

ATTORNEYS REVIEW BRANDeis CHARGES

Accusation of Duplicité and Violation of Ethics Declared Sustained.

SHARP CRITICISMS MADE

Instances of Alleged Unprofessional Conduct and Sharp Practice Enumerated in Brief Opposing Confirmation.

WASHINGTON, March 28.—Counsel for the opposition to confirmation of Louis D. Brandeis as an Associate Justice of the Supreme Court today filed a brief with the Senate Judiciary subcommittee, asserting that they had proved that Mr. Brandeis had violated the canons of professional ethics in the performance of his professional duties, had represented interests opposed to the public welfare and had been guilty of sharp practices. The subcommittee probably will vote Saturday on its report.

The attorneys who signed the brief, which purports to summarize 1300 pages of testimony heard by the committee, were Austin G. Fox and Kenneth Spence, of New York. The standard of professional ethics they charge Mr. Brandeis with having violated is one which forbids a lawyer in whom confidence has been reposed by a client thereafter from accepting employment from others in matters adversely affecting any interest of the client with respect to which the confidence had been reposed.

Several Cases Cited.

The attorneys say they proved Mr. Brandeis violated this canon by his conduct in connection with the bankruptcy affairs of James T. Lennox, the Warren case, the United States Machinery Company, Equitable Life Assurance Society and the Gillette Safety Razor Company.

False and misleading statements or acts of duplicity are asserted to have been proved in the Ballinger-Pinchot hearing, the Boston & Maine merger fight and the New York & New England litigation.

Under the heading of proof as to representing interests opposed to the public welfare and acts of sharp practice, the attorneys refer to Mr. Brandeis' conduct in the 5 per cent advance rate case of 1913 before the Interstate Commerce Commission and to his appearing "as registered lobbyist" before the Massachusetts Legislature for the liquor interests.

Sudden Changes Enumerated.

His conduct in the Old Dominion Copper case is criticized by the attorneys as "other instances of Mr. Brandeis' sudden and unexpected change of position" they refer to the Consolidated Gas incident and the price maintenance incident.

Even if there be doubt as to the standard of professional conduct of Mr. Brandeis, the attorneys contend that his nomination should not be confirmed. They point out that eight ex-presidents of the American Bar Association have protested against confirmation and that the only ex-president who appeared in support of confirmation had known Mr. Brandeis only slightly.

COUNTIES GET 30, STATE 20

(Continued From First Page.)

ported on the final vote by Representatives Chamberlain, Timberlake, Crampton and Crampton, but there was a majority of two against them.

Representative Sinnott then undertook to amend the bill so that the state of Oregon would get 40 per cent of the receipts for its school fund, an equal amount to go to the counties. Every other member of the committee voted against this proposition. He then proposed that the counties get 30 per cent and the state 30 per cent, but this proposal was rejected by a large majority.

Compromise is Reached.

As a final compromise he suggested 30 per cent to the counties and 20 per cent to the state, and this motion carried. During the session of the part of the bill Representative McArthur was permitted to participate in the discussion and supported Representative Sinnott throughout, though he had no vote.

When the committee finally decided to turn 40 per cent of the receipts into the reclamation fund, Representative Sinnott proposed an amendment requiring the expenditure of this money exclusively on irrigation projects in Oregon, but was overwhelmingly outvoted. Later he tried to get an amendment giving preference rights to all bona fide settlers who had established homes on the land, but the committee voted by the subcommittee recommendation.

PREVENT RELAPSES OF GRIP

This is the time of year when those who have had the form of influenza known as "the grip" are suffering from the condition in which the disease invariably leaves its victims.

Grip leaves the blood thin and this anemia which follows grip is a very stubborn one in resisting treatment. It must be corrected however before any cure can be considered permanent. As long as the blood remains thin there will continue the relapses with which most sufferers from grip are familiar. Warmth and quiet alone give comfort and these not for long at a time. Sleep is restless and does not refresh the nerves which are always at high tension.

The best way to correct this after-effect of the grip is to build up the blood and there is no better blood builder than Dr. Williams' Pink Pills.

As soon as the revitalized blood courses through the system you are aware of its soothing influence. Gradually the color returns to the pale cheeks, appetite and digestion improve and you are on the road to health.

Your druggist sells Dr. Williams' Pink Pills or they will be sent by mail on receipt of price 50 cents per box; six boxes \$2.50 by Dr. Williams Medicine Co., Schenectady, N. Y. Write today for free booklet, "Building Up the Blood."

BELLANS

Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

ation, as it did when Mr. Sinnott moved an amendment broadening the free use provision of the bill, applicable to timber for mining development.

Lind's Present Status in Doubt.

