Strictly specialty corsets made only for stout and medium women.

You will find that your weight and strength are matched in the strength of these corsets.

The principal reason for this great supporting strength is in the RENGO BELT tailored-in feature, now made famous by seven years of test and success. If this principle were not scientifically correct for stout and medium figures, RENGO BELT corsets would cease to exist, for it is the foundation of every garment of every

There are models with or without "Steelastic" webbing. When extra flexibility and added support are desired, our exclusive "Steelastic" will be found to possess superior strength and wearing quality. Boned throughout with double watch spring steels - guaranteed
