VANCOUVER, Wash., Feb. 9 .-- (Spe Reaching United Kingdom. Word has reached Balfour, Guthrie & Co, that the British schooner David Evans, owned by that firm and which loaded lumber here on her last voyage for the Antipodes, has discharged at Melbourne and will be putting to sea in a few days, bound for Tacoma, where she works another lumber load for Amstralla in the interest of her own-erz.

in the wilds back of Bridal Vell, was rescued from death from starvation Monday by a party of Mazamas who dicament, a week ago, to save him. The rescuers are experienced in mountain elimbing and in traveling on creased during the next 36 hours and they

who need sound nourishment, whether for labor of body or brain, have come to know by actual test-that they can depend upon

Made of whole wheat and malted barley this famous pure food supplies all the rich nutriment of the grains, including their valuable mineral elements-lacking in many foods-but mighty necessary for energizing of the mental, physical and nervous forces.

Grape-Nuts has a delicious nut-like flavour-is always ready to eat-easy to digest, and wonderfully nourishing.

Sold by Grocers everywhere.

# IF YOU DESIRE A ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

'To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and polsonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of ndigestible material, which if not elimnated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to uck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your checks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, had taste, nasty breath, others who are bothered with headaches, billous spells, acid stomach or constipation should begin this phosphated hot water drinking and are as-sured of very pronounced results in one or two weeks.

A quarter pound of limestone phos-A quarter pound of limestone phos-phate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that interest expiration is vasily more imorgans, we must always consider that internal sanitation is vastly more im-portant than outside cleanimess, be-cause the skin pores do not absorb impurities into the blood, while the bowel pores do,-Adv.
