HOUSE TO REMAKE LAND GRANT BILL
Chamberlain Draft to Be Used as Basis for Construction of Committee Substitute.

DETAILS NOT WORKED OUT
Representative Murray Opposes Proposal to Give State 16 Per Cent of Capital of New Corp of Annual Tax.

OREGONIAN NEWS BUREAU Wash.

The State Senate has agreed in principle to a plan submitted to it by Senator Murray but there are no details to work on.

The plan is to have the federal government give the state 16 per cent of the capital of the new corporation, with which to make a railroad through the state. The plan is for the state to construct the railroad itself and the federal government to accept the right to operate it. The state would benefit from it, Senator Murray says, by having control of the railroad and by getting a part of the profits from its operation.

There are no details as to how the plan would work. Senator Murray has been working on it for some time and has not yet decided whether to introduce it in the Senate or in the House.

The plan is similar to the one which has been proposed in the House and which has been before the Senate for a long time. Senator Murray says he will introduce it in the Senate as soon as he has a chance.
