of 15 cents over the best previous price. These steers were shipped in from Terrebonne. Fair-fed steers brought $7.75 to $7.85. Cows were up a quarter at $6.25 for the best grade, and other butcher cattle were correspondingly strong.

The bulk of the hogs were also of finer quality than for some time. There was an advance of a nickel in the market, the top going to $8.90.

Lambs were firm at $8.25 and good ewes sold at $6 to $6.50.

Receipts were 1248 cattle, 6 calves, 6750 hogs and 1246 sheep. Shippers were:

REACTION IN COFFEE FUTURES

Realizing Attracted by Further Sharp Decline at New York.

NEW YORK, Jan. 10.—A further sharp decline attracted considerable realizing to the market for coffee futures and reactions followed, with July selling off from 7.45c to 7.30c, while December reacted from 7.70c to 7.57c. The market opened firm at an advance of 4 to 13 points, and the active months sold 30 to 37 points above Saturday's closing figures on a good scattering demand from Wall street and cotton trade sources. Firm Brazilian cables encouraged the advance, but there was scattered selling by trade interests as well as realizing on the improvement of 60 points from the low level of last week, and most of the gains were lost in the later trading, with the market closing net unchanged to two points higher. Sales, 28,000 bags: January, 7c; February, 7.08c; March, 7.16c; April, 7.21c; May, 7.26c; June, 7.15c; July, 7.27c; August, 7.41c; September, 7.46c; October, 7.51c; November, 7.56c; December, 7.61c.

Spot—Firm; Rio 7s, 8¼c; Santos 4s, 9½c.

Delays in receiving cost and freight offers are still causing more or less confusion, but it was reported that Brazil was offering Santos 4s at 9.35, basis English credits.

Noon cables reported advances of 100 to 150 reis in the Brazilian markets. Rio exchange unchanged.

UNFILLED STEEL TONNAGE INCREASED

Gain of About 617,000 Tons in December Over Preceding Month.

NEW YORK, Jan. 10.—The unfilled tonnage of the United States Steel Corporation on December 31 totalled 7,864,220 tons, an increase of 616,731 tons over November.

The unfilled orders reported today represent the largest total reached by the Steel Corporation since January 31, 1913, when the aggregate was 7,827,348 tons. Today's statement was in line with popular expectations, even though far below the gain of the previous month.