There is a difference of opinion among members of the committee as to the status of John Lind and other holders of executive contracts, now that section 7 has been eliminated. Some believe that the lands covered by executive contracts will revert to the Government as unsold land, while others believe the contracting parties can still go into court and have their rights legally determined. Whatever the fact, the Lind amendment is now passed up to the Senate committee, which as yet has given no consideration to the Chamberlain bill.

After conference with Chairman Ferris, Representative McArthur said he would introduce immediately a bill newly defining the boundaries of the Bull Run forest reserve to include all public lands now embraced and all other lands which may accrue to the Government. This will include 11,340 acres of Oregon & California lands that lie within the present limits of the reserve and will protect Portland's water supply fully.

LOVE VOYAGER WRECKED

INTENDED WORLD TOUR FROM SEATTLE ENDS ON ISLAND.

Captain Francis Drake's 30-Foot Craft Strands on San Martin's, 200 Miles South of San Diego.

SAN DIEGO, March 28.—Shipwrecked on San Martin's Island, about 200 miles south from San Diego, the effort of Captain Francis Drake to make a lone tour of the world has been brought to a disastrous conclusion, according to word brought here today by Captain Robert Israel, of the schooner Sone Such.

Captain Drake left Seattle July 28, 1915, with the announced intention of making a tour of the world in a boat 34 feet long and equipped with a five-horsepower engine. Drake named his craft the Sir Francis, and made the run down the Coast to San Diego without mishap, and sailed from here early this month. According to Captain Israel the Sir Francis is a complete wreck, although Captain Drake, who remains at the scene, is hoping to repair it and will enable him to return to San Diego.

Captain Drake reports that because of a sudden storm he was compelled to leave two of his men ashore at Turtle Bay one week ago. Arrangements are now being made to send a boat after the men, but few provisions have been left with but few provisions.

STEEL CONCERNS FREED

CONSPIRACY IN YOUNGSTOWN LABOR CASES NOT FOUND.

Federal Judge Grants Motion to Quash Indictments Found Under Ohio Anti-Trust Law.

YOUNGSTOWN, O., March 28.—Judge W. S. Anderson today granted the motion to quash the indictments recently returned here against five steel companies charging them with conspiring to fix the price of labor and steel products. The indictments against the United States Steel Corporation and E. H. Gary, head of the corporation, still stand, as the motion did not include these two defendants, on whom service has not been secured.

The steel company attorneys attacked the indictments as being too indefinite and uncertain, depriving the defendants of constitutional rights. The companies in whose behalf the motion to quash was made are the Republic Iron & Steel Company, the Youngstown Sheet & Tube Company, the Youngstown Iron & Steel Company, the Brier Hill Steel Company and the Carnegie Steel Company. The latter is a subsidiary of the United States Steel Corporation, and the indictment returned against the corporation and Gary identical in form and intent and stating that the defendants conspired to fix the price of labor and steel products. Prosecutor Henderson intimated late today that he would carry the case to the United States Supreme Court.

APPLE GROWERS TO ELECT

Hood River Association Will Consider Big Problems Saturday.

HOOD RIVER, Or., March 28.—(Special.)—At the annual meeting of the Apple Growers' Association next Saturday, when a board of directors of 11 will be elected, the two most important measures to be voted on by the members of the organization which controls the majority of the fruit tonnage of the Valley will be those pertaining to an affiliation with the Fruit Growers' Agency, incorporated, organized last week in Spokane, and the matter of levying assessments of 1 cent per package on all fruit products handled by the organization.

The proceeds will go toward an auxiliary fund to be used in financing growers at harvest time and to purchase supplies.

THIEF CARRIES OFF PALMS

Pair Taken From Residence of Mrs. Gilman, Vancouver Avenue.

It must have been a thief with a sense for the artistic in plants or one who had a longing for the "shattering palms" that operated out of Vancouver avenue Monday night. At least that is the opinion of the police.

Someone stole two fine palms from the front porch of Mrs. F. Gilman, 911 Vancouver avenue, during the night, she reported. The palms were about four feet high, planted in large wooden buckets, so it is believed, the man who took them must have been a muscular specimen.

Centralia Elks to Break Ground.

CENTRALIA, Wash., March 28.—(Special.)—It is expected that ground will be broken before May 1 for the new \$40,000 building to be erected by the Centralia lodge of Elks on property owned by them at the corner of Magnolia and Pearl streets.

Pekin, China, has an extensive telephone system.

NAVY FOR SECOND PLACE ADJUDGED

Assistant Secretary Roosevelt Says War Gives America Its Chance.

BIGGER PROGRAMME URGED

United States Could Outstrip Germany in Race for Supremacy of Sea—Secretary Daniels to Be Heard Today.

WASHINGTON, March 28.—Assistant Secretary Roosevelt recommended to the House naval committee today that the United States Navy be reorganized as soon as possible to second place among the world powers on the sea.

