PORTLAND, WEDNESDAY, FEB. 16, 1916.

A RECORD OF BROKEN PLEDGES. By consenting to the placing of his name on the Presidential primary ballot in Ohio, President Wilson has torn another plank out of the Democratic platform and has left nothing but wreckage.

That platform denounced a tariff rising expenses. It promised a tariff that would reduce the cost would set him right? of living, but the cost of living has

Legislation was promised which would strengthen the Sherman antitrust law. The Trade Commission and Clayton laws have weakened that law.

The President was pledged to the principle of a single term, but before his inauguration he repudiated that He kept his repudiation principle. secret for three years, and now clinches it by openly becoming a candidate for a second term.

"An adequate and well proportioned Navy sufficient to defend American policies, protect our citi-zens and uphold the honor and dignity of the Nation," was promised, Navy was stinted and allowed to deteriorate until a world war and an irresistible public demand stirred the President to action. The Navy has not been used to defend our policies, to protect our citizens or to uphold our National honor and dignity. Monroe Doctrine has been imperiled by Mr. Wilson's inaction or ineffective action in Mexico, our citizens have been murdered by hundreds in that country and at sea, yet our Government has done nothing but write notes, and it is confessed at home and proclaimed by our foreign critics that the Nation has lost its self-respect.

Republican extravagance was denounced, but it has been far surpassed by Democratic extravagance. Rural credit legislation was promised, but has been introduced only in danger of being crowded out of the

promised, but not established, and the that will tolerate him for Secretary. Democratic party has been prevented only by Republican obstruction from declared that we ought to have passing wasteful, pork-barrel bills.

states was pledged, but the Adminis-fluence of Secretary Bryan, had to tration now tries to force through say in December, 1914: hills which violate those rights as to the Western states. servation combined with development and use of natural resources was commended, but the bills mentioned would stifle development of the West.

Pledges to foster the growth of the merchant marine were proclaimed, yet Mr. Wilson has helped to drive the American flag from the Pacific Ocean by approving certain vicious provisions of the seamen's law, and has caused capital to avoid shipping by proposing Government-owned ships.

Pledged unequivocally to exemption of American coastwise ships from Panama Canal tolls, Mr. Wilson by exertion forced repeal of that law by Congress.

The Democratic party promised that the civil service law should be "honestly and rigidly enforced." but has seized every opportunity to discard the merit system and revise the spoils system in the interest of "deserving The platform favored "an immedi-

A STUDY IN PSYCHOLOGY.

President Wilson does not pose as one who knows it all and has nothing more to learn. He does not pretend that he has all he can learn. He does not pretend that he has all he can learn nothing from others or from experience. In his speeches he admits that he has changed his mind in the past year as to preparedness and as to a tariff commission. A year ago he did not favor the appointment of a tariff commission, considering that it was not necessary, at that time at least. Now he has found that the appointment of a tariff commission is desirable and he is urging Congress to pass a measure providing for the commission. A year ago the President did not consider that there was real need of making preparations for a greater army and Navy.—Dallas Itemizer (Dem.).

Naturally the people of the United

Naturally the people of the United States, knowing now the humility with which the President views himand the acknowledged and obvious could not produce this weapon, neither products is restored. self in his relation to public questions, need of learning more about them, wonder what the next change of mind torily what had become of it. will be. Will it be Mexico?

But the marvel about the rapid progress of the President from one gregate. pinion to another is not so much that, finding himself in the he has changed his mind, but that he has changed also the mind of his party. Or has the party changed?

We solicit light from our Democratic contemporary on that subject. As a sturdy and consistent exponent for protection, but the Underwood of Democratic thought, has the Item to health is a forerunner of the day when eating habits will play an important part in life insurance statistics. Today the chronic drunkard time that the President was in the wrong and that time and opportunity

If he is right now, is not the gratitude of the Democratic press and Democratic party due to those far-sceing critics who discovered his errors and pointed out to him and to the world the truth?

If he is wrong now, does our friend, the Itemizer, intend meekly to follow him into the paths of darkness and humiliation?

What we are chiefly interested in knowing is when and how the great psychological transformation that turned the Presidential theories Inside out and the Presidential policies upside down was communicated to the Democratic party?

#### WHERE JOSEPHUS STANDS.

his body by overindulgence in foods encounters no difficulty so long as actually set in.

