that would be hearish on coffee. Coffee would advance on peace talk, and if the United States should be drawn into the war it would be more difficult to get coffee here from Brazil. Domestic consumption continues very heavy, and coffee prices are not high when compared with those of other food commedities. The liquidation that has occurred during the last week has improved the technical position of the market, and the best informed trade interests seem to think a higher range of prices most probable."

BAIL SHARES GAIN

Sharp Advances in Union Pacific and Rock Island.

OBANGE SUPPLY NEARLY EXHAUSTED Strawberries Are More Plentiful and Prices SPECIALTIES ARE UNEVEN

Front street is nearly bare of navel eranges, except 80s and small sizes, but seven curs are due Thursday. The market is very

Importation of Brewing Materials for Financial and Transportation Reasons.

Transportation Reasons.

The expect demand for hops is not going to be an much of a factor in the coming season as in past years, unless the war.

to be an much of a factor in the coming season as in past years, unless the war is brought to a close, as production of beer in England is to be limited.

Word has been received from London that arrangements have been made between the British government and the Brower's Sectety to reduce the heer output from April 1, 1916 to 25 per cent of the output of the year ended September 30, 1914. The aim of this restriction is to reduce the importation of brewing materials by 331-1; per cent, though no direct steps will be taken to restrict the importation of materials.

At the moment, there is a very good market at all points on the Coust and prices are, if anything, steader than last week.

Society to reduce the heer output from April 1, 1916 to 25 per cent of the output of the year ended September 30, 1914. The news in from the Coust and the United States is almost enough to send it at once to 70s, but these are war times. Fine 1913 strictly limited at 60s (worth 65s), last year's spot 50s and some near at hand try 57s, We still detect a good consumptive demand."

Egg Market is Holding Steady.

Egg receipts continue liberal, but the de-

Egg receipts continue liberat, but the de-mand is good and the 21%-cent quotation wille was bought by Raiph E. Williams at 16% cents. Offers as high as 11% cents were made for good Oregons in other sec-plus cubes readily absorbed on the basis of 25 cents for extras.

There were no changes in the poultry or

prices are more or less nominal. At the exchange hids ranged from I cent lower to & cent higher than Monday.

Commenting on the general situation. Henskorf, Lyon & Co., of New York, says:
"All markets are disturbed by Germany's note in answer to our domands, and it is not unlikely that the worst is being discounted. Fries have yielded during the week under improving weather conditions, which in turn forced liquidation. Europe continuous its policy of abstention from purchases owing to large supplies of old crop, and reliance in soon obtaining supplies from Argentina and Australia. Our farmers are disposed to held back what stocks they have with the present outlook of crop. One feature calling for attention is the steady rise in silver. While not affecting grain directly perhaps, it is making for world inflation generally and must eventually tell on grain as well. Under present disturbed conditions, the market may sell lower, but we consider ruling values cheap, and likely to rule much higher as the season progresses."

England is accumulating large reserves of wheat. Broomhall says in his international weekly review.

"Market in the United Kingdom is inclined to drag owing to large supplies, although the Continent is taking most of Argentine and Australian order cargoes. The position of the United Kingdom regarding supplies to interharvent period in very sailsfaceary when recknessed first reserves of mitive wheat are 20,000,000, port stocks in liquid the continent is taking most of Argentine and Australian order cargoes. The position of the United Kingdom regarding supplies to interharvent period in very sailsfaceary when reckness of the continent is taking most of the stocks and in addition to these miliers warehouses are very full of both wheat and flour, and it is confidently expected that by the middle of July our total available supplies will be fully 40,000,000 business.

Mexicans Heavy, Owing to Conditions South of Rio Grande. War Stocks Affected by Spread of Peace Rumors.

NEW YORK, May 0 .- For want of m

NEW YORK, May 6.—For want of more definite or specific reasons, the uncertification of professional tone of today's market were accepted as the logical outcome of recent events, Washington's reply to the Berlin note seemed to have been fully discounted, but the shifting phases of conditions south of the Rio Grands were again reflected in the comparative beaviness of Maxican issues.

War stocks followed a more consistent course in that they displayed greater weakings in the they displayed greater weakings as matter of fact, these ramors appeared to originate largely from interested sources, including what is technically known as "sold out built." Certainly, the international list gave no hint of momentous proceedings abroad and the foreign exchange markets conveyed no initimations of an approaching change.

The most hopeful or constructive sign was furnished by the railway list, which figured to a greater extent than ordinarily in the day's operations. Under Pucific was foremost among the standard shares, with a maximum gain of 2% points, with lesser gains for St. Paul, Canadam Pacific, Reading and Lebigh Valley.

Low-priced rails, now especially Rock island and some of the issues which once formed integral parts of the Gould system, were in general domand later. Rock Island rose four to 22, its best quotation for a very long time. Renewal of activity in these fong-dormant issues was made the occasion of much conjecture and goasip.

Shipping shares again divided honors with his automobile group. Mercantile Marines and United States Rubler. The motors fell away later, however, on failure of the Maxwell directors to act on the common and preferred made those lastes the feature of the utilities group.

Total sales of stecks amounted to 72,000 shares.

Bends in general were irregiar, but Book forms with a small rus loss. Bethlehous Steel on a single sale full in points to \$45. Weakiness of United Railways Investment common and preferred made these lastes the feature of the utilities group.

Polk Fruit Prespects Good.

MONMOUTH, Or., May 9.—(Epecial.)—It is expected with the passing of the present storm puriod the danger to the fruit crop for 1918 in this section will be practically over. Fruit prospects in this section of the Willamette Valley are exceptionally good Prunes and cherries promise a full crop, and these are the two great staples of Polk County. The prospect for apples and pears is also good as well as for the smaller fruits and berries. The English walnut is also a crop that will soon figure in the market reports. Just at present all the exchands of this nut in this vicinity are young, and they are slow in developing but there are several large tracts that will begin to bear in a few years.

STATIONS.

THE WEATHER.

WEATHER CONDITIONS.

A large high-pressure area is moving rapidly mining over the North Pacific Slope and is causing clearing and cooler weather over that section. A marked disturbance central over Eastern North Dakota, everlies the Plains States and Central Canada, and the weather is warmer in the eastern portion of the Dakotas, Manitoba, the Central Plains States, Eastern Colorado and New Mexico; it is cooler over the Lake region, Middle and North Atlantic States. Precipitation has occurred in the Northwest, Missouri and New York.

The conditions are favorable for generally fair weather in this district Wednesday, with higher temperatures and generally weather in this district Wednesday, winds. Heavy frost will form in early morning in most sections of the district.