Answering hypothetical questions by members of the committee, who were interested in comparing the German and American navies, he said the United States could outstrip Germany in a race for naval supremacy. He personally favored a building programme this year larger than recommended in the Administration's five-year proposals.

Mr. Roosevelt will complete his testimony tomorrow morning, and as the final witness of his preparedness to answer questions by the committee, Secretary Daniels tomorrow afternoon.

Many More Men Required.

While the Assistant Secretary declined to discuss naval policies, which, he said, were within Secretary Daniels' province, he gave his personal views in advocacy of large and immediate naval rebuilding. In case of war, he said, the United States would need 225,000 men for its Navy, judging from England's experience in rebuilding her naval forces since the war began. The Administration's five-year programme alone, he said, would entail doubling the present number of men and officers.

The present Navy, Mr. Roosevelt asserted, was not sufficient to cope with a first-class power, or a combination of lesser powers, if the Government's policy was to protect both coasts, the Panama Canal, its outlying possessions and maintain its national policy with respect to Latin America.

War Gives Chance to Catch Up.

"We can take advantage of the war to catch up," he added. "After the war other nations will continue building."

By deferring planning new ships to learn lessons from the European war, he declared the Navy had evolved plans which would make the new battleships as near torpedo-proof as it is possible to make them. He recommended the establishment of a naval base on San Francisco bay, development of the Bremerton, Wash., yard, and establishment of a marine corps in Southern California. He also said a drydock and repair shops, but not a complete Navy-yard, should be established at Los Angeles or San Diego.

Regarding naval administration, the Assistant Secretary approved the law giving the chief of operations wide power.

"If you give a general board authority to make recommendations," he said, "and the Secretary only veto power, in the end you'd get a body which would stop progress."

SURVEY OF RIVER ASKED

REPRESENTATIVE MARTHUR INTRODUCES COLUMBIA BILL.

Portland Engineer is Instructed by Chief to Invite Bids for Fishing at Sandiak.

OREGONIAN NEWS BUREAU, Washington, March 28.—Representative McArthur today introduced a bill appropriating \$12,000 to enable the Coast and Geodetic Survey, in co-operation with the Army engineers, to make a complete survey of the Columbia and Willamette rivers from Portland to the sea, with the view to issuing new charts, showing exact channel depths.

The Coast Survey has not made a survey of the Columbia since the work done, spasmodically, between 1851 and 1856, although the engineers have made some charts covering 48 miles of the river. The shifting of the channel and of sandbars of the 10 freights have made existing charts unreliable. The appropriation is urged by the Coast Survey.

The chief of engineers today instructed the local engineer of the Coast Survey to invite bids for fishing privileges on and around Sandiak, near the mouth of the Columbia River, for three years, beginning May 1.

Five Bitten by Rabid Dog.

CALDWELL, Idaho, March 28.—(Special.)—Five persons and several dogs were bitten by a rabid dog before it was killed by a Police Officer. The City Council in special session last night passed an emergency ordinance requiring all dogs to be muzzled and issued orders to the police department to kill any found at large unmuzzled.

BIG GUNS HELD UP

Strike Policy of British Labor Leaders Exposed.

HIGH TREASON IS CHARGED

Labor Member of Parliament Demands That Offenders Be Placed on Trial—Defense of Realm Act to Be Enforced.

LONDON, March 28.—Dr. Christopher Addison, Parliamentary Under-Secretary for Munitions, revealed to the House of Commons today a grave condition of strike promotion and what he described as a deliberate, organized policy of holding up munitions of war, which, in the opinion of Sir Edward Carson, who followed him in the debate, might justify the men involved being charged with high treason for assisting the King's enemies.

James Henry Thomas, labor member of Parliament for Derby and assistant general secretary of the Amalgamated Society for Railway Service, also spoke, demanding, as a responsible trade union leader, that the men should be put on trial.

Offending Leaders Removed.

The announcement by Mr. Addison which brought out these opinions was that six leaders of a body calling itself the Clyde workers' committee, which had been attempting to foment strikes among munition workers on the Clyde, had been removed from the district by the military authorities. In making the announcement, Dr. Addison added that the committee had in particular attempted to stop work in factories where large guns were being made and in industrial conditions, he said, and were denounced by trade union leaders. The object of the committee, he explained, was to compel the government to repeal the munitions of war and military service acts, to withdraw all limitations on increases to pay and freedom of action without government control.

Strikes Called Systematically.

Dr. Addison explained further that the trouble arose on March 17, when in one case 130 men were called out, and that from that date on a series of strikes had occurred under a systematic plan. Finally the Minister of Munitions, he said, had requested the military authorities to remove the delinquents under the defense of the realm act.

The government, Dr. Addison testified, had the support of a majority of munition workers, and he was confident that they might rely upon the support of Parliament and the nation. If it became necessary to put into force the full powers of the executive to maintain the production of munitions to the fullest extent.