Such decay is certain to develop, suit of late agitation, Overeating must be set down as aleful and pernicious habit. Conprocesses of digestion ultimately break from the Tillamook Headlight: The Oregonian prints elsewhere an brain irritation and causing various but who thinks it meet to administer corrected, but very often the slave of heavy, rich food follows his vicious

iol and improper habits of living. When the exact part overeating plays hearing, especially when he offers in this tragedy has been reduced to harmony to the grand old party is to stand aghast at the scope of this hidset up on his hind legs and howl at den enemy of good health and lon-

### ADEQUATE NATIONAL DEFENSE.

The plan of Army increase on which the committees of Congress seem to be settling is far short of the Nation's active strength of our defensive forces. We actually need to have at all times 1,000,000 men fully trained and fully equipped, with enough officers and first million while war is in progress.

This does not mean that we should have at all times 1,000,000 men de-voting all their time to soldiering. An be spent with the colors and four cannot get away with the plunder. the reserve, would soon give equipped and ready on the instant to answer a call to arms. A National time for our Republic to move for such a conference, but when peace smalles upon this war-torn globe there may be reserved for America the coveted honor of initiating a movement which will make possible a reduction of fighting craft without imperalling the rights of any peoples. Is it too much to believe this generation will winess such an agreement, and men now living will see the good hour prophesied by Tennyson when "The war drum throbbed no longer and the battle flags were furied in the Parisment of man, the Federation of the world"? The goal which our greatest Naval secretary and our smallest Secretary could be provided for the reserves and for the second million men, who

mal would not bite-at least not scale of pay proposed by the Congress for Josephus. For that eminent North Carolina dry-land patriot is first, last and always for his job.

THE CASE AGAINST BRANSON.

Keep them on the rolls and would compensate for ten days' or two weeks' annual maneuvers in camp. When the additional artillery, ammunition and equipment for the eminimity of 400,000 women to do the farm work while the men are at the many fronts. the additional artillery, ammunition and equipment for the entire force had been provided, small further expense on that account would be necessary in time of peace. The additional expense would then consist mainly of the cost of men added to the regulars.

I farm work while the men are at the mean that the production is not sufficient to meet the demand. An interview sent out from the Interior Department, Washington, D. C., by Secretary lane may throw some light on the autient. He says, in part, that fuel oil has a large use in naval warface of today, yet the tying up of the big tank. the cost of men added to the regulars, temporary relief. the pay and equipment of militia and the small pay of regular and militia

that which we now have, and to gasp at the size of the addition in men been held to justify our present force to see the until the early potatoes are have passed away and new conditions planted. have arisen. It is incumbent upon Congress to determine what force is necessary to meet these new conditions, and then to provide that force as economically as possible. What-ever may be the extra expense, it will be cheap insurance of the Nation's

THE VICE OF OVEREATING.

The conclusion of a New York actuary that overeating is a close second to alcoholic excesses as a menace to health is a forerunner of the day when eating habits will play an important part in life insurance statistics. Today the chronic drunkard finds difficulty in securing a large life insurance policy at a moderate premium. Many companies reject him altogether. Yet the omnivorous person who is gradually breaking down his body by overindulgence in foods in every statistic of the rule, for in them the only horsedrawn vehicle has been the hearse, indeed horses have no largely been supplained by a premiting in the rule, for in them the only horsedrawn vehicle has been the hearse, indeed horses have no largely been supplained by a verindulgence in foods.

answer a call to arms. A National Guard of 200,000 men, organized, trained and equipped as the Congress committees propose, would form the next line. After men had been brought to the required standard of efficiency in the National Guard they could be passed into a militiar reserve, which would provide another 200,000 men. By adding military instruction to the course in the universities and Govern ment-aided colleges enough officers could be provided for the reserves and for the second million men, who would be put in training when war began.

This programme need not add seriously to our annual expenditures. The scale of pay proposed by the Congress committees for the National Guard is very moderate. A small annual payment would suffice for both the regular and militiar reserves. It would keep them on the rolls and would compensate for ten days or two weeks' annual maneuvers in camp. When the additional artillery, ammunition and equipment for the entire force

temporary relief.

temporary relief.

Read the names of alleged anarchists in the plots said to be revealed to the country who depend so largely upon the export of the country who depend so largely upon the export in Chicago and then consider the immigration laws.

There is too much disposition to compare what is now proposed with any proposed with the plots said to be revealed in Chicago and then consider the immigration laws.

As to the cost, that noise of gaso-hat which we now have, and to gasp

Political activity is stirring through the state, but politics will not begin to seethe until the early potatoes are planted.

What a heartache it gave to see twelve dozen quarts of Japanese "hooch" turned into the gutter at Dallas!

