Woman's Father Testifies of Her Arrival Home on Day Husband Was Murdered-Convicted Man Also Is Called.

M'MINNVILLE, Or., March 10.—(Special.)—The case of Mrs. Anna Booth, charged jointly with William Branson, convicted of second-degree murder for convicted of second-degree murder for the killing of the woman's husband near Willamina last October, is ex-pected to go to the jury by noon today. Argument to the jury commenced late today, after the prosecution had been taken by surprise when the de-fense failed to call any witnesses in rebuttal.

rebuttal.

The defense started the introduction of evidence this morning. Mr. Harrington, father of Mrs. Booth, testified on behalf of his daughter. He is quite well along in years and hard of hearing. He testified that his daughter, the defendant, reached his home about 1:15 or 1:20, being positive it was not later than 1:20 P. M. on the day of the tragedy. The old gentleman spoke with evident sincerity.

Branson also was placed upon the stand, and his story was the same as before. Mrs. Booth showed signs of nervousness when he entered the courtroom.

nervousness when he entered the courtroom.

The defense placed 18 witnesses upon the stand. The state called six witnesses in rebuttal. When the attorneys for defense did not offer any rebuttal Judge Belt ordered the argument to the jury to proceed. A short recess was then ordered, followed by Attorney Kliks, assisting in prosecution for the state, with his statements to the jury.

Followed by the closing argument of Attorney Kliks, Attorney Burdette, for the defense, made his statement to the jury, which consumed all of the evening session. At the conclusion he made a plea on behalf of the two children of Mrs. Booth. He was interrupted by District Attorney Conner many times.

CLACKAMAS COUNTY OFFICIALS TAKE NAKED CAPTIVE.

Daniel Clifford, Aged 24, Who Has Ronmed Woods About Kelso Existing on Berries, Is in Jail.

OREGON CITY, Or., March 19.—(Special.)—"The Wild Man of Kelso" was captured late this afternoon in the person of Daniel Clifford, aged 24, who was brought here tonight by Sheriff Wilson and Constable Frost.

For 30 days past young Clifford has been roaming the woods between Boring and Kelso, frightening women and children, and no one dared to go near him. He has been living on berries, roots and potatoes and tonight, as he occupies a cell in the county jail, is in terrible physical and mental condition.

When word reached the authorities today that Clifford had been seen staggering along a road near Kelso, Wilson and Frost, armed with a suitcase, nacked with clifford problems.

# WHAT CAUSES COLDS?

This question is asked every day. A cold is really a fever, not always caused by the weather but often due to disordered blood or lack of important food-elements. In changing seasons fat-foods are essential because they distribute heat by enriching the blood and so render the system better able to withstand the varying elements. This is the important reason why Scott's Emulsion should always be taken for colds, and it does morebuilds strength to prevent sickness.

Scott's Emulsion contains Nature's rare strength-building fats, so skillfully blended that the blood profits from every drop. It is free from harmful drugs or alcohol. Sold at drug stores always get the genuine.

JECTIONS TO FERRIS MEASURE.

Senator Walsh, of Montana, Told Proposed Policy Is Selfish One and Unjust to State.

BOISE, Idaho, March 10.—(Special.) -Senator Walsh, of Montana, is bluntly informed as to why the Idaho Mining Association stands opposed to the Ferris leasing and power bills. In a letter to Senator Walsh answering his query as to the objections idaho has to this measure, J. B. Eldridge, a well-known mining man, speaking for the association, says in part:

"The plan devised by the Ferris bills

association, says in part:

"The plan devised by the Ferris bills to tax water power, oil, gas, phosphates, potassium and sodium is a narrowly conceived one in that the only basis for putting a tax on water power lies in the fact that the Federal Government owns or holds, land in trust for the people, along each side of the streams whose waters it concedes belongs to the states.

"The selfish policy proposed to prevent ingress to the waters across Federal land until the states submit to a tax on water power under the pretext of paying for a right-of-way. Such a proposal in private life between citizens would be condemned as intolerable. Such plans are not in keeping with a broad gauge beneficient government, but are sordid, selfish and dearcutive of rights well founded and can only breed contempt for the Congress passing such laws and for those proposing such measures.

"The proposal to lease oil, gas, phosphate, potassium and sodium lands, under rules and regulations of the Secretary of the Interior, is no better than the water-power bill. Any tax or burden placed upon such industries places a handicap to the extent of the tax, besides the burden of having to deal with a horde of special agents, too frequently a job lot of unscrupulous, crooked politicians, and an endless chain of red tape, to begin with."