AUTO PARTY GETS DUCKING

Three Tono Men Nearly Drowned When Car Goes Into Deep Pool.

CENTRALIA, Wash., March 28.—(Special.)—When their auto plunged off the county road between Centralia and Chehalis into six feet of water Monday morning, three Tono men narrowly escaped drowning. The water came to the top of the car and the trapped men were forced to tear away the top to extricate themselves. Aside from a smashed fender, the machine was not damaged.

Pioneering down the Skookumchuck River on a raft nearly proved disastrous.

Prosperity in Canada

\$900,000,000

In New Wealth Added in 1915

ENORMOUS CROPS AND LOW TAXATION Make Farmers Rich

CANADA, enjoying wonderful prosperity from the products of the farm, the orchard, and the centers of industry—Canada has come into her own. No country wrote a brighter page of history in agricultural and industrial development during 1915 than Canada. All industrial plants working overtime. Wheat average, 36.16 bushels per acre in Alberta; 28.75 bushels per acre in Saskatchewan; 28.50 bushels per acre in Manitoba. All other grains showed similar large yields per acre. Taxes average \$24 and will not exceed \$35 per quarter section. This includes all taxes. No taxes on improvements.

Come and Get Your Share of This Prosperity

—the greatest wealth-producing area the Dominion has ever known. Free schools and full religious and social freedom. World-renowned climate. Prizes won at International Fairs prove this. Here is your opportunity! What chance have you to own a farm for your children in your present location, where land prices are so high?

Get Your Farm Home from the Canadian Pacific Ry.—20 Years to Pay

Good land from \$1 to \$10 per acre. Irrigated lands from \$10 to \$20 per acre. Balance after first payment extended over fifteen years with interest at 5 per cent. Paying in full at any time. Loan before final payment becomes due your farm should have been paid for itself. \$2000 Loan for Improvements. We will lend you up to \$2000 in improvements in certain districts with interest less than the land itself. Particulars upon request. Twenty years for repayment of loan with interest at 5 per cent.

Ready-Made Farms for Sale. Farms which we have developed by providing houses, barns, well and water, and in some cases cultivation for sale. Special easy terms.

\$2000 Loan for Livestock. In defined districts after one year's occupation under certain conditions we will advance \$2000 to help you to buy a cow or a pig to a value of \$1000.

We Want You. We Can Afford to Help You. We own the land. We want the land cultivated. Our interests are mutual. Buy direct and get your farm home from the Canadian Pacific Railway. Send for free book.

J. S. DENNIS, Assistant to the President.

Canadian Pacific Ry. 64 North Avenue CALGARY, Alberta, Can.

STOCKRAISERS ARE DUPED

Shipments, Worth \$10,000, and Obtained on Bad Checks, Traced.

COLVILLE, Wash., March 28.—(Special.)—Farmers and stockmen between Colville and Chewelah, who this week shipped hay, horses and cattle worth \$10,000 to British Columbia points, made the discovery yesterday that the checks given by the purchaser were dishonored by the Royal Bank of Canada, upon which the checks were drawn.

The cars were traced to quarantine across the boundary, where they will be held pending an investigation. Attorney J. A. Rockford, representing the victims, went to Nelson today to take such measures as may be necessary to retrieve the loss. It is said that the purveyor exhibited the best of references.

"DRESS-UP" DAYS PLANNED

Co-operation by Commercial Club at Centralia Invited.

CENTRALIA, Wash., March 28.—(Special.)—The co-operation of the Commercial Club in making "Dress-up" days, April 6, 7 and 8, a success was solicited at the noon luncheon of the club yesterday by A. J. Haigh, chairman of the committee of merchants, planning the event. The state convention of Parent-Teacher Associations will be held here April 5, 6 and 7 and many visitors will be here from all parts of the state.

Plans for the Parent-Teacher convention were outlined at the luncheon by Mr. LaRue, superintendent of schools. A reception will be held opening night.

Fruitmen Delayed by Rain.

RIDGEFIELD, Wash., March 28.—(Special.)—Fruitgrowers in and around this place are ready to spray, but are unable because of the unusual rainy weather, and unless the rains cease, peaches, plums and pears will be beyond marketing within the time and surplus solutions as buds are now at the opening stage. Early blossoming fruit, such as pears, cherries, plums, apricots and others, show indications of plenty of fruit, and unless late frosts appear there will be an abundant fruit crop in this section of Clarke County.

Free Instructions in Lamp Shade Making

—Special classes from 9:30 to 12 and 1 to 5 o'clock, under the direction of Mrs. C. E. Wilkinson, who is teaching all the newest ideas in lamp and candle shade making. These classes are free to anyone purchasing their frames and materials here.
