OLD GUARD IN QUANDARY

Jurist's Boom, Launched as Check to Colonel's Candidacy, Promises to Storm Convention.

National convention only eight days distant it looks much, and has looked for a week, as though the real fight for the Presidential nomination will resolve itself into a contest between the Hughes forces on the one hand and the Roosevelt forces on the other. The situation may change during the next week, but if a new factor enters into the calculations, it probably will be in the shape of a dark horse, rather than one of the favorite sons. The favorite sons seems to have been eliminated.

checking the trend toward the Colonel.
By the time the old guard was satisfied it had checked the Roosevelt movement, it awoke to the fact that the Hughes movement had attained proportions as to become not only formidable, but threatening. Then there arose the cry that Hughes could not and would not accept the nomination, because of his present position on the Supreme Bench. That failed to bring forth any sort of comment from the Supreme Court.

Next, the propagandists, hostile to ughes, filled the papers, with the Hughes, filled the papers, with the question, "Will Hughes accept if nominated?" the object being to create doubt in the minds of delegates disposed to vote for him. But again the Sphinx of the Supreme Court maintained a profound silence. He did not fare.

make answer to the all important question.

When that failed, the cry went up, "Can the Republican party afford to nominate a man whose attitude on the issues of the day is not known? Where does Hughes stand, anyway, on preparedness, on Mexico, on our relations with the Belligerent nations of Enrope? Is he for a big Army and Navy or for a little one?" But that did not get far: indeed, it did not for a moment check the Hughes movement. It was recognized that the nominee of the Chicago convention will stand on the platform to be adopted at Chicago.

Theodore Roceeveit is going to be a big factor at the Chicago convention, whichever way the convention is ultimately swayed.

That Colonel Rocsevelt would be glad to land the nomination for him-

Colonel Roosevelt declared that those who assert there is no danger of the United States ever being attacked either are ignorant or forgetful of the multitude of examples which show how international conflicts arise, and that "it is. likely that, if we are not strong enough to maintain our rights, including the assertion of the Monroe Doctrine." the United States will be subject to aggressions which it would be obliged to resent or else abandon its National greatness.

We are face to face with the elemental facts of right and wrong, of force or feebleness. According to the spirit in which we face ing to the spirit in which we fac these facts and govern our actions, we shall determine whether in the future we shall enjoy a growing National life or suffer a lingering National decay."
