There are lots of good people in the world.
And Pertland has its full share of

And Portland has them.

This was demonstrated in a pictureque and forcible manner by the huge stack of checks, bills and stacks of gold and silver that was heaped high on the desk and table in the private office of Ben Selling, treasurer of the Portland Jewish relief fund, last night, at the end of a strenuous money-gathering campaign.

ering campaign.
It was the official and National day set aside by Presidential proclamation by the Nation's chief magistrate as "Jewish Relief Fund day," the first in the history of the country.

All Take Hand in Campaign.

All Take Hand in Campaign.

More than a bushel basketfull of checks, currency and coin was received by the committee before 6 o clock last night and the actual amount nontained in this huge flood-tide of the people's big hearted response to the world-encircling cry of distress which has gone up from the starving millions in Eastern Europe was registered from all parts of the city and state.

The money came from business organizations, from little shopkeepers, from working women and girls of modest pay envelopes, from heads of big corporations and from messenger hoys. It came from people of every race and color.

More than 400 individual donations had been received by Treasurer Selling before he closed his office last night.

Portland was not alone in the ava-

Property owners who did not participate in the suit against the city to force the reduction of assessments for the general fund. The committee is preparing to segregate the donations from outside of Portland and keep an individual list of these subscriptions by towns, so that the final report will show just what each community in the state contributed to the fund.

Mayors Suggested as Aldes.

Mayors Suggested as Aides.

The committee has suggested that the Mayors of all the cities and towns throughout the state constitute themselves as custodians of the funds from their own communities and to advise the Portland committee of the amounts received day by day, in case the contributors do not care to send the money directly to Portland.

TRUANT'S SIRE ARRESTED directly to Portland.

"This would be the much simpler way," announced the committee last night. "We are in direct touch with the National relief committee in New York and if the subscriptions come straight to us they will be available in the war-stricken districts at least one and probably two days sooner than if they are collected by local committees and then forwarded. By dispatching the funds directly to Portland the smaller towns will avoid any overhead expense in handling the funds and in telegraphing it through to New York, as the Portland committee is taking care of that phase of the situation itself."

Churches to Ald Work.

Case Is Dropped When Father Says Boy Will Go to School.

OREGON CITY, Or., Jan. 27.—(Special.)—Charged with failure to send his son, Haroid Benard, a Maple Lane former, was arrested and taken into the court of Justice Slevers today by D. E. Fost, Juvenile Officer.

Mr. Benard pleaded that on account of the long walk to and from the school winter it was almost impossible for his son to go to school.

Churches to Aid Work.

Following the announcements made in the pulpits of the chirches throughout the city last Sunday, a direct appeal for free-will offerings will be made from all the churches regardless of denomination, this coming Sunday. This plan has been suggested by the committee as being the best way of getting quick and direct action.

The ministers are expected to present the matter to the committee as the control of the roads in the road in the roads in the road in the roads in the road in the roads in the roads in the road in the roads in the road in the roads in the road in the roads in the roads in the roads in the roads in the road in the roads in the roads

Walla Walla Aids Jews.

WALLA WALLA, Wash., Jan. 27.— Citizens of Walla Walla today are con-tributing to the relief of Jews in the Huropean war zone and several committees are soliciting funds. The Jew-ish contingent tonight gave a "charity party," at which contributions were re-ceived. Subscription lists will be cir-culated during the remaining days of the month.

SLOVER CASE IS UP TODAY Judge Morrow to Rule on Ousting of

Police Captain by Mayor.

Whether Police Captain E. A. Slover was ousted illegally by Mayor Albee on December 11, 1915, will be decided by Circuit Judge Morrow in an opinion to be handed down today in the case pending since early in 1914.

A petition for a writ of review of the Mayor's action in removing him from office was filed February 16, 1914, by Mr. Slover. Mr. Slover was removed on charges of sleeping while on duty and of playing politics with his position. He held the Mayor had no authority te dismiss arbitrarily any police officer. getting quick and direct action.

The ministers are expected to present the matter to their congregations during the services next Sunday and then appoint some member of the congregation to turn the proceeds of the collection over to Treasurer Selling on Monday.

No effort has been made as yet to check up with the various banks and newspapers which have been designated as auxiliary custodians of the reite funds, but this part of the campaign will be looked after either tomorrow or Monday.

"I think it would be advisable for the banks and newspapers to send in a check covering the total amounts collected by them," suggested Treasurer Selling last night. "That would simplify matters a great deal."
