NO RESTRICTIONS ON INCOME TAX. tically all restrictions on the discre-tion of Congress in levying such a tax. ber of Commerce. The Government has always had pow-er to levy an income tax as an excise states according to population, but unless it were so apportioned. It can now levy such a tax without cor

have been removed. At its inception in Great Britain, where it originated, and in this country also the income tax was a war tax. It was first imposed in Britain in 1815, when that war ended. The first Portland has not intervened and has her remain childless. income tax in the United States was by its non-action given Astoria full Undoubtedly a woman sees of the Civil War. It was increased in 1855 and was repealed in 1871. The saked or expected of Portland. constitutionality of that tax was sus-tained in 1880 by the Supreme Court, gress had a right to impose it so long as it was made uniform throughout the United States. The largest an-nual revenue it yielded was \$72,982,-160, in 1866.

Productiveness and comparative case of collection at the source, a device adopted by William Pitt, father of the impost, soon caused resort to the income tax for revenue in other emergencies than war, Peel first reviving it in peace time in order to effect British financial reform in 1842, It has finally been adopted as a per-manent and lucrative source of revenue by nearly every civilized nation. Growth of great fortunes caused a demand for its adoption in the United States, both as a means of compelling rich to contribute a just share to public expenses and as a means checking the aggregation of wealth in few hands. This demand bore fruit in the income tax provisions of the Wilson tariff law of 1894, but these provisions were held unconstitutional by a five-to-four decision of the Su-preme Court. The ground of this desion was, as now explained by Chief Justice White, that the effect of the tax on income from real estate was the same as if a direct tax had been levied on the real estate, hence must be regarded as a direct tax, which could not be levied without regard

President Taft devised the corpora tion income tax of 1909 as an excise tax, which the decision of 1895 had held to be constitutional. An excise tax is defined by Webster as "an incommodities within the country," also as "a tax upon the pursuit or following of certain sports, trades or occurring of certain sports, trades or occurring of certain sports, trades or occurrence for of exactions for licenses."

The corporation income tax was upon the latter definition of excises. At Mr. Tati's suggestion Congress at the same session adopted an amenda summer of the colors of apply their education. It is to be the same session adopted an amenda summer of the colors of the colors of the capture of the colors of the capture of the same session adopted an amend ment to the Constitution authorizing the imposition of a direct tax on inthe imposition of a direct tax on incomes "from whatever source derived, without apportionment among the several states and without regard to any census or enumeration." The Supreme Court held the corporation tax greatest in the most prosperous na-to be valid as an excise tax. The tions, among the most prosperous some will hold off the test for a time, amendment was ratified by three- classes, and is making its attack at and may alter the conditions, but the fourths of the states and it was declared in force February 25, 1912.

Congress then passed the present stead of eating to revenue law, known as the Under- are eating to die. wood tariff law, though also imposing an income tax. This tax is graduated in proportion to the amount of ina graduated tax.

Government in proportion both to strangely enough, these nations are headlines, "The threatening danger of their ability to pay and to that which famed for their palatable, but ecothey have at stake. .dvertising—letting the public know what you have, is part of service.
And swinging merchandise displays in time with public desire is another service.
Such a service is performed when the storekeeper stocks up the manufacturer's newspaper advertising of his brands—when he shows the goods in his windows and on his counters at the time the advertising is running.
