REPUBLICANS PLAN BRIEF PLATFORM

Mr. Hilles Says T. R. May Run as Moose Nominee if Convention Doesn't Suit.

LONG SESSION PREDICTED

Kumor That Effort Will Be Made to Force Through Choice of Candidate for President On the

First Day Is Denied.

Charles D. Hilles, of the Republican National Committee, today expressed the opinion that the piatform which will be adopted by the National convention next month will be unusually brief and will deal only with the most vital public questions. From information obtained in talking with party leaders on the subject, he believes the principal planks in the platform will include the following:

A statement on Americanism.

A statement on preparedness for adequate military and naval defense.

A declaration in favor of a protec-National Committee, today expressed

A declaration in favor of a protec-tive tariff to be prepared by a non-partisan tariff commission created by Congress, with special attention to the needs of the industries of this coun-try after the close of the European A declaration in favor of a merchant

A statement dealing with the alleged shortcomings of the Democratic national administration.

A statement dealing with the alteged shortcomings of the Democratic national administration.

Action on Suffrage Problematical.
On the question of national woman suffrage, Chairman Hilles said there was a difference of opinion among the party leaders, and he did not know what action the convention would take on the subject.

In speaking of the probable action of the Progressive National Convention called to be held June 7 in Chicago, simultaneously with the Republican National committee, Chairman Hilles said:

"I imagine everybody assumes that the Progressives will nominate Roosevelt for President. If the Republican convention adopts a straightforward sincere, ringing declaration on the vital public questions now being discussed, and nominates a man clearly equal to the important tasks which will confront the next President, Roosevelt might not think there would be any need of his entering the field. But if the Republicans nominate a man whom Mr. Roosevelt thinks is a misfortune and adopt a platform which he regards the Republicans nominate a man whom Mr. Roosevelt thinks is a misfortune and adopt a platform which he regards as 'bunk,' he may feel so outraged as to run and perhaps help re-elect Presi-dent Wilson."

Rush Tactics Not Planned.

Chairman Hilles denied a report that the organization had ever thought of attempting to force the nomination of a candidate for President the first day of the convention.

THETA CHI CHAPTER ORGANIZED AT CORVALLIS.

a candidate for Fresheat the list day
of the convention.

"Such a plan has never even been
discussed by members of the National
committee and even if it were it would
he impossible," he said. "The convention will foliow precedent. It will meet
at 11 A. M. Wednesday, June 7, listen
to the address of the temporary chairman, appoint the committees and adfourn. The second day will be devoted
to permanent organization and consideration of committee reports, which, of
course, will include the adoption of the
party platform. The third day will be
devoted to the nominating speeches.

"After that will come the balloting
for President and Vice-President, and

BRIDGE PREPARATIONS ON

Work Proceeds at Independence Despite Injunction Move.

CHEMAWA, Or., May 28.—(Special.)

—Arrangements have been completed for the institute for teachers of Indians to be held at Chemawa, July 31 to August 12, under the direction of H. B. Peairs, Supervisor of Indian Schools; W. W. Coon, Assistant Supervisor, and H. E. Wadsworth, Superintendent of the school at Chemawa.

DALLAS, Or., May 28.—(Special.)—
Despite the fact that suit has commenced in the Circuit Court for Polk County to restrain the proposed road and bridge improvement at Independence, work on changing the location of the road and the removal of the steel bridge there goes merrily on.

Reports from Dallas to the effect that suit has commenced in the Circuit Court for Polk County to restrain the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, where the proposed road and bridge improvement at Independence, which is the proposed road and bridge improvement at Independence, which is the proposed road and bridge improvement at Indepen

visor, and H. E. Wadsworth, Superintendent of the school at Chemawa. Adolph A. What a handicap not to give every child-your child -a chance to know!

In after years, what will they say to you, think of you, if you don't? You may not be able to send them to college; but you

can give them the new Encyclopaedia Britannica.

Arthur Brisbane, the highest paid editor in the world, with a salary of \$84,000 a

'It is really a misfortune for a family of children to grow up without the Britannica.

year, says:

"Now, who's right?"

when he or she was in the right.

youngsters; when they knew they knew?

"The reading of every serious book should be done with the Britannica at hand. To develop that habit in children would be of the highest possible value to them.

Griffith Ogden Ellis, editor of The American Boy, writes:

"The Britannica plays a large and active part in our edi torial reference library, for every year thousands of our boys ask us for information that the Britannica, if in their homes, would furnish them immediately while their in-terest is at fever heat—and, of course, more fully than we can give it to them by letter."

