BLOOD CLOT IS FEARED

Accident Happens on Omaha Ice Lagoon; Mr. Mohler Well Known in Portland, Where He Lived as Head of O. R. & N.

OSMAHA, Jan. 23.—(Special).—A. L. Mohler, president of the Union Pacific Railroad, lies in a critical condition at the Immanuel Hospital here as a result of a fall sustained while skating on an Omaha park lagoon early today.

Together with his wife and his mother-in-law, Mrs. W. W. Smith, Mr. Mohler motored to the park to enjoy some exercise in the crisp January air.

Help Slow in Arriving. For fully 10 minutes he lay prone on the ice before assistance was obtained to carry him to his automobile.

A teamster was attracted to the scene of the accident by the boys, who shouted to him as he drove along the boulevard that winds through the park.

Injury Regarded as Serious. Physicians after a preliminary examination pronounced him to be suffering from a serious concussion, but declared that they were unable to ascertain the actual extent of his injuries until he regained consciousness.

Mr. Mohler was resting easy tonight, but had not opened his eyes. What is most feared and in the most dangerous factor in concussion is the possible formation of a blood clot on the brain.

PORTLAND KNOWS MR. MOHLER. Years Spent in City as President of O. R. & N. Company.

The mishap to Mr. Mohler is regretted by all his friends here. J. D. Farrell, president of the O. W. & N. road, spoke of his predecessor as one of the ablest railroad executives in the country.

LUMBERMAN'S SON HELD AS FORGER

EARL CAMERON ACCUSED OF USING WOMAN'S CHECKBOOK.

J. E. Cameron, Father, Provides Bail for Lad, Who Denies Act and Says Checks Were Gifts.

Earl Cameron, the young son of J. E. Cameron, president of the J. E. Cameron Lumber Company, of Goldendale, Wash., was arrested late yesterday at his father's Portland home, 753 Thompson street, on a warrant charging him with forging checks totaling \$128.

The checks were drawn on Mrs. Mattie Bunnell, 321 East Stark street, to whose daughter, Miss Irene Bunnell, young Cameron is said to have been attentive. The young man was arrested by Deputy Sheriff Phillips and F. S. Alkus, manager of the Burns International Detective Agency, and taken to the County Jail. He was released on \$500 cash bail furnished by his father.

The cashier of the Goldendale bank visited Portland and swore out a warrant, charging Cameron with forgery. The boy maintains that the checks were given to him by Mrs. Bunnell, Mrs. Bunnell, however, and her husband and daughters have signed affidavits to the effect that the checks are forged.

The Bunnells and Camerons both formerly lived at Goldendale and the families have long been friendly.

PAINTING BRINGS \$140,000

Flemish Master's Work, 10x12 Inches, Changes Ownership.

NEW YORK, Jan. 23.—Hans Memling's "The Archer," declared to have been the last work of the great Flemish painter left in the art markets of the world, has been bought for \$140,000 by a Fifth-avenue jeweler, it was learned today.

"The Archer" is a portrait of a young man painted on a wooden panel 10 by 12 inches. Only the head and part of the chest are shown. The portrait, considered one of Memling's finest, was painted in 1473, when the artist was at the height of his power. It was acquired in 1912 by Paris art dealers, who recently brought it to the United States.

HOTEL FIRE FIRST IN YEAR

\$5000 Blaze at Silver Lake Breaks Record of Two Decades.

SILVER LAKE, Or., Jan. 23.—(Special).—Silver Lake had its first fire in 20 years, when the St. James hotel was burned. Only the head and part of the chest are shown. The portrait, considered one of Memling's finest, was painted in 1473, when the artist was at the height of his power. It was acquired in 1912 by Paris art dealers, who recently brought it to the United States.

The fire the other night was started from a gasoline tank that was used for the lighting system. At one time the fire was under control when some one pulled the burning tank from the wall, and the gasoline spread fire throughout the building.

STEEL REACHES VANCOUVER

Final Shipment of 33 Carloads Arrives From Indiana.

YANCOUVER, Wash., Jan. 23.—(Special).—All of the steel for the Columbia River Interstate bridge has arrived, 33 carloads coming from Gary, Ind., during the past few days. This has been unloaded. No more will come except the electrical machinery to be used in operating the draw span, which is now completed.

