Harness Dealers Resolve to Patronize Local Jobbers.

SUMMER SESSION FAVORED

Wane of Horse's Popularity Discussed and Handling of Specialty Side Lines to Overcome Loss Recommended.

Northwest harness dealers will buy their supplies in future from local jobbers instead of sending East for them. A resolution to this effect was adopted unanimously yesterday by the Northwestern Retail Harness and Saddlery Manufacturers' Association, now holding the tenth annual convention at the Imperial Hotel. Officers for the coming year will be elected at this morning's session. The convention will adjourn tonight.

It is expected that the time for holding the annual convention will be changed from January to either Rose Festival week in June or to Buyers' Week in late Summer. It is believed by the convention members that it will be more convenient for the harness men to gather at that time than earlier in the year and that a bigger attendance will be the result.

Yesterday afternoon a session was an open one, at which there was a general discussion of business subjects. The chief topic was the inroads the automobile is making into the harness business and to what extent the horse is being relegated to the back-ground by the new vehicle.

There was no doubt about the seriousness of this problem in the minds of the men in attendance. They reported from the several districts they represent that auto users are growing in numbers and the pleasure cars and trucks are replacing horses. However, they did not despair of the future of the harness business, for speakers recommended putting in side lines and specialties that would make up largely for the business lost to them by the adoption of the automobile.

PHYSICIAN IS ARRESTED

Larceny by Bailee Charged by Owner of Rented Farm.

Dr. Frank Braseau, who formerly had offices in the Dekum building, was arrested yesterday by City Detectives LaSalle and Leonard, charged with larceny by bailee. Complaint against him was sworn to by Mrs. W. B. Barber, who charged that he made away with a horse belonging to her.

Dr. Braseau is said to have rented a

four-acre farm near Portland from Mrs. Barber. According to the story which she told Detective LaSalle, she had two horses and two calves on the farm. The physician later obtained permission to trade one of the horses for an animal better for driving. She maintains that he traded both horses and the two calves for a horse of practically no value.

FIREMAN IS DISMISSED

W. L. Harkleroad Alleged to Have Asked Pension Fraudulently.

Among other grief that has fallen on W. L. Harkleroad, a fireman, because of domestic troubles, came his dismissal yesterday from the fire service. The dismissal was recommended by Battalion Chief Young and approved by Mayor Albee.

In the written charges Harkleroad is accused of having beaten his wife, failed to pay his debts and with having attempted to defraud the firemen's relief and pension fund. It is alleged in the complaint that he applied for relief from the firemen's fund on a claim of having broken his hand in a fall, whereas the real cause of his injury came from beating his wife.

COAL THEFT IS CHARGED

Teamster Accused of Taking Fuel Off Expressman's Wagon.

Rudolph Salquist, a teamster, who makes his home in Lents, was arrested yesterday by Detectives Fieber and John Moloney, charged with hauling off half a ton of coal belonging to Edward Freeman, colored expressman, 246 Gilliam street. Salquist is said to have driven up when Mr. Freeman was delivering a sack of coal around the corner and, loading his wagon with coal, to have driven off.

ROBBER GETS 1-15 YEARS

Dana Bradway, of La Center, Pleads Guilty at Vancouver.

VANCOUVER, Wash., Jan. 18.—(Special.)—Dana Bradway, a young man of La Center, Wash., recently arrested on a charge of robbery, Monday pleaded guilty before Judge R. H. Back, of the superior court of Clarke County. Judge Back imposed a sentence of from 1 year to 15 years on Bradway, to be served at the state reformatory at Monroe. Bradway broke into Lee Betts' home and stole about \$24 in September. He was arrested a few days ago upon information of detectives in Portland.

Wallowa Power Plants Hindered.

WALLOWA, Or., Jan. 18.—(Special.)—The Wallowa Valley experienced another cold night. The thermometer dropped to 22 below zero, one degree colder than the night before. Enterprise registered 24 and Joseph 18. The power plants are having difficulty in operating. Crews of men are kept busy fighting the ice and then it is only possible to run at a low voltage part of the time. Stock may suffer, as hay is becoming scarce and prices are advancing fast.

