There's Where YOU Are Wise! "That Other Fellow is a menace to Everyone's Safety"

Nine-tenths of all automobile accidents are caused by skidding and by foolish dependence on rubber alone. In these days of crowded streets and congested traffic, the motorist who does not take precaution to guard against every possibility of disaster is next to criminal.

"The ever-present danger that is quite as much of a terror to the experienced driver as it is to the novice is skidding. There is nothing that makes a man lose his nerve so thoroughly or dread a repetition of the experience so keenly as a bad skid that ends in a experience so keemy as a bad said that that broken wheel against a curb, or that makes matters far worse by "side swiping" amoving trolley car. To feel the car start to slide from under you, aiming directly at the nearest obstruction, despite all manipulations of the wheel and brakes—well, once is too often".

Weed Anti-Skid Chains Slipshod Traffic.

Traffic policemen, by the hundreds, interviewed in all the large cities on the coast and throughout the country, express the unanimous opinion that their work would be greatly reduced; that nearly all skidding accidents would be eliminated if motorists would take the precaution of always carrying WEED CHAINS, and putting them on when the roads and pavements are wet, slippery and proceeds. are wet, slippery and uncertain. On the Rear Tires

Some of these guardians of public safety go so far as to say that the time is not far off when State Legislatures will maketheuse of WEED CHAINS apulsory, for the protection of life and property.

Make Safety Yours

Take no chances. Fully equip your own car with WEED CHAINS and insist, for your protection, that other drivers do the same. they afford perfect traction and adequate brake control. On the Front Tires

they act as ladders to enable the front wheels to easily climb out of mud-ruts, car tracks and all uneven places in pavements or roads, always insuring absolute steering control, elimina-ting all chance of the front wheel skid.

If you haven't a set of WEED CHAINS, or if you have a pair for the rear tires only, get a full equipment now. Delay is dangerous. Stop at your dealers today and WEED CHAIN your car to safety.

Thousands of men and women suffer from headaches every day, other thousands have headaches every week or every month, and still others have headaches occasionally, but not at regular intervals. The best Doctor is often unable to find the cause of many of these headaches, and in most other cases, knowing the cause, he does not know what will remove it, so as to give a permanent cure. All he can do is to prescribe the usual pain relievers, which give temporary reliet, but the headache returns as usual, and treatment is again necessary. If you suffer from headaches, no matter what their nature, take anti-kannin tablets, and the results will be satisfactory in the highest degree. You can obtain them at all druggists in any quantity, loc worth. So worth or more. Ask for A:K Tablets.

SICK-HEADACHES

Sick-headache, the most miserable of all sick-peases, loses its terrors when A-K Tablets are taken. When you feel an attack coming on take two tablets, and in many cases, the attack will be warded off. During an attack take one A-K Tablet every two hours.
