EASTERN MOHAIR MARKET IS STEADY Cape Stocks Are Well Cleaned Up and Prices Are Firm,

There has been a fair movement in do-mestic mohair at Boston in the past week at steady prices, according to the Commer-cial Bulletin. There has been an opportun-ity to do business in Cape firsts, but at prices which holders did not care to con-eider. This hair is held in the neighborhood of 35 cents and offers are being made at

are and are cents. It is doubtful if much hair could be bought under 35 cents.

Advices from the West Riding of Yorkshire indicate a very firm market and prices are steady at 31 cents or slightly better for good Cape firsts.

Advices from the Cape state that prices are vices there and the clip is fairly are very firm there and the clip is fairly

The movement of alpaca in Liverpool continues fairly steady and prices are well main-tained. Stocks in Liverpool were slightly in excess of 2000 bales on January 19, last.

WOOL CONTRACTING AT FULL PRICES Big Nevada Clip Reported Taken Recently at 22 Cents.

Eastern would ealers are wide in their estimates as to the amount of new clip that has been contracted to date in the West. In this connection, the Boston Commercial Bulletin says:

"Most dealers estimate the quantity at around 5,000,000 pounds, while others, also well posted, believe the quantity contracted to be in excess of 5,000,000 pounds. The purchases have been made on a basis of at least 70 cents, clean landed here, and some think the basis has been even more in some Certainly if reports are correct that the Taylor ellp in Nevada amounting to some 400,000 pounds has been bought at 22 cents, on an estimated shrinkage approximating To per cent and a freight rate of about 2 cents, the clean landed cost is very mater-tally in excess of 70 cents; indeed, it would be nearer 80 cents, although this basis is undeniably excessive.
"The greater part of the contracts have

placed in Utah and the Southern Idaho 11.50, sections, although scattering clips have been bought at various points through the

England Takes Steps to Secure Supplies of Wheat.

SEABOARD BUYING HEAVY

Chicago Market Advances 2 Cents on Strong Foreign Demand. Stocks of Grain at Liverpool Are Insufficient.

CHICAGO, Feb. 16.—Wheat prices bulged to a considerable extent today, influenced largely by talk of urgent need for supplies in Great Britain. The market, although somewhat unsettled at the close, finished 1½例1%c to 2c net higher, with May at \$1.30½ and July at \$1.25½. Other leading staples, too, all scored gains—corn 1% \$1½c, cats %c to ½份%c, and provisions 17½c

Assertions that the British governmen was buying wheat at the scaboard did a good deal to force the trade to notice fu-mors of authority having been granted to British officials to take drastic measures to oritish officials to take drustic measures to naure more adequate supplies. According o dispatches from Liverpool, the stock of theat there was insufficient. The effect of uch builsh advices was little offset by New ork Teports just before the close that big learances were expected, as 14 steamers for lurope were to take grain out within the ext four days. Many unfavorable crop reports that were eceived from the Southwest and the Central Vest formed a handicap on the bears in heat.

wheat.

Corn advanced mainly as a result of receipts being smaller than expected.

Outs derived their firmness principally
rom the strength of other grain.

Higher prices on hoge and coreals carried
rovisions upgrade. Leading futures ranged as follows:

LOGGING ENGINES BURN

POLSON PLANT NEAR HOQUIAM DAMAGED TO EXTENT OF \$20,000.

Explosion Starts Fire in Roundhouse Destroying Building and Two New Locomotives.

HOQUIAM, Wash., Feb. 16 .- (Special.)-Started by an explosion in the firebox of a locomotive, the roundhouse at the railroad camp of the Polson Logging Company, ten miles north of Hoquiam, was destroyed by fire this morning. Two locomotives were burned. The loss is believed to be about \$20,000. The Polson Company uses oil-burning locomotives on its logging railroad. This morning when the fire was started on one of the engines standing in the on one of the engines standing in the roundhouse an explosion followed almost immediately. The oil dripping in the pit under the engines ignited and a sheet of flame enveloped the locomotive and, lefere water from the camp plant could be turned on the ffames, the whole building was doomed.

Four of the locomotives in the round-house were got out of the burning building, but the one where the fire started and another, both new engines, could not be saved. The men at the camp were able to confine the fire to the roundhouse. Nobody was injured by explosion or fire.

Date of Erection Found on Pioneer Oregon City Hotel.

william Cassedy, a laborer, ripped a board from a door casing of the building and revealed written on the under side of the board the following inscription: "H. Emery, Oregon City, house carpenter; built 1852. G. Abernathy, owner of the house."

The Cliff House, now being destroyed to make room for the \$750,000 addition.

to make room for the \$750,000 addition to the Hawley mill, played an impor-tant part in the early history of Oregon City at a time when this city was the social and industrial center of the dis-

The hotel was built of cedar, evidently brought to Oregon around Cape Horn. Many of the planks are 18 inches across and an inch thick. The laths used in the building were cut from native woods by hand. Part of the second story of the

building was papered, copies of The Oregonian, printed in the '50s, being used under the outside coat of paper. Carpenters tearing down the structure pause in their work to read the news of half a century ago. G. G. Faulkner has charge of remov-

ing the building. He found a wedding ring between the partitions on the sec-ond floor. He is keeping the cedar board on which the carpenter marked the date of construction of the hotel. A large number of empty liquor bot-tle were found under the floor of the
