

## EXILE OF PRESIDENT YUAN IS DEMANDED

Death of 12 Advisers in Plan for Monarchy Is One Article of Rebel Terms.

### PROPERTY IS WANTED, TOO

Revolutionary Provinces Would Deprive Executive's Descendants. of Citizenship—Members of Cabinet Not Opposed.

SAN FRANCISCO, March 27.—An ultimatum demanding the resignation and exile of Yuan Shi Kai and the trial and execution of 12 of his advisers has been handed to the Yuan Shi Kai government by the military governors of six revolting provinces, according to cable advices today from revolutionary leaders in China, to the Chinese Republic Association here.

The ultimatum contained five demands, according to the advices, as follows:—  
First—That Yuan Shi Kai resign at a fixed date and leave China.  
Second—That 12 "traitors" (named) be tried, and if found guilty of conspiring against the republic, executed.  
Third—That Yuan Shi Kai's property and the property of the 12 "traitors" be confiscated to indemnify the revolution.  
Fourth—That Yuan Shi Kai's descendants for three generations forfeit their rights of citizenship.  
Fifth—That the separate provinces be given control of army units and arsenals.  
The ultimatum was telegraphed to Peking by Tang Chi-Yao, military governor of the Province of Yunnan, and head of the army of the revolutionists, it was said. Failure to comply would mean the alternative of prosecution of the revolution.

**Cabinet Not Opposed.**  
The names of the military governors of the other five seceding provinces in the southeastern part of China were listed to the ultimatum.  
Article two of the demands urging the trial of the 12 advisers of Yuan Shi Kai, commissioned, it was said, to perfect the monarchy recently abandoned by Yuan Shi Kai, enumerates the names of the advisers, who are referred to as "traitors." They are: Yang Yu, Yuan Chi-Kwei, Shun Yuk-Wan, Yin Fook She-Toy, Lee Sik-Wo, Wu Ting, Ge Ki-Kim, Ju Ge-Chi, Liang She-Yu, Chang Jung-Fong and Yuan Ni-Pung.  
The fifth article of the ultimatum, demanding the provincial control of the army, concedes the retention of all Cabinet Ministers of the republic in office.

### YUAN ADVISED TO RESIGN

President's ex-Premier Says Majority of Chinese Favor Idea.

SHANGHAI, March 27.—Tang Shao Yi, China's special envoy to the United States in 1908, and President Yuan Shi Kai's first Premier, in an interview today said that he telegraphed Yuan Shi Kai last night, urging him to "accede to the wishes of a large majority of the people of China" and retire from the government.  
Tang Shao Yi expressed the opinion that the mandate cancelling the plan to restore the monarchical form of government had resulted in an accentuation of popular feeling against Yuan Shi Kai. He said the country was headed toward ruin unless he proclaimed Li Yuan Heng president and announced that he will use his influence to assist Li Yuan Heng to maintain order. Li Yuan Heng is vice-president of the republic.

### DOVE HAUNTS WAR COLLEGE

Peace Bird Roosts Daily Above Bulletin Calling Men to Arms.

CHICO, Cal., March 24.—A "dove of peace" perched upon a reminder of war is the novel sight that may be seen any morning in the local postoffice.

Within the office is a United States Army bulletin board, containing the familiar call for men for Army service.  
A week ago a white pigeon flew in the open doorway of the postoffice at 3 o'clock in the morning and perched on the bulletin board. Since that time it has repeated the performance every day.

Every morning about 2 o'clock the pigeon flies inside the office, roosting on the bulletin board. It stays there until about 6 o'clock, at which time patrons begin to call for box mail, and then flies away, no one knows where.

It is understood that the banks of searchlight projectors used at the Panama-Pacific International Exposition for obtaining the "sunlight" effects have been bought for the use of the Russian army in the war.

### For Pimples Faces

## Try Cuticura Soap and Ointment

Samples Free by Post

A simple, easy, speedy treatment. Smear the pimples lightly with Cuticura Soap and Ointment on end of finger and allow it to remain about five minutes. Then wash off with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best upon rising and retiring, and is usually effective at any time.

For pimples, redness, roughness, itching and irritation, dandruff, itching scalp and falling hair, red, rough hands and baby rashes, itchings and chaffings these fragrant super-creamy emollients are wonderful. They are also splendid for nursery toilet purposes.

