## SUBMARINE CRISIS AGAIN HELD AGUTE

Members of Congress Await Defense of Wilson's Policy With Deep Interest.

STONE PREPARES SPEECH

Mexican Affairs Also to Be Promi nent in Week's Discussion; Confirmation of Fletcher as Ambassador Probable.

WASHINGTON, Feb. 20,-Discussion from an Administration viewpoint of the submarine issue with Germany will be undertaken in the Senate this week. Democrats, led by Senator Stone, chairman of the foreign relations committee, have determined to meet what they term an effort on the part of the Republican Senators to make a partisan issue of the situation that has arisen since the announcement of the German Admiralty's determination to sink all enemy merchant ships, whether armed for offense or defense.

Senators Sterling and Lodge, Republicans, discussed the subject last publicans, discussed the subject last week, urging that for the United States to yield the right of Germany to sink defensively armed merchant ships would be an unneutral act and a step toward war. In announcing his purpose to address the Senate, Senator Stone said he would answer some of the arguments made by the Republicans, but declared the situation was also here arguments that it should of such grave importance that it should not be debated in the Senate in a parti-Bellef in Gravity Unconcealed.

Preparing for his address, the Missouri Senator has conferred with President Wilson and Secretary Lansing and his views on the subject are being awaited with interest by members of both houses, who do not conceal the belief that the Nation is facing the gravest diplomatic crisis since the beginning of the European war.

Mexican affairs also are to be aired again in the Senate. Republican Senators are planning to attack the President's report on Senator Fall's resolution asking for information concerning the Carranza government. Senator Fall has expressed disappointment because the President and Secretary Lansing did not disclose diplomatic correspondence relating to political contents in Mortey which led to the

In the for-eign relations committee Wednesday the nomination of Henry Prather Fletcher as Ambassador to Mexico will be considered and Administration Senators purpose to demand a vote on a motion to recommend his confirmation to the Senate. Fletcher's Confirmation Probable.

Action on the nomination has been held up pending the President's Mexiheld up pending the President's Mexican report. Now that the report has been received, whether satisfactory to the Republicans or not, Democratic leaders are determined to press for confirmation. There has been no opposition, even from Republican sources, to Mr. Fletcher personally, and the general opinion at the Capital is that his nomination will be confirmed before the end of the week.

Other important matters to occupy the attention of the Senate during the week will be the Haitien treaty, a resolution to direct Congressional investigation into charges of inefficiency of the Army aviation service, continuation of the inquiry into the fitness of the service as a statement here on February in the test of the service as a statement there on February is somewhat the capital satisfactory to the anthracite operators and the United Mine Workers of American arrived here today to attend the joint conference that will open tomorrow to consider the demands of the miners for a new wage agreement.