PAROLE RIGHT ISSUE

Judge Morrow Sets Hearing on E. C. Herlow Application.

DELAY IN ACTION FACTOR

Court Is in Doubt as to Jurisdiction in Case in Which Sentence Was Passed More Than Year Ago.

The right of Circuit Judge Morrow to grant the application of E. C. Herlow for a parole will be contested by District Attorney Evans Saturday morning, at which time a hearing will be held before Judge Morrow. The hearing originally was to have been held this morning, but was postponed yesterday by agreement of all parties.

Whether or not Herlow is entitled to a parole will not come up for argument Saturday, it is believed, the entire question centering about the jurisdiction of Judge Morrow in a case which had been disposed of, by sentence, a year and a half ago.

Herlow was under the impression that a formal application had been made to Governor Withycombe for a pardon for Herlow, when he permitted the long delay in action in the case, is the explanation made by B. E. Youmans, attorney for Herlow, in a letter sent yesterday to Governor Withycombe.

"After the Judge returned from Prineville last week and saw Herlow's application for parole, which announced that an 'informal application' had been made for a pardon to your excellency," reads the letter, "he got into communication with me to ascertain if a formal application, duly served on the District Attorney and made a matter of record, had not been made for a pardon, prior to his writing an open letter to you, Jan. 22."

"Upon my informing him that this was not the case he declared that this was under the impression at all times that the matter was formally up before him, and he would not have permitted it to have been delayed as it has been."

"On several occasions Judge Morrow requested me to urge a determination of the application of the District Attorney wanted it disposed of, and that something must be done. I explained to the Judge that we were urging executive clemency and requested that the commitment be withheld until some action was taken by the Governor."

"This the Judge consented to do, explaining that he considered it inappropriate to commit any convicted person while he was seeking a pardon from the Governor."

Herlow has paid on the \$2500 which he and W. H. Chapin took from Mr. and Mrs. William Grace by fraudulent pretensions \$400 in cash to Chapin and has obtained the balance by a collateral note signed by 51 responsible persons.

Cold Endangers Wenatchee Orchards

WENATCHEE, Wash., Jan. 18.—(Special.)—Continued cold weather will freeze the peach and apricot trees

is the opinion of orchardists. It will have little effect, if any, on prune, cherry, pear and apple trees. Horticulturists declare that when the temperature falls to 15 degrees below zero there is always strong possibility of peach trees suffering. The last time peaches were killed by freezing was in 1909. The crop was almost a total failure, Orondo alone escaping to any degree.

NON-SUPPORT JURY QUILTS

No Agreement Reached in Case of W. C. Hill at Klamath Falls.

KLAMATH FALLS, Or., Jan. 18.—(Special.)—The case of the state of Oregon vs. W. C. Hill went to the jury Saturday, after being on trial in the Circuit Court here for three days. After being out for about two hours the jurors wanted to know of the court if they could make recommendations to accompany their verdict. At midnight they reported they were hopelessly divided and were discharged. The case probably will be retried at the next term of court.

Hill was charged with the non-support of his wife and three children. He left his family here last Summer, and later was apprehended in California in company with another woman, while touring southward in an automobile which Hill had purchased here and failed to pay for.

SNOW EXHAUSTS MAIL MAN

Searching Party Finds Hillsboro Carrier in Bed.

HILLSBORO, Or., Jan. 18.—(Special.)—When Arthur Miltenberger, carrier on rural route No. 1, failed to return late Saturday, friends became alarmed and organized a searching party, with the result that the carrier was found at midnight in bed at the Charles McCready place, which he had reached in an exhausted condition two hours before.

Miltenberger usually covers his route by 4 P. M., but deep drifts delayed him, and when his sled upset and stuck in the snow near the old Sewell place, he was unable to reach the McCready place.