As to the cost, that noise of gaso-line from Sumatra had a very desirable effect on the market for a time. But since their location gives them access to a more profitable market at this time, by way of the Indian Ocean and Red Sea, they have no doubt left the consumers of the Pacific Coast to the mercy of poor old John D., who, after much worry and rough treatment, has come again into his own.

M. BROCKLESBY.

They stood by the chieftain's pillow.

And the watchers' bearts swelled high.
Like the swell of the darkening billow
When the breath of the storm is nigh.
For they knew by the solemn silence
That sinswered their words of cheer,
They saw by the upward pointing hand,
That the hero's end was near.

MOLLIE W. MANNEY. That the hero's end was near MOLLIE W. MAXWELL.

Cribbage Count. ASTORIA, Or., Feb. 13.—(To the Editor.)—Please inform me whether or not A is entitled to a run of five on the following play in a game of cribbage:
A plays an acc; B plays a 5; A plays a 2; B plays a 4; A plays a 3.

D. R. B.

A counts the run of five and also (should the hand start with 1) 15-2, making a total of seven.

thimself as not friendly to Wilson, but a saured us "It is better to endure the ills we have than fly to those we know not of." The latter presumedly being a possible Republican. The fourth speaker was the only one who appeared to be for Wilson and the things fine, scholarly eulogy of Wilson, delivered with evident feeling and sincerity, was the only bright light in the fog of doubt which shrouded the entire programme.

When the name of Woodrow Wilson was mentioned during the speeches there was ladylike applause. When Andrew Jackson was mentioned the applause was better, yet somewhat doubtful, as though many of those present were fearful that too much noise might arouse the spirit of that rugged old warrior who fought the great battle of New Orleans with green levies of raw militia, without sufficient guns, equipment or supplies.

It was when the name of Bryan was mentioned that the real spontaneous of officers and office holders beamed with delight. Thus the question naturally arises, and has been asked many times since, who arranged this meeting and why was it so arranged? Who selected the speakers and why? Did it all merely happen or was it all carefully planned to put the Democrate of Oregon on record as for Wilson on the surface because they think he will be accorded to the standard or the organical with the same through the same hand, others to hear and see what took place. I believe that events will occur in the next few days that will be a please in the next few days that will clearly show this to be the case.

We are, all of us, interested in the honor, safety and prosperity of our country. I am sure, while not all in accord as to how it may be attained; but I venture to say that such speeches as the one made by Mr. McCamant is staturday night; do not fine the honor, safety and prosperity of our country. I am sure, while not all in the next few days that will learly show this to be the case.

Une for the frequest will occur in the next few days that will clearly show this to be the case.

We are, all o

for?

Since this astonishing dinner there have been one or two meetings of the so-called Woodrow Wilson League, at which the same college professor further expounded and elaborated his antippreparedness propaganda while eulor preparedness propaga term.may be used. I have known him 25 years. He believes that no posi-tion is too high for any man if he has the qualities that entitle him to advancement. Perhaps Secretary Daniel-dimination of the vast quantities of liquor that formerly were a part of the officers' mess and his firm standagainst the exorbitant profits of the steel barons and in favor of a Govern ment armor-plate factory may account for some of the calumny that is bein heaped upon him. O. H. STARON.

#### far as SCIENTISTS UPHOLD EVOLUTION Views of Living Authorities Put Against

Those Who Have Passed. PORTLAND, Feb. 15 .- (To the Edior.)-Rev. C. E. Cline in a recent attack on the theory of evolution says: Il must unite with Carpenter, Dana, Agassiz, Henry, Sir John Herschel, Sir William Thompson, Asa Gray and a number of recent scientists in denying the insufficiency (slc) of proof in evo

It will be noted that all of these sci-entists are dead. If Mr. Cline had in-quired into the opinion of living seign-seign and for the lets a good example, and for the lets a following who might be interot one worthy of the name who does

"involves a question of fact. If evolution has collapsed, scientists, particularly the astronomers, geologists and
biologists, would be the first to know.
If it has not collapsed, the religious
world must discover a way in which
evolution can be utilized as one of the
revelations of God's wilt."

Accordingly, in order to get at the
opinion of the scientific world, the
Biblical World asked a number of leaders of American science to give a
brief answer to the question: "Does
modern science still believe in evolution?" The unanimity of response
makes it apparent that our theological
thinking cannot ignore, much less deny,

It makes a person shudder when reading of condemned meat and wonder how much gets away from inspection.

T. P. O'Conner, the renowned Trish patriot and orator, has telegraphed a friend in this city that he will arrive here on Monday or Tuesday of next

Colonel C. P. Beebe, of the First Regment, Oregon National Guard, is ex-pected to arrive home from the East this morning.

