This product contains practically all the natural ethers, aldehydes, tannic acid and other elements that give wine its satisfying taste and color, but without alcohol, that which you may drink freely. Non-intoxicating wine is now being bottled and will be ready for the market within 30 days. M. Rosenthal & Son, former proprietor of the National Wine Company, of this city, has secured the agency for Oregon, Washington and Idaho for the Seven Brothers' California wine, without alcohol. AN OLD PROVERB

It used to be proverbial that every man (and it is certainly no less true of woman) is either a fool or a physician at forty. This means that every intelligent person must learn so much about caring for his own health that by the time he is forty years of age he can almost be reckoned as a physician. Why, then, is there so much talk by doctors against "self-medication"? A woman can recognize all ordinary ailments without calling on a doctor. If they are ailments distinctive to her sex she generally knows enough to use that greatest of all remedies for such ailments, Lydia E. Pinkham's Vegetable Compound, and likewise she is familiar with the standard remedies for other diseases.—Adv.
