

SCHULTZ CASE TO GO TO JURY TODAY

Judge Morrow Holds State May Use Informers in Liquor Prosecutions.

DIRECTED VERDICT DENIED

Defense Uses Character Witnesses and Attacks Testimony of One Who Reported He Had Had Highballs With "Kick."

Twelve men in the court of Circuit Judge Morrow will have an opportunity today to decide whether or not liquor was sold in the ginger-ale and logan-berry highballs passed over the bar of the "soft" drink establishment of George Schultz at 293 Washington street during the month of January. Deputy District Attorney Hammarly will conclude the argument for the state this morning, and the case will be submitted to the jury.

An important ruling of Judge Morrow with regard to the right of the authorities to employ officers or informers to secure evidence against bootleggers was made yesterday in denying the motion of Attorney McCue & Estes for a directed verdict of acquittal. The right, beyond doubt, rests with the state, ruled the court, provided the distinction between offering the suspect an opportunity to break the law and soliciting him to break it is observed.

Defense Uses Character Witnesses.
The Colorado rule, cited at length by Attorney McCue, was shown by Judge Morrow to have no application to the case at issue, having been based on the refusal of a cop to try a prearranged case in which the prosecution was not genuine.

Deputy District Attorney Morrow made the opening argument before the jury yesterday. Attorney McCue replied. Deputy District Attorney Hammarly will make the closing argument this morning.

Witnesses for the defense in the Schultz case, with one exception, have been all "character" witnesses, and could be divided into two distinct classes. In one class were those who testified that George Schultz had always borne a good reputation prior to his arrest on January 25. In the other class were those who testified that Gus Yungeberg, one of the witnesses for the prosecution, bore a poor reputation for truth and veracity.

Former Jurors Testify.
The exception was Sney Sam, the Chinese who told of using the gin confiscated in the raid for cooking purposes only.

That Schultz had borne a good reputation in the community prior to his arrest was never denied by the prosecution. Strangely, five of the men who testified to their knowledge of his reputation before his arrest were good were jurors who had convicted Schultz in the lower court on the evidence and despite the testimony. And they were called by the defense.

The chief point of attack of Attorney McCue for the defense was Yungeberg, an employee of the Constable, who secured evidence against Schultz. He testified to purchasing numerous ginger ale and logan-berry drinks at Schultz' temperance bar which contained a "kick," and also to the direct purchase of a pint flask of bona fide whiskey.

Lawyer's Veracity Questioned.
Attorney McCue called him "informer" and declared that the state had conspired to induce Schultz to break the law. Then the lawyer called to the witness stand Attorney Thomas McCusker and others connected with the Marcella Clark insanity investigation.

The purpose of this was to produce evidence that Yungeberg had falsely sworn to an affidavit charging McCue Clark with being insane. The state did not go into this phase deeply, but went so far as to put on the stand W. S. O'Brien, who testified that Attorney McCusker's reputation for truth and veracity was bad.

The state did not rest its case upon Yungeberg's testimony, by any means. The chief witness for the state was Fred Ferguson, Schultz' bartender, who confessed to serving "mixed" ginger ale he "thought" contained intoxicating liquor to patrons of the saloon Schultz formerly conducted on Fifth street. No attempt was made to impeach him, nor Roy Ward, the Deputy Sheriff who testified to purchasing a ginger ale "highball" at the Schultz bar.

Judge McGinn on Stand.
Five witnesses were called yesterday morning. Judge Henry E. McGinn was placed on the stand by the defense. He testified that he had known of Schultz for two years and that his reputation was good. B. D. Hale, clerk in the office of Attorney McCusker, charged general corruption in the Marcella Clark case, particularly in the instance of Yungeberg.

W. S. O'Brien testified that he had known Attorney McCusker for years and that his reputation for veracity was not good. He denied that the lawyer's position as secretary of the Employers' Association had influenced his judgment. Charles W. Ackerson was also called by the prosecution to testify to Mr. McCusker's reputation. He said that he only knew the attorney's reputation during the 1912 Republican convention in Chicago, which was held not competent testimony.

At the conclusion of the testimony Attorney McCue moved for a directed verdict of acquittal, assigning five purely technical reasons for the motion.

The first reason was that the alleged acts of selling liquor were on the solicitation of the state's officers. The second, that it was alleged that McCue's nuisance had been maintained in the Perkins Hotel, when in truth it was in the Perkins cafe, 293 Washington street. Third, that the Perkins Hotel was under the control of the Perkins Hotel Company, and that the defendant was not in possession of the hotel, nor an employe of the hotel. Fourth, that there was duplicity in the complaint in the allegations of maintenance of a nuisance, having whiskey for sale, and having liquor stored there. Fifth, that the complaint did not allege that the nuisance was maintained knowingly.

DYNAMITE FOUND IN CAR

Two and a Half Sticks Wrapped in Comic Supplement.

A deadlier jest than the artists conceived was found in a colored comic newspaper supplement by Inspector C. E. Priddle, of the Portland Railway, Light & Power Company, Thursday.

Two and a half sticks of dynamite were wrapped in the paper, which was hidden in a Pere Marquette boxcar in the yards at East Water and East Main streets.