The draw span is about 252 feet long and weighs about 525 tons, which is about 50 tons heavier than the others. Ice in the river has delayed the work on the piers for the past two weeks, but it will probably be resumed some day this week, as soon as the heavy ice comes down the river.

BRITAIN RAIDED BY GERMAN AIRCRAFT

Planes, Not Zeppelins, Make Two Attacks.

BRIGHT MOON LENDS ITS AID

One Dead, Six Hurt; Incendiary Bombs Cause Fires.

KENTISH COAST IS VISITED

Special Interest Derived From Recent Discussion in England of New Type Said to Excel Aeroplanes of Entente.

LONDON, Jan. 23.—Two hostile aeroplane attacks were made on the Kent coast today. In the first, made early this morning by a single aeroplane, nine bombs were dropped, killing one person and injuring six. The second attack early this afternoon was made by two aeroplanes. No casualties were reported in this attack.

The raiders escaped. The official account says: "The War Office announces that, taking advantage of the bright moonlight, a hostile aeroplane visited the east coast of Kent at 1 o'clock this morning. After dropping nine bombs in rapid succession it made off eastward.

"No naval or military damage was done, but there was some damage to private property. Incendiary bombs caused fires, which were extinguished by 2 A. M. The following casualties occurred: One man killed, two men, one woman and three children slightly injured.

"Two hostile aeroplanes made a second attack on the same locality shortly after noon. After coming under a heavy fire the raiders disappeared, pursued by our naval and military machines.

"The enemy effected no damage and no casualties have been reported."

The county of Kent forms the southernmost portion of England to the south of the Thames. It includes part of the city of London, but the wording of the official statement indicates that the aeroplane did not reach the city. The point nearest London on the eastern coast of Kent is some 50 miles from the center of the city.

New Aeroplane Type Discussed. A point of interest in the report of the raid is the statement that it was made by an aeroplane. Heretofore Germany has relied principally on Zeppelins for aerial attacks on England.

Of late, however, there has been much discussion in England of a new type of German aeroplane, the Fokker, which has been said to excel the aircraft of the entente allies. English newspapers said last week that the British air machines were out-powered

MURDER FULLY CONFESSED

Body Is Exhumed to Satisfy Doubt as to Identity and Verification Serves to Allay Bitter Feeling in Border Town.

EL PASO, Tex., Jan. 23.—Bernardo and Federico Duran, the Mexican cattle thieves condemned to die by the Carranza authorities for the killing of Bert Akers at San Lorenzo, a few miles below the international boundary, Friday, were executed at daylight in the cemetery at Juarez. The body of Akers was interred here late today.

The bodies of both Mexicans were buried immediately, but that of Bernardo, who confessed to having fired the shots that killed Akers, was exhumed to satisfy a doubt concerning the identity of the slayer.

Akers' Companion Admits Mistake. Douglas Downs, another American who was with Akers seeking stolen cows and who escaped the bullets of the Mexicans, declared last night after the Duran brothers had been executed that he had been mistaken.

American officials were with Downs, and their certification that the slayer had been duly executed served tonight to calm a feeling at Yaleta, where Akers and Downs lived, which authorities believed might result in trouble.

Men Die Cursing Americans. Three Mexicans previously arrested in connection with cattle stealing at Yaleta were removed to jail in El Paso for protection.

The Duran brothers died cursing Americans. Bernardo appealed for mercy on behalf of his brother, Federico.

"It is unjust to kill two of us for one American," he said. "It is giving two eyes for one tooth. I am willing to die, because I killed the gringo, but my brother ought to be allowed to live."

The bullets of the firing squad killed Federico, but Bernardo was still conscious after he fell and the officers commanding the firing squad gave him the "mercy shot" through the head.

Both Austria and Germany have disclaimed the sinking in behalf of their submarine fleets.

ICE BREAKS AT THE DALLES

Strong Chinook May Clear Columbia for Navigation.

THE DALLES, Or., Jan. 23.—(Special).—The first breaking up of the ice in the Columbia River in this vicinity occurred this afternoon at Three-Mile Rapids, two miles above The Dalles, causing a jam there and forcing the ice at The Dalles five feet down stream.

