Were You Ever 'Fooled' by a Talking Machine?

COME AND HEAR Edison's new invention, which actually re-creates all forms of music so perfectly that the blase music critics of the leading newspapers of this country admit in their papers that they cannot distinguish an artist's voice or instrumental performance from Edison's re-creation of it.

YOU NOW have the opportunity to hear this wonderful instrument—Edison Diamond Disc Phonograph—providing you attend Mrs. Kate B. Vaughn's lectures on "Domestic Science" at the Eleventh-Street Playhouse every day this week.

There you will hear the re-creation of voices of many of the world's greatest singers. Be sure to attend as many of the lectures and demonstrations as possible.

We invite all music lovers to visit our beautiful music rooms on the second floor, Eilers Bldg., where all the different styles are on exhibition. If you live out of town we will gladly mail you catalogue upon request.

EASY TERMS

To those who do not wish to pay cash, we will gladly arrange a most convenient payment plan. Some instruments as low as \$5.00 per month.

\$100 A-B Gas Ranges \$100
1 Down Special One-Week Credit Offer 1 Week

A-B Gas Ranges Never Need Blacking

The ordinary gas range looks nice while new, then the temporary finish wears off and it means a lot of hard, nasty work to black and polish the range.

The A-B Gas Range has a rustproof, permanent enamel finish that does not wear off. It looks like "new" all the time.

If the stove becomes dirty simply wash it off like you would a china dish.

The nickel is made with the special A-B "ALWAYS BRIGHT" finish. This is just another of many excellent points that make the A-B the favorite gas range.

You Get These Values in A-B Gas Ranges:

- White tile-lined canopy back.
- White enamel broiler pans and dirt tray.
- Glass oven door.
- Illuminated oven and canopy.
- Rust and dirt-proof finish.
- Automatic lighter; no matches.
- Rust-proof oven linings.
- Elevated oven and broilers.
- Enamel burners.