Sample Each Free by Mail  
With 33-p. Skin Book on request. Address post-card "Cuticura, Dept. 17, Boston," sold throughout the world.

### IRON CLAIMS LOCATED

INDICATIONS OF MANGANESE ALSO FOUND NEAR GRANTS PASS.

Ledge Declared 150 Feet Wide and Location Would Permit of Most Economical Operation.

GRANTS PASS, Or., March 27.—(Special.)—What promises to be one of the most significant mineral discoveries in many a day in Southern Oregon has been made by W. B. Sherman and associates of Grants Pass. Mr. Sherman believes that he and his associates have discovered a whole mountain of iron ore and have located six mining claims aggregating 9000 feet in length, on a magnetic iron ledge, which also shows indications of manganese.  
The ledge crops out in several places, one of which is on top of the mountain for a quarter of a mile, the croppings being 150 feet wide, with indications of even a much greater width. The location is particularly advantageous from the standpoint of accessibility and facility of mining, since by starting work on the ledge in the bottom of the canyon it could be quarried, and in a short distance the breast would be hundreds of feet high.  
The ledge is located about eight miles from the California & Oregon Coast Railway, now building from Grants Pass to Crescent City, Cal., and the road to the railway is all down grade.

### PAPER QUERIES POUR IN

CHAMBER ISSUES STATEMENT ON SITUATION.

People Are Urged to Save Waste but Government is Not in Market and Prices Are Normal.

The first result of the announcement from the Chamber of Commerce that the Government was recommending the saving of waste paper stock has been a flood of inquiries as to prices. The Chamber will pay for waste paper, and questions as to where waste paper shall be sent to be sold to the Government in the face of these queries, the trade and commerce bureau has issued the following explanation to make it clear to the public that neither the Chamber of Commerce nor the Federal Government are yet in the market for this commodity.  
"A large number of requests have come to the Chamber of Commerce seeking information as to where the Government is buying waste paper and rags. The Government is not purchasing such, but as a matter of National economy, to save a product that has been wasted by the thousands of tons in the past, and also to relieve the present stress in the paper manufacturing industry, is appealing to the people to save that which was formerly an absolute waste.  
"Many persons think that because the Government is buying waste paper and rags, a big price is being paid. This is not the fact. There is no other price paid than that which market conditions in each district warrant."

### DUTY OF CONGRESS SHOWN

When Men of Talent Give Brains to Nation's Aid, Backing Is Needed.

WASHINGTON, March 15.—"If a few really great men like those who compose the Naval Advisory Board of Inventors, of which Thomas A. Edison is the chairman, who have sacrificed their own large affairs to give their brains and their time to the needs of their country without money and without price, can make such a difference for the well-being of the Nation, the least that Congress can do is to vote the money necessary to make their work effective," said Charles F. Brooks of Salt Lake City, Utah, at the Raleigh.

"In 120 days this board has found a way to make the most powerful and effective torpedo in the world. It has devised an aeroplane engine that is said to be the 'last word' in that kind of engine construction. It has submitted plans for the erection of a laboratory and experiment station to cost between \$4,000,000 and \$5,000,000, where, it is said, a submarine can be built in 60 days. A plan was submitted covering, to the last minute detail, the mobilization of the country's industries. New

discoveries in physics and chemistry as applied to warfare were announced, and reports were also made on means of communication by land and air, on sanitation, on internal combustion motors, ordnance, yards and docks, ship construction, mines and transportation. Then, to give a touch of romance to the announcement, it was stated that in some manner not to be disclosed, detailed plans of some of the most powerful warcraft possessed by the nations now at war had been obtained.  
"It is the real American way of transacting American business, and there could be no finer showing of practical patriotism."

### GIBSON WEDDING IS FIXED

April 27 Is Date Set for Marriage of Noted Artist's Daughter.

