"Coffee Don't Hurt Me"

Can he get away with it?

The drug, caffeine, in coffee, about 21/2 grains to the average cup, hurts many coffee drinkers, at some time of life, and often hurts them hard.

Caffeine is a powerful irritant that unsteadies the nerves, races the heart, disorganizes the digestive organs and plays havoc with the health of a large proportion of coffee users.

Of course, there are some who go on drinking coffee for years, without apparent harm, at least they don't suspect it, until the cumulative drug, caffeine, has got in its work. Isn't it the best plan to play safe with health-quit coffee and use

INSTANT POSTUM

This pure food-drink made of wheat and a small portion of molasses tastes much like mild, high-grade Java coffee, yet contains no drug or other harmful element,

Postum comes in two forms: the original Postum Cereal, must be well boiled, 15c and 25c packages; Instant Postum, the soluble form, can be made in the cup at the table, by adding hot water, 30c and 50c tins. Both kinds are equally delicious and the cost per cup is about the same.

The better health that follows quitting coffee has shown thousands