The river is rising here at the rate of an inch an hour, and it is chinooking strongly, indicating there will be a general breakup of ice soon, clearing the Columbia for navigation.

DISCIPLINE MAY TEACH LOVE

"Some things under certain conditions are right and certain other things are not permissible under different circumstances, just as there are several methods to attain the same end."

CHRIST CALLED FOR SACRIFICE

"He said, 'You scribes, you Pharisees, you hypocrites, you whitened sepulchers full of dead men's bones, and he scourged the money changers and drove them from the temple, with an absolute fearlessness in face of unpopularity. He didn't kill any one, but he said, 'a man should lay down his life for his friend.'"

CHRIST'S USE OF FORCE CITED

Four Years of Military Training Is Advocated.

FLOCK PRAISES PASTOR

Mother Who Would Keep Her Son Out of Recruiting Office in Time of Need Is Not Worthy of the Name; Sons Offered.

LOS ANGELES, Jan. 23.—Declaring that he feared a plot might be hatched in Los Angeles among officers and former students of Francisco Villa, Adolfo Carrillo, Mexican Consul, representing the de facto government here, declared today he was considering asking the United States Department of Justice to investigate the situation.

Carillo admitted he was worried over the gathering of Villa men in Los Angeles, especially because of the alleged formation of a club by some of them, ostensibly for social purposes.

"The man or woman who shirks this duty (defense of country) is as culpable as the man who shirks his taxes."

"The mother is not worthy the name who would withhold her son from service to the Nation. I cannot understand these individuals who cry, even from the pulpit, 'peace at any price.'"

"The ideal Christian basis of appeal is love—an ideal, as applicable sometimes as an appeal for love to a lamp-post. If we must be prepared at all, let us be prepared in first-class shape. I would be ashamed of my sons if they did not volunteer immediately if needed. It is a misapprehension to think a new type of virtue will develop from the present war."

The finger of shame was pointed from the pulpit of the Trinity Episcopal Church yesterday morning at the mother whose love for her son rises above that for her nation.

These mothers and "peace at any price" advocates were denounced as a "disgrace to the nation," and an appeal, based on the teachings of Christ, for proper national armaments, was sent forth by Dr. A. A. Morrison.

There are several inches of water on the ice. The Columbia River is rising, and it is expected that the Tahoma will be freed some time tomorrow unless the weather suddenly turns colder.

PULPIT PEACE ADVOCATES ASTONDED

"I cannot understand these individuals who cry even from the pulpits 'peace at any price,'" he told them. "I wonder what they would do, if some one in the night should by force steal away their wife and daughter. Would they run after them with their theory of love? Of course not."

The teaching of Christ, he declared in answer to those peace advocates who base their theories on the Bible, is not against preparedness. And he cited Christ's teaching of the money changers in the temple, his chastisement of the Scribes and Pharisees, and his advice to sacrifice one's life for a friend.

"A misapprehension exists," he declared, "over the phrase called 'Christian teaching.' There are those advocating peace under any and all circumstances who assert that Jesus taught a doctrine of non-resistance; a doctrine which would utterly abrogate the use of force in protecting education or as a defense against evil-doers. Many persons believe Christ advocated this, but I say he did no such thing."

"The ideal Christian basis of appeal is through love. But this is an ideal, about as applicable in some cases as an appeal of love to a lamp-post. 'Some persons cannot be moved by the appeal of love, because you cannot make them understand this appeal until you have applied certain measures of discipline to teach love. Then they may understand. 'Jesus was not foolish enough not to observe that certain people cannot be reached except through force. He knew persons whose characters were a disgrace to humanity and whom he did not fail to denounce. Christ Called for Sacrifice. 'He said, 'You scribes, you Pharisees, you hypocrites, you whitened sepulchers full of dead men's bones, and he scourged the money changers and drove them from the temple, with an absolute fearlessness in face of unpopularity. He didn't kill any one, but he said, 'a man should lay down his life for his friend.'"

"And a man should lay down his life for his nation, and if Jesus had treated the same subject he would apply the doctrine in the same way. Here Rev. Mr. Morrison went directly to the subject of national armaments (concluded on Page 2, Column 1.)"
