SILVERTON TO GET \$500,000 SAWMILL

Silver Falls Company to Handle Much of Log Output of Its Nearby Camps.

PLACE IN MARKET IS KEPT

Sales of Cut Timber Will Be Made in Connection With New Industry-Facilities for Day and Night Operation Proposed.

A modern sawmill will be built by the

Big Timber Tract Owned. The company owns about 35,000 acres of first-class timber land in Marion and Clackamas counties, tapped by this logestimated that this timber tract

contains more than 3,000,300,000 feet of splendid fir. Heretofore the company has cut its timber and sold the logs to other mills. For about 18 months, how-ever, owing to the depression in the ever, owing to the depression in the lumber market, the camp has been idle. Construction work on the new plant will be done by day labor under im-mediate direction of the company offi-cials. It is planned to erect a com-plete mill, modern in every detail, in-cluding dry kilns, sheds and loading facilities. The initial output of the plant will be about 250,000 feet per day of ten hours.

"If the present upward tendency "If the present upward tendency of the lumber market continues," said L. B. Menefce, vice-president of the Silver Falls Timber Company, yesterday, "we should be able to operate our mill on full time from the moment that it is finished. If conditions improve, we should be able to operate it both night

Unenlisted men of the Hop Sings learned of his design, it is said, and passed the word to their tong fighters. Therefore, when Wong Ching walked down Flanders street, the sought-for opportunity presented itself. The Hop Sings "got" Wong Ching.

Immediately following their revengeful sally the Hop Sings went into retirement. A number of their best-known business houses were locked. The headquarters of the tong, at Fourth and Everett streets, was seemingly tenantiess. Its doors were locked. Elsewhere the effect of this second cutburst of bullets sent members of the two tongs into close hiding.

Thirty members of the Bow Leong tong, saying that they wished to leave for an Astoria cannery, appealed to Captain Inskeep for protection to the North Bank station yesterday evening. They left the tong headquarters at Second and Oak streets in taxicabs, escorted by Motorcycle Patrolmen Gouldstone and Crane.

Precautions Avail Little.

The police had anticipated the second shooting, and many suspected gunmen have been under constant espionage. Sunday night two members of the Bing Kong tong were arrested and locked up for carrying weapons. They gave the names of Ding Louis and An Sam.

Precautionary measures, although taken, seemed to have had but little effect upon the Orientals, who bided

Precautionary measures, although taken, seemed to have had but little effect upon the Orientals, who bided their own time for the addition taken, seemed to have had out fittle effect upon the Orientals, who bided their own time for the adjustment of difficulties. The Chinese clan spirit presents a blank wall to investigators. Wong Ching, mortally wounded, was taken to St. Vincent's Hospital, where he was placed on the operating table. One shot passed through his arm, one through the entered the abdomen, one through the side and one in the back.

Before Wong Ching was placed on the operating table he made a statement naming Lee Kim as one of the at-

tacking gunmen. He recognized him, he said, because they had worked to-

gether in a cannery, where the wound-ed man was employed as cook. Search is being made for Lec Kim. Jeung Wah, the Hop Sing wounded

Jeung Wan, the Hop Sing wounded in last Thursday night's opening of hostilities, is still in doubtful condition at the Good Samaritan Hospital. With him is See Quon Yee, member of the Four Brothers' Society, who was wounded at the same time, although not a participant in the tong trouble. Shooting Ends Pence Talk.

The pistoling of Wong Ching hap-pens at a most inopportune time for peace, and the prediction that the tong warfare would end soon is no longer made. It is thought, however, that the youthful hotheads of the Hop Sings may have exceeded their instructions. Every precaution is being taken by the police, and patrolmen and detectives have special orders to watch (Chinatown with uncessing care.)

Chinatown with unceasing care.
Alabero will be held as chief suspect in the attempted murder of Wong
Ching. He refuses to discuss the shootins, and professes to know nothing of the tong troubles. His previous record as a Hop Sing fighter, it is pointed out, casts doubt upon this statement.

District Attorney Evans declared last night that a general cleanup of China-town would be ordered today, in all probability. This would mean that every Chinese who cannot give substantial proof to Sheriff's deputies. Constables or police that he is engaged in a lawful occupation in Portland will be turned over to Government authorities for investigation.

A modern sawmill will be built by the Silver Falls Timber Company at Silverton this Spring at a cost of approximately \$500,000.

The plant will be operated in connection with the logging camps of the same company near Silverton.

M. C. Woodard, general manager of the company, has just returned from the East, where he purchased the necessary machinery ann equipment for the mill. He went to Silverton yesterday to make arrangements for the immediate inauguration of construction activities.

The plant will be built at the edge of Silverton, a town on the Springfield branch of the Southern Pacific, 46 miles south of Portland. A first-class logging road, about 25 miles in length, connects the town with the camps.

Big Timber Tract Owned.

24 Chinese From Portland Journey

four Chinese gunmen, said to be members of the Bow Leong Tong, arrived today from Portland and were hidden in the Chinese quarter, according to police, who said Chinese in automobiles were followed by detectives. PLANS ARE RELATED

SAN FRANCISCO, Feb. 21.—The Peruvian bark Callao, now at anchor in San Francisco Bay, has been purchased by George W. McNear. Inc., of San Francisco, it was announced today. The terms of sale are not stated.

The Callao, it is said, will be placed under American registry and operated out of San Francisco to Pacific ports.

Existing Selling Organizations Are to Have Efforts United, and Not Displaced.

Membership Restricted to Bona Fide Northwest Resident Bodies Who Are Actually Marketing Crops for Growers.

The new Fruit Growers' Agency, re-cently formed at Spokane, is neither a new selling organization, a new ship-ping organization, nor does it contemplate any additional expense to the grower, according to C. A. Malboeuf, local distributor for the Western Ore-gon Fruit Exchange. Mr. Malboeuf, who attended the sessions at Spokane when the new agency effected its or-ganization, was named publicity man-

"The Fruitgrowers' Agency, as or

pendently in their dealings with the markets. But through the mutual or-ganization thus formed by the grow-ers and shippers, the centering of the best thoughts and minds in the industry will be devoted to the adoption and carrying out of advanced practices in marketing, and the extension of trade development in the world's markets.

"Substantially, confidence is expected to take the place of hostility in com-petitive conditions, and through that confidence, economy with materially increased efficiency should logically bring its return in a corresponding saving in dollars and cents. Eligibility Is Fixed.

be assured facilities are available.

Installation of another plant for building wooden vessels, similar to the yard at St. Helens, is another probability. As several contracts for Coast vessels have been declined, owing to limited facilities, it is felt that a large field is available for that class of work. Abundant timber is to be had along the river, and it is said a number of favorable locations are available.

"Eligibility to membership is confined to certain specific features, namely sold the estimate of the committee decided on the amount designated.

The first estimate of \$2,104,000 was made last Summer. Since then, the committee was told, the engineers have committee was told, the engineers have found that progress on the jetty is limited by the capacity of the tramway. They have concluded that it would be physically impossible to place "Eligibility to membership is con-fined to certain specific features, nameclusively. All other active and passive members must also be parties to and use exclusively that same contract. mentality about which the entire move-

ment and organization is constructed.
"The uniform contract illustrates the general scope of the entire plan." Its conditions are mandatory upon the sell-ing organizations. They represent the very things the shippers have recognized as vital to the progress of mar-keting methods, the wider development of markets, the great need for a con-trolable and economic pioneering of the nany foreign markets now unacquainted with Northwest fruits, as well as a steady and greatly enlarged distribu-tion in Great Britain, Germany and
