Mr. Moores would like to pick a candidate who gave offense to none. He would apparently like a pussy foot, a nonentity—one who would try to please and suit everybody. That class of polities is past. He spoke right out in meeting and like a man fought for the side he thought he was right. There is nothing in the composition as used that would be detrimental to health.

His parents never were in this country. I tell him that this is a pretty hard nut, and that he had better turn it over to T. R's bird to crack. clapsed between the two yearly records. The circular gives the first year's record, also the rules under which the record was made. J. M. WRIGHT.

> > The "Pull Together" Spirit

Local dealers are awakening t the advantage of co-operating with manufacturers who assist them in making a market by advertising in he newspapers of their towns. This very pull-together spirit goes long way towards making sales. The response to this newspaper dvertising is direct and highly rofitable. No money is wasted in taking a market where there is no distribution.