### Half a Century Ago.

From The Oregonian of February 16, 1865.
Richmond, Va., Dec. 25.—As set forth in a former dispatch, the Hon. George H. Williams, Senstor of the United States from Oregon, and a member of the committee on the reconstruction of the Southern states, recently appointed by Lafayette S. Foster, arrived in this city inte Saturday evening on a tour of observation bearing on the intelligent discharge of the duties of the committee of which he is a member.

The lee in the Columbia has again stopped communication with The Dalles The Cascade, which left yes-terday morning, returned to her dock from the mouth of the Williamette.

As "The Actress," none who witnessed the performance at the Willamette Thester last night can doubt the ability of Fannie Morgan Pheips to be at home on the stage. Her personations were excellent.

We have received the first number of the Montana Radiator, published by T. J. Favorite at Relean City. It is presented on brown paper and con-tains 15 columns of reading matter. The Collector of Internal Revenues The Collector of Internal Revisions of Montana Territory has reported that the product of the gold and sliver mines of that territory for the year 1865 was upwards of \$15,090,000. In 1862 the territory was a wilderness and uninhabitated except by savages.

Hartford, Conn., Feb. 14.—The Con-necticut Republican convention has nominated General Joseph R. Hawley, of Hartford, as Governor, Resolutions expressive of confidence in President

FAMILY SUPPLIED: PROFIT MADE Sixteen Puffets Provide Household

Johnson were passed

With Egg Needs and Money Besides. PORTLAND, Feb. 15,- (To the Edtor.)-A dozen to 55 well-kept hens, for a family flock, are not only a great mfort for their freshly-laid eugs and wholesome meat, but they can easily made a source of income to help keep the family, particularly so for the wage-carner out of work or for other needs that can be supplied from the sale of eggs.

The correspondent at Eugene writing

to The Oregonian, February II, about not one worthy of the name who does not subscribe to the theory of evolution. "Darwin's evolution theory has gained a complete victory among thinking men the world over. Those who reject it afford not so much an argument against the theory as against their own intelligence." This is quoted from an editorial three years ago in The Oregonian.

As throwing light on the attitude of modern men of science toward evolution it will be of interest to recall the questionnaire sent out by the Biblical World, of Chicago, the results of which were published in its issue of January, 1913. I will quote from this religious failt implied in certain philosophies which are based on evolution.

The public has been widely assured that evolution has collapsed. "

"Such an affirmation," it continues, "involves a question of fact. If evolution has collapsed."

"Such an affirmation," it continues, "involves a question of fact. If evolution has collapsed. Scientists, particularly the astronomers, geologists and biologists, would be the first to know. If it has not collapsed, the religious to have not collapsed. The religious the proposed of the public has bologists, would be the first to know. If it has not collapsed the religious to the fact has they were closely confined that they

# ANOTHER HEN FANCIER,

world must discover a way in which evolution can be utilized as one of the revelations of God's will."

Accordingly, in order to get at the opinion of the scientific world, the Biblical World asked a number of leaders of American science to give a brief answer to the question: "Does modern science still believe in evolution?" The unanimity of response makes it apparent that our theological thinking cannot ignore, much less deny, the place which evolution is holding in our modern world."

Then follow letters from William Patten, professor of biology and zoology, Dartmouth Coflege; Ray Moulton, professor of snatomy, Johns Hopkins Medical School; S. W. Williston, professor of galeontology, University of Chicago; Albert F. Matthews, professor of chemistry, University of Chicago; E. G. Conklin, professor of the was not a passive onlooker during any ploneer struggle for social betterment in his time, the deciration of vituperation and solution was not a passive onlooker during any ploneer struggle for social betterment in his time, the deciration of vituperation and solution was not a passive onlooker during any ploneer struggle for social betterment in his time. Pain Not God-Appointed.

gle for social betterment in his time.
He was unafraid of vituperation and
innuendo. He was no moral coward.
A RELIEVER IN A RELIGION OF
KINDNESS AND SOCIAL JUSTICE.

#### More So. Judge.

"She always dresses like a fushion plate," we say, referring to the woman who, though stout, is nevertheless

charming.
"Do you think so?" murmurs her bosom friend, sweetly, "Now, I should say she was more like a fashion

## Daylight Stores

The modern store building is par-ticular about its light.

"Give us plenty of daylight, so people can see the goods just as they are," say the merchants. Sunlight business methods beget confidence.

The advertising merchant is the nodern daylight man. He comes out in the open before ompetitors and customers and tells what he has to soil and why he be-lieves it best.

It is safe to trade with such a