WASHINGTON, March 19.—Miss Irene Langhorne Gibson, daughter of Mr. and Mrs. Charles Dana Gibson, of New York, will be married to George B. Post, Jr., April 27, in St. Bartholomew's Church, and a reception will follow at the home of Mr. and Mrs. Gibson. Miss Nancy Perkins will be her cousin's maid of honor and the other attendants will be Miss Harriet A. Post, Miss Nathalie Wood, Miss Margot Scott, Miss Evelyn Preston, Miss Helen Crocker and Miss Ruth Haggood.  
Chalmers Wood, Jr., will be Mr. Post's best man and the ushers will be Schuyler L. Parsons, Jr., Grafton H. Payne, C. Suydam Cutting, Oliver W. Bird, Jr., Thomas H. Frothingham, Richard Van Ness Gambrill, Langhorn Gibson, all of New York; Bayard Tuckerman, Jr., and Q. A. Shaw McKean, both of Boston, and C. Dawson Coleman, of Philadelphia.  
Mr. Post will give his farewell bachelor dinner at the Harvard Club on April 14.

Packard  
"TWIN-SIX"  
\$2900-\$3300  
F.O.B. PORTLAND

### The Endorsement

What you want to know about the Packard Twin Six is what the man at the wheel has found out about it.  
If you ask him, he will tell you it gives the most satisfying results ever obtained in an automobile.  
He will point out that the same qualities which produced greater ability and more smoothness have resulted also in a lowered cost of operation and maintenance.  
He will explain why the Twin Six has the supreme endorsement of the most exacting clientele in America.  
At this date, March 27, more than 4300 Packard Twin Sixes have been shipped to owners, and every superiority of the twelve-cylinder motor has been verified at their hands. The factory's production is fifty Twin Sixes every day.  
The Packard Company repeats with greater emphasis than ever before—  
"ASK THE MAN WHO OWNS ONE."  
FRANK C. RIGGS COMPANY  
Cornell Road, 23d and Washington Sts.

# "The Laughing Mask"

Who is he?  
"The Hammer of God" is his own reply to that question. You'll realize its significance when you read the story or see the pictures of "The Iron Claw."  
What is he?  
The most remarkable, versatile, daring Genius of Adventure that has ever stepped before your eyes in print or picture.  
"The Laughing Mask" is only one of many vitally interesting characters you'll meet in

### PIRATE IS PRETTY GIRL

NOVEL ACT HEADS NEW BILL AT PANTAGES THEATER.

Acrobatic Brothers Give Sensational Performance and Entire Program Is Good.

Violet opens Pantages' bill and Viola closes it, and in between the two and including them, the offerings are varied and entertaining. Violet is a nice little blonde girl with nothing much on but a tulip bow and pink slippers, and she is a darling, intrepid acrobat. Charles, her partner, affords plenty of fun.  
Viola is pretty and has a melodious

contralto voice. She is featured in "The Dream Pirate," the headline act, as a saucy little pirate. A crew of dainty sailor girls "man" the ship through a sea of melody and mirth. Sammy Wrenn is the joy of the voyage with his dancing and badinage.  
The seven Bracks offer a capital act, in tumbling and general athletic maneuvers. It is positively sensational.  
Chris Edwards makes friends. He is an English eccentric comedian with new ideas, new songs, new steps and new sayings.  
A glimpse of Ireland and some of its songs are offered by Michael Emmet, and a very pretty little Irish lass. They sing the Irish melodies, dance a jig or so, and make an effective picture in their native costumes, with live birds flying about their heads.  
The Packard Four are 12 cylinders of mirth, melody and terselore. The two girls wear smart frocks and they

### COLUMBIA ALUMNI TO MEET

President Thompson Tomorrow Will Speak of War Situation.

President Lewis Irvine Thompson, of the Columbia University Alumni Association, has obtained Dan J. Malarkey to speak at the regular monthly meeting of the association, to be held tomorrow at 12:15 o'clock at the Chamber of Commerce.  
The subject will be the European war. Mr. Malarkey has just returned from the war zone and will be able to make clear many points of interest and will be able to give a clear conception of what is going on in Europe. Mr. Thompson urges every member of

### DIAMOND IN HEN'S GIZZARD

Gem With Fifteen Inches of Chain Found by Indiana Girl.

PRINCETON, Ind., March 22.—Miss Bertha Tichenor caught a hen breaking and eating eggs at the home of her father, George Tichenor. She killed the hen and dressed it. In the gizzard she found a diamond ring with 15 inches of a woman's gold chain wrapped about it.  
It is believed the chicken picked up the ring in the road near the Tichenor house. Some passerby, wearing the ring on a chain about the neck, had probably lost it when the chain broke.
