**VIADUCT IS ISSUE STILL**  
 Astoria Council Hears Protests Over Compromise Planned.  
 ASTORIA, Or., May 30.—(Special).—While Astorians supposed for a short time that the long-continued controversy over the improvement of certain streets in the business section of the city was in a fair way of immediate settlement, the trouble now appears to be as badly complicated as ever.  
 On account of an injunction suit having been brought to restrain the city from putting in a reinforced concrete viaduct, the Council has decided, as a compromise, on filling the streets by dumping sand from the river. This brought a protest from both the advocates of the viaduct and the earth fill.  
 As a result the Council does not know what to do.

**FLAG HONOR ASKED**  
 President Wilson Requests Anniversary Observance.  
**RENEWAL OF IDEALS IS AIM**  
 Rededication of All Americans to Nation With Its Obligations and Privileges Suggested for June 14 Programme.  
 WASHINGTON, May 30.—President Wilson today issued a proclamation calling upon the people of the United States to celebrate Flag day, June 14, with patriotic exercises, giving expression to "our thoughtful love of America." The proclamation follows: "My fellow countrymen: Many circumstances have recently conspired to turn our thoughts to a critical examination of the condition of our National life; of the influences which have seemed to threaten to divide us in interest and sympathy; of forces within and forces without that seemed likely to draw us away from the happy traditions of united purpose and action of which we have been so proud.  
**Day is Flag Anniversary.**  
 "It had, therefore, seemed to me fitting that I should call your attention to the approach of the anniversary of the day upon which the flag of the United States was adopted by the Congress as the emblem of the Union, and to suggest to you that it should, this year and in the years to come, be given special significance as a day of renewal and reminder, a day upon which we should direct our minds with a special desire of renewal to thoughts of the ideals and principles of which

we have sought to make our great Government the embodiment.  
 "I therefore suggest and request that throughout the Nation and, if possible, in every community, the 14th day of June be observed as Flag day with special patriotic exercises at which means shall be taken to give significant expression to our thoughtful love of America, our comprehension of the great mission of liberty and justice to which we have devoted ourselves as a people, our pride in the history and our enthusiasm for the political programme of the Nation, our determination to make it greater and purer with each generation and our resolution to demonstrate to all the world its vital union in sentiment and purpose, accepting only those as true compatriots who feel as we do the compulsion of this supreme allegiance.  
 "Let us on that day rededicate ourselves to the Nation, 'one and inseparable,' from which every thought that is not worthy of our fathers' first vows of independence, liberty and right shall be excluded and in which we shall stand with united hearts for an America which no man can corrupt, no influence draw from its ideals, no force divide against itself, a Nation signally distinguished among all the nations of mankind for its clear, individual conception alike of its duties and its privileges, its obligations and its rights."  
**JETTY WORK PROGRESSING**  
 Improvement at Bar View Said to Have Beneficial Effect.  
 BAR VIEW, Or., May 30.—(Special).—Work on the Government Jetty here is progressing slowly, due to the fact that the piling now being placed have to penetrate rock for a depth of several feet.  
 During the storms of the past Winter, 15 bents were washed out, the piles being broken at the water line and the work now under way is to replace these two bents and a half have been rebuilt in the two weeks of operation of the huge driver, and the contract calls for about 75 new bents after the repair work is completed.  
 Giesbach & Joplin, the contractors,

are getting a good grade of rock now and about 300 tons a week are being placed. It is reported by mariners and engineers that the Jetty is having a good effect on the bar. The work here is under the direction of George S. Beatty, United States Engineer.  
**Despondent Rancher Dies of Wound**  
 CENTRALIA, Wash., May 30.—(Special).—Mike Lepisto, who until recently

ly owned a big ranch on Lincoln Creek, west of this city, died in a hospital here last night of wounds self-inflicted Sunday.