Oregon Ore Sent to Assayer.

ROSEBURG, Or., Jan. 18.—(Special.)—Having opened up a few days ago what they believe to be the best-paying vein of copper ore found in Douglas County for several years, the owners of the Brushy Butte Mining Company have sent samples of the ore to Tacoma, Wash., for analysis. In the event the ore is as rich as anticipated by the owners, the mine probably will be sold to non-resident capitalists, who have been negotiating for the purchase of the property for several months.

Monmouth Mails Snowbound.

MONMOUTH, Or., Jan. 18.—(Special.)—The Southern Pacific local, which leaves Corvallis at 6:45 A. M., is snow-bound in a drift near Sover station, and the Portland and Eastern mail did not reach Monmouth or any way points until way late in the day. A. F. Huber, who carries the mail on Route No. 1, made about three miles of his route, and then was forced to come back on account of deep snowdrifts, which were 10 feet deep in many places.

MORAL TONE IMPROVES

PROHIBITION SAID TO BE DRIVING AWAY DISREPUTABLE ELEMENT.

Will H. Warren, in Report to Mayor Albee, Says Drunkenness in Rooming-Houses Infrequent.

"Prohibition not only is prohibiting splendidly in Portland, but it is driving out the underworld, according to a report on the city's moral conditions made yesterday to Mayor Albee by his secretary, Will H. Warren. The report is based upon evidence gathered by Mr. Warren and police detectives and plainclothes men."

Mr. Warren reports that drunkenness in rooming-houses has been rare since January 1 and that there have been greatly improved conditions. He gives the names of 23 men and women who, he says, were notorious characters in Portland's underworld, who have left the city since January 1.

The report says in part: "Men and women from all classes of the underworld have left or are leaving here for other places where the laws either are administered with less severity or where prohibition does not interfere with the sale and free use of intoxicants."

One of the most noticeable and remarkable features of the new condition is with reference to the unfortunate women of the underworld, who, in spite of everything that could be and was done prior to the advent of prohibition, piled their trade through the city. Cutting off of ample strong drink supplies from their former haunts has made it next to impossible for them, in many instances, to live here, and, therefore, they are leaving for other places."

Since prohibition became effective, in rooming-houses, where, on many occasions previously, the police found drunken men and women, they now find no drunken persons and there has been a decided decrease in the number of men frequenting establishments where questionable women reside. In fact, conditions have become such that drunkenness is an exception in hotels and rooming-houses."

As to prohibition, it is prohibiting splendidly, and all that is needed to make it a first-class success is the full co-operation of the courts and the jury. Some good stiff jail sentences or "jolts" for "blind-pigging" will be of great assistance in notifying the violators of the law what is meant by its provisions."

Three New Citizens Admitted.

RIDGEFIELD, Wash., Jan. 18.—(Special.)—Three residents of Ridgefield and Sara were admitted to citizenship in the United States by Superior Judge R. H. Back, of Vancouver, and United States Examiner Henry B. Hazard, of Portland, last week. All of the candidates were citizenship answers an unusual knowledge of American affairs. They were Bradford Lorne Gaukel, who conducts a drug store here; Niels Martin Hansen, a rancher near Whipple Creek, east of here, and Carl Wee, a rancher living near Sara. Gaukel formerly was a Canadian and Hansen and Wee Swedish.

HOW TO PROLONG LIFE

By adopting a simple diet men like Conaro have lived to be 100 years of age, but with our complex diets of today, the vitality of the aged is taxed, to its utmost endurance. A simple diet, therefore, is conducive to a long life, and if the vitality becomes impaired and weakness seems apparent, our local druggists, the Owl Drug Co., have in Vinol a reliable, non-secret remedy which contains just the elements needed to restore strength to weak, feeble old people, and prolong a healthy, happy life. P. S.—In your town, wherever you live, there is a Vinol Druggist. Look for the sign.
