cial.)—Vancouver sent Victoria into the cellar of the Coast Hockey Asso-ciation here tonight, when they defeated the Aristocrats by a score of eight goals to three, and even that iop-sided score hardly represented the

run of play, so wide a margin of superiority did the home crowd show. Even when Victoria got away to a two-goal field in the first seven minutes, the play was nearly all Vancouvers, the goals coming on rebounds from high shots, which Lehman had no time to cicar after saving.

The teams went into the third period in a three-all tis, but Vancouver opened a vigorous attack, and their five goals in a row came from one of the must vigorous hombardments of the net seen here this season.

Kenny Mallen, of Victoria, was knocked unconscious by the flying pock late in the second period, sustaining a bad cut in the back of the head, but returned to play the last few minutes of the third period. The summary:

Like the ways of the heathen Chines, baseball is a queer proposition. Just now there is some sort of a shemannigan deal on between the Cincinnati and Partiand clubs involving Bill Rodgers, secund baseman, and nobody seems to be able to get to the insides of it.

Cincinnati purchased Rodgers from Portland last Summer for \$1500, under an option privileging the Reds to review to the to Rechard without charge.

Opposition to Use of Armory Cause Indefinite Postponement.

NEW YORK. Jan. 11.—The boxing match between Johnny Dundes and Preddie Welsh, which it was announced would be bold in the Tist Regiment armory here Thursday night, was indefinitely postponed today by Colone! W. G. Bates, of the Tist Regiment. Colone! Bates intimated that opposition to the holding of boxing contests in the state armories was responsible for his action, but that he expected that this would be overcome shortly.

A Year of Accomplishment

Y DECISION to enter the premium business a year ago was arrived at after giving the matter due consideration from every angle. My first effort was to proclaim to the public in a general announcement the DECISION to enter the premium business a year ago was arrived at after giving the matter due consideration from every angle. In the problem was to proclaim to the public to was to proclaim to the pu

A year is sufficient to assure me that in giving full publicity to my plans and taking the public fully into my confidence I was building well for the Sperry & Hutchinson Company and The Hamilton Corporation, and that I did a beneficial thing for all of the thousands of business concerns with which we do business, and the premium business generally. will and thrift to its users. Every step which has been taken during the past twelve months has been in the direction of progress, both as to service to our immediate patrons and to the millions of consumers who accept our Green

Trading Stamps and Hamilton Coupons as tokens of thrift.

**Enhancing the Value of Premiums** Among the first improvements to be made in our service was enhancing the value of the premiums which are given for completed books of Trading Stamps and for Coupons. The array of premiums shown en our five hundred stores throughout the United States is unsurpassed and gives a greater value than can be obtained in any other measure for the money represented.

The next improvement and extension of the Sperry & Hutchinson and Hamilton service was in seeking to increase the percentage of redemptions, because it is on the number of satisfied customers that the On January 2d, 1915, our percentage of redemption on the Sperry & Hutchinson stamps issued was 90.4 per cent. Today this percentage has been increased to 94½ per cent, which is the nearest approach to a perfect business record and real service that has been attained in any form of advertising. This has been accomplished by a vigorous and widespread campaign of publicity to the consumers, and the use of good merchandise and improved store service. retailers depend for their profit in adopting and using the Sperry System.

One of the methods of bringing the advantages of profit-sharing directly into the home was the establishment of the Sperry Magazine. This monthly visitor in more than 500,000 homes excels in potential power as a trade builder and advertising medium for the manufacturer and merchant. Each month brings better results and a larger circulation. The service we are thus able to render the manufacturer, the merchant and the consumer is unequaled.

Right to Profit-Sharing Upheld

At the close of my first year of office I wish to extend a personal word of thanks to the patrons who have remained steadfast in their trade relations with us and to the many thousands who have been added to our lists in the twenty-eight new cities opened the past year.

I wish also to inform the millions of collectors of the Green Trading Stamps and Hamilton Coupons that every necessary step will be taken to safeguard their rights to continue in profit-sharing. The mer and our merchants should not fail to disapprove legislation, Federal or state, promoted by one class of business as against another that is inimical to their interests and the general welfare. It is gratifying to know that to date every direct and energetic defense of the rights of the public in the courts has been crowned with success in nearly every case that has come up for final decision directly

There are no industries that promote advertising greater than those of merchants and manufacturers using premiums. If sales annually require \$120,000,000 in merchandise for distribution it means work for factories, employment of labor, and large expenditures for advertising by most of these manufacturers as well as by our merchants and ourselves. In Oregon 90 per cent of the furniture redeemed is manufactured by Portland factories. Publicity

The Truth in advertising leads me to say again that the day has come for the premium users to stand in the open and promote their business under the full glare of publicity.

The public, likewise the newspapers, know right from wrong, and they are the natural supporters of the right. Moreover, they will not be frightened or prejudiced by an unfair statement against any industry which has the sanction of the courts and the active support of over 10,000,000 people, mostly of the dependent type, who are not crying or even asking for relief, but are yearly increasing in numbers industry which has the sanction of the courts and the active support of over 10,000,000 people, mostly of the dependent type, who are not crying or even asking for relief, but are yearly increasing in numbers industry which has the sanction of the courts and the active support of over 10,000,000 people, mostly of the dependent type, who are not crying or even asking for relief, but are yearly increasing in numbers industry which has the sanction of the courts and the active support of over 10,000,000 people, mostly of the dependent type, who are not crying or even asking for relief, but are yearly increasing in numbers and the active support of over 10,000,000 people, mostly of the dependent type, who are not crying or even asking for relief, but are yearly increasing in numbers and the active support of over 10,000,000 people, mostly of the dependent type, who are not crying or even asking for relief, but are yearly increasing in numbers and the active support of over 10,000,000 people, mostly of the dependent type, who are not crying or even asking for relief, but are yearly increasing in numbers and the active support of over 10,000,000 people, mostly of the dependent type, who are not crying or even asking for relief, but are yearly increasing in numbers and the active support of over 10,000,000 people, mostly of the dependent type, who are not crying or even asking for relief, but are yearly increasing in numbers and the active support of over 10,000,000 people, mostly of the dependent type, who are not crying or even asking for relief, but are yearly increasing in numbers and the active support of over 10,0