Edward Bok, the editor of The Ladies' Home Journal, the most important woman's paper published, writes concerning the "Handy Volume" Issue:

"No one knows until he has possessed a copy of this work how often one refers to it and how large a place it takes in one's reading and reference, and I am delighted to think that this work is now within the reach of thousands of people to whom its possession has up to this time been a dream."

The Boy Who Knows!

Dr. Charles W. Eliot, president of Harvard University from 1869 to 1909, bought two sets of the new Britannica as soon as it came out. He wrote as follows:

"I bought two copies for the benefit of my two sets of grandchildren. I find the work altogether admirable and my grandchildren, who are at the most inquisitive ages, are of the same opinion."

Dr. S. C. Mitchell, president of the College of Delaware,

"I do not know of a single benefit to a home comparable to this great set of booksa library within itself, compact and utilizable instantly. No gift that a father can confer upon his children can be compared to the value of these books in the home."

Miss Ellen C. Lombard, of the U.S. Bureau of Education, writes as follows:

"I am referring readers constantly to the Britannica in connection with the Reading Courses recently issued by the Bureau. For the home study of children and for general information, it is an encyclopaedia of unquestionable merit. Every home in the United States should be provided with this complete

What Will Be Your Answer When Your Children Ask:

"Why Didn't We Have The Britannica?"

You can't say you didn't know about the most famous book of reference in the world:

a library that the best informed, the most highly educated and the most conspicuously successful people in every line of work use daily; a set of books that no library or university of any consequence would try to do

You can't plead ignorance of a book that has been famous for a century and a half,

gathering authority and prestige with each of its eleven editions. You can't overlook a book so valuable that many people have echoed the words of Hon. Joseph Choate, "If I could have but one book, it would be the Britannica."

You can't say you can't afford The Encyclopaedia Britannica now that you can buy it for \$1.00 down and \$3.00 a month for a few months.

Even when it cost three times as much as it does today, it was the best investment any family could make. For the Britannica is not an expense item, but a safe and profitable investment that pays steady dividends in increased power and opportunity.

A Wonderful Bargain—Soon Closed.

So long as the new Eleventh Edition of the Encyclopaedia Britannica was to be had only in the expensive Cambridge University issue there was ample excuse why many homes should go without it. Now there is none.

We offer the new "Handy Volume" Issue now at one-third the price charged for the Cambridge University issue and we send you the complete work, the entire 29 volumes, upon the receipt of a single dollar—the balance in small monthly payments. But this is not all. We knew there would be a great number of people who could not believe that we could offer the complete new Eleventh Edition at such a price and on such terms. There was only one way really to convince them. That was for them to see the books. Therefore we make

We send you the books when you have paid a single dollar and you may then keep them three weeks, use them freely, examine them and find out their worth to you. Then if, for any reason whatsoever, you do not wish to keep them, you may send them back, and without any questions we will refund the

dollar you have paid and shipping charges both ways as well. But you must take advantage of this offer now if you wish to obtain this new "Handy Volume" Issue on these prices and terms.

The war has brought a great scarcity into many lines of trade and forced prices to prohibitive figures. The publishers now notify us that they cannot supply us with any more sets at these prices after those which we have contracted for are delivered. There is just time to send for our handsomely illustrated books about the new Britannica

eager minds to good purpose, and how to find out for what kind of work a child should be trained. There is a series of stories about some real boys and girls—true stories—and some of the interesting things they discover for

enjoying the Britannica.

The book might almost be called a miniature encyclopaedia, it is so packed with information. Do not fail to send for it. It is a

complete and unfailing test of their capac-

It con-tains over 100 half-tone illustrations. me today-It shows how the Britannica makes school work easier and more profitable; how to make children use their eyes and ears and I want it."

You can't imagine that your children aren't capable of

Perhaps you think your children are too young to enjoy the Britannica or that there is nothing in it to amuse and instruct children. The Britannica is exactly the book to interest an active-minded child, for it contains the

answers to the innumerable questions that suggest themselves to his sharp eyes and ears. The more questions that child asks the more proof it gives of its intelligence. It is your duty to answer these questions or show your boy where to find the answers. Wouldn't it be a relief to you to be able to put your hand upon the answer to every puzzling question your child propounds?

What makes it rain? What is the difference between a mushroom and a toadstool? How fast can a starfish crawl? Where does the dew come

from? Where do corals get the material with which they build islands? Was there ever such a thing as a dodo? What is the biggest animal that ever lived on the earth? How deep can a diver work? How are lighthouses built? What is the advantage of automatic pistols over revolvers? What caused the Sahara Desert? Where did the hills come from?

(You will find answers to these questions in the book we send free of charge. See coupon.)

Wouldn't you be glad to have your children self-reliant

and able to hunt up the answers to such questions as
