Specialists have agreed that Catarrh an infection of the blood. Set among giant oak trees, edging the east bank of the Willamette River, smooth lawns are found, broken here and there by artistically arranged flower beds. We have exerted ourselves in every way to preserve the natural beauty of the spot and to intensify it in every way by artificial means.

The auditorium affords seating capacity for 3000 persons. It boasts the largest stage of any theater in Portland and is fortunate in possessing extraordinary acoustic properties. This great building is centrally located in the park, and arrangements can be made for its use for speaking and business meetings.

Picnic pavilions have been built for this season of varying capacity, so that arrangements for seating your party can be made with little difficulty. A large kitchenette has been installed on the grounds, where attendants will assist in the preparation of tea, coffee or other hot beverages.

In selecting the Oaks for your meeting place this Summer you will afford your members and friends a day of unrivaled entertainment. A carefully planned programme has been arranged for every day of the park season. Numerous diversions are found, including the newly laid roller skating rink, the Blue Streak scenic ride, the Chutes, and, for the children, the always-absorbing miniature railway.

The roller skating rink will be open for patrons on Sunday. A new maple floor has been laid. JOHN F. CORRAY.
