FOREST LAND IS SETTLED

Federal Service Plants Trees on

500 Acres in Oregon.

For the past fiscal year \$81 indi-vidual tracts of land within the Na-tional forests passed into private own-crahip. Of these 360 were home-steads, two timber and stone. 501 min-eral, 17 coal and one miscellaneous. In Gregon and Washington there are, outside of the National forests, about 1,000,000 acres of logged-off land, much of it agricultural in character, now lying idle.

Of the total area of approximately of the forst area of approximately 5760 acres planted with young trees by the Forest Service last year nearly 3060 acres were planted in Oregon and Washington. Of the total area sowed with tree seed 5876 acres, approxi-mately 500 acres were sowed in Ore-

Charge of Defrauding Landlady Arouses Prisoner's Ire-Friend Brings Ald.

John Evelyn Day told the court that he is a relative of Senator Day, and was so indignant to think that Assist-ant District Attorney Deich would ac-cuse him of defrauding his landlady that he would fight him, right there in the courtroom. "Ksep your coat on," urged Public Defender Robinson. The judge smilled and looked on with interest.

"I'H fight you to the bitter end."

Seats for the special bargain matinee of "Seven Keys to Baldpate" at the Baker tomorrow afternoon are selling fast. This weird mystery play is con-ceded to be one of the greatest pro-ductions ever seen in stock, and the Baker players are giving remarkable performances of it. Matinee Saturday also, and last time Saturday night.—

TH fight you to the bitter, end." The fight you to the bitter, end." Day, it seems, has been in the Muni-cipal Court before, charged with have ing beaten his landhady out of his board bill and room rent. I After Day had been sent back to jail, a new angle turned up in the appear-ance of friends. H. Mawilliams, a for-mer employer, told the court that he would be responsible for the young fellow's bill. Day has 30 days in which to pay it back. According to Williams' story, Day comes from well-to-do parents in Mon-treal and he ran away from home at 18 when they put him in a bank' to learn the builness. He had been well educated. From New York he salled on a ship for San Francisco, arriving in Oregon 11 years ago. He speaks finently several languages. Day apologized to the deputy district attorney for offering to fight him. There are some splendid opportuni-

EMPLOYES TO PARTICIPATE

General Interest in Safety Forum Is

Promoters' Aim.

Employers and employes of scores of Portland industrial and mercantile in-stitutions will meet at the Chamber of Commerce tomorrow night in the com-mon cause of promoting the safety and security of life, limb and property. This meeting is another outcropping of the "safety-first" movement inaugu-rated here some time ago and con-ducted with notable success. The plan is to create a "safety forum" under the auspices of the Chamber. The various industrial plants of the city have been asked each to send as a delegate one person representing the employers, one representing the em-ployes and a foreman or superintend-ent.

LA GRIPPE, COUGHS, BRONCHITIS Dr. John M. Mayhew describes influ enza or La Groppe as a contagious disease the symptoms of which are some times so obscure that a "multitude of sins" art hid under the diagnosis. It often comet on with a marked chill, or possibly by several hours of chilly sensations ac-companied by sneering, which is soon followed by adistressing cough and sweat-ing, with pains in ail parts of the body. Unless checked the disease develops into pneumonia. First of all the bowels must be kept open. The patient should be put to bed or compelled to take abac-lute pest in an casy chair, the diet should be light, but should consist of nourishing food and one anti-kammia tablet should be taken every two or three hours. This treatment will usually break up the disease in a remarkably short time. In bronchitis, coughs, coryza and all grippal conditions, anti-kammia tablets will al-roditions, and the amay be obtained at al-druggists in any quantity. Ask for A-K Tablets. They are also unexcelled for headaches, neuralgia and all pain. LAGRIPPE, COUGHS, BRONCHITIS

BESI BOWEL MEDICINE

Says glass of hot water before breakfast washes poisons from system.

Physicians the world over recomnend the inside bath, claiming this is it vasily more importance than outide cleanliness, because the akin pores to not absorb impurities into the blood, causing ill health, while the porce in the 10 yards of bowels do. Men and women are urged to drink the morning before breakfust a glass not water with a teaspoonful of nestone phosphate in it as a harmess means of helping to wash from the stomach, liver, kidneys and bowds the previous" day's indigestible material, palsons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal be-fore putting more food into the stomach

Just as soap and hot water cleanse and freshen the skin, hot water and imestone phosphate act on the climiative organis.

Those who wake up with had breath, coated tongue, nasty taste or have a full, aching head, sailow complexion, acid stomach; others who are subject o bilious attacks or constipation, should obtain a quarter pound of lime-stone phosphate at the drug store. This will cost very little, but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pro-nounced results, both in regard to health and appearance. Adv.
