## OBREGON SHOWING NO DESIRE FOR WAR

Issue of Withdrawal Is Not Pressed in Conference With General Scott Alone.

PERSHING WILL. REMAIN

Position of American Government Represented as Being That Border Is Still in Danger From Bands of Villistas.

EL PASO, Tex., May 1 .- Progress EL PASO. Tex. May 2.—Progress toward an agreement was made today by the American and Mexican conferees considering United States troop dispositions in Mexico, according to unofficial but authoritative advices. It is, believed now the matter may be finished in the next day or so. This progress was due to the fact, it was sold, that General Obregon had concluded there was no possibilty of altering the intention of the Washington Government not to withdraw General Pershing's expeditionary force imeral Pershing's expeditionary force im-

mediately.

The attitude of the Mexican Minister of War is believed to have been described by a Mexican official who took part in the first conference in Juarez,

"Between two evils you must choose the lesser. It would be folly to sup-pose the de facto government desires war."

Withdrawal Not Pressed.

It was gathered from this fact that the Mexicans had decided not to press the question of withdrawal with the possibility that a break might follow. The negotiations today took an entrely unexpected turn. In the morning it was announced that there probably would be a meeting of the conferces in the afternoon, with Generals Function and Scott representing the United States, as in the first conference, and with Generals Obregon and Trevino representing Mexico. At noon, however, General Scott walked unattended from his private car to the Withdrawal Not Pressed. tended from his private car to the Hotel Paso del Norte, leaving General Funston to lunch alone in the car; about the same time General Obregon crossed over from Juarez in his touring car and proceeded to the same place.

Generals Guest of American.

Arrived at the hotel, General Scott and General Obregon went to a room reserved by A. J. McQuatters, president of the Alvarado Mining & Milling Company, which has large interests at Partal, the scene of the recent outbreaks of Mexicans against the American troops. It became known, then that the two Generals were to be the guests at luncheon of Mr. McQuatters, a personal friend of both.

At this meeting, which began at noon and lasted well into the night, General Scott is reported to have employed the factics which he successfully employed at the time of the Geronimo Incident in his negotiations with Villa and in other affairs, and which won for him the reputation of being the official peacemaker of the Washington Government.

Precentable American Friendship Asserted.

All is said to have indicated to General Scrib in the Sant Freedom Wilson wishes only to see Mexico rid of Villistas and as soon as this is accomplished the American troops will be withdrawn.

That President Wilson wishes Government has not been properly understood, since, far from seeking intervention, that is the thing it wishes to avoid.

That, finally, the majority of the American reported with President Wilson's accept the self-sing intervention.

There would be more said.

Washington, he is asserted to have said, planned to pursue to the end the task it had begun by sending General Pershing into Mexico, and naturally degired the co-operation of the Carranza government, since that would hasten the day of withdrawal.

SARATOGA SPRINGS, N. Y., May 2. The recommendation of the board of shops of the Methodist Episcopal The recommendation of the board of bishops of the Methodist Episcopal Church for an organic union with the Methodist Episcopal Church South aroused great enthusiasm today among delegates to the general conference. This recommendation was contained in the Episcopal address, the formal utterance of the board of bishops to the conference, which was read by Bishop Hamilton, of Boston.

More than \$1,290,900 was paid by the Methodist Episcopal Church during 1915 toward the support of superannuated and retired ministers and widows of ministers. This was shown in the re-

"The amount required annually to meet the legal claims of the entire church is about \$1,800,000," the report said. "In 1968 Methodism was paying \$500,000 of these claims, leaving a shortage of \$1,200,000 for which no provision was made, but in 1915 the church paid \$1,225,226, and today is facing the joyful problem of providing an additional annual income of \$600,000 so that Methodism may be clear on the books."

No reason under the sun. It's the same sun, shining over the same Tropics, that smilingly kisses Porto Rico and Cuba. Tobacco in its perfection is as native to the soil of one island as to the other.

Porto Rican tobacco is known to have every good quality of Cuban leaf, but as now cultivated "in the field," of her upland plantations it has a delicate mildness which distinguishes it from the Cuban leaf in this one noteworthy respect.
