In view of this, it is understood, Germany may admit in the final settlement that it was wrong that Americans should have been lost without conceding it was wrong for the commander to fire a torpedo at the liner. In this connection attention was called tonight to the fact that Germany hardly would agree to pay an indemnity for killing American citizens should it be considered that the act was within the onsidered that the act was within the

German Offer Is Final.

The German government is understood to be most anxious to settle the matter in a manner mutually satisfactory. It is said, however, that the proposal now before the Administration is considered to be final. Germany is said to hold that she has gone as far as she possibly can honorably to meet the views of the United States.

The negotiations are treated as highly confidential in official and diplomatic circles. For that reason it has not been disclosed just how far the new proposal would go toward finally settling the controversy. An optimistic tion for Preparedness.

Dr. Jones was so incensed against the attitude of the press on this expedition that he went so far as to say to a Norwegian reporter, according to the quotation in the next morning's paper, that "The journalists are the snakes in our palm garden," which saying probably has a local significance equal to our "snake in the grass." It has afforded us since great pleasure in discussing it.

We had heard that Lochner reported probable dismissal of several newspaper men for unprofessional conduct, but as to their names and offense nothing was said. Everything on this trip has been run in the most undemocratic fashion. The rule is in the hands of a few, and likewise the power.

We felt sure if the newspaper matter were brought up before the open meeting of the delegates we would have stelen their thunder and the matter would pass ever.

"Carreers Blasted Forever."

S. McClure mentioned it, and there was an immediate effort at suppression on the part of Senator Robinson and Mr. Levassoe, but enough was said to enable the other delegates to get a hint, and although the meeting was immediately ruled out, the press was still on hand ready to talk.

The Supreme Court decision, recent

Mr. Ford and Mr. Plantiff realize this, but they are about the only two of the peace delegates who do. Mr. Ford said.

"Let them say what they please, anything they want to: I don't care. The only thing to do is to keep it continually, everlastingly before the public. I don't mind what they say."

He repeated the same thing, only mere emphalically, to Karl Meyer, the Norwegian newspaper man who has joined our party.

Meyer said he felt he couldn't join the party unless Mr. Ford understood he was not in favor of the movement, but he would be fair and unprejudiced in his outlook.

"Say anything you want to." Mr. Ford answered: "only write about it."

King Asked for Interview.

We learn now that our greatest offense was a wireless sent to the King of Norway by some of the reporters requesting an interview. It was stated that we deliberately did it to discredit the party with the government by getting there first. This seems a trivial charge, but it shows the littleness of some minds.

Mr. Wilson Wants Appropriation Bills Cleared Away as Soon as Possible.

The President was informed that legislation was usually delayed most in the Senate and, therefore, he probably will confer with leaders of that body before going West. He took the position today that it is particularly desirable to dispose of appropriation bills quickly in order that the House ways and means committee and the Senate finance committee may know how much revenue it will be necessary to raise. Plans for pushing legislation will be taken up further by the President and taken up further by the President and his Cabinet tomorrow, and while he is away from Washington the Cabinet officers will co-operate with leaders of the Senate and House in every possible way. The Laymen's convention is to be the biggest thing of the kind that has ever been held in the Northwest. The dinner Friday night is the opportunity that churchmen of the city will have to get into the spirit of a big contest that will be staged all of next week in Portland between the churches of all denominations.

The contest is to see which church will be able to register the largest percentage of its male membership as delegates to the convention.

Next Sunday the pastors of the various churches will disperse information of the plans and arouse his laymen to a sense of their responsibility.

Beginning Monday each noon hour will see a "round up" of workers at the Y. M. C. A., where a buffet luncheon will be served.

Be invited Irrespective of Alignment in War.

All the foreign consuls and other representatives of foreign governments in Portland are to be guests of the Chamber of Commerce at a complimentary dinner on the evening of Washington's birthday—February 22. This is to be a strictly neutral affair and the representatives of all nations are to be invited regardless of whether they are concerned in the European war or not and regardless of which side they are engaged on. Now that the markets of the world are opening to Portland it is pointed out that the desire and the necessity of maintaining close relations with the epresentatives of foreign governments

GLASS OF SALTS

Must Flush Your Kidneys Occasionally if You Eat Meat Regularly.

Noted Authority Tells What Causes Backache and Bladder Weakness.

No man or woman who cats meat regularly can make a mistake by flush-ing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they aluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly al part of the waste and poisons from the blood, then you get sick. Nearly at rheumatism, headaches, liver trouble, nervousness, constituation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get

sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Saits from any reliable pharmacy and take a table-spoonfull in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous saits is made from the acid of grapes and lemon jules, combined with lithis, and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful efferwescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Adv.
