MRS. VAUGHN'S SPECIAL RECIPES:

As announced by Mrs. Vaughn, the recipes for Stuffed Onions and Mint Sherbet, demonstrated by her yesterday at the Oregonian Better Foods-Better Homes School, are given below, together with some other interesting recipes submitted by her.

STUFFED ONIONS.

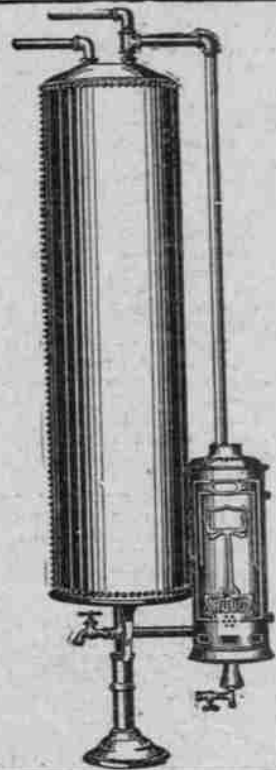

Peel the onions, scoop out the portion in the center, parboil for 5 minutes. Turn upside down to drain. Fill with stuffing made of equal parts of minced nuts or meat and soft breadcrumbs and the onion taken from the center, chopped fine. Add salt, pepper and melted butter. Fill onion heaping full and cover with crisscross breadcrumbs. Put in pan with one inch of water and bake until tender.

MINT SHERBET.

3/4 pound sugar, 6 long stalks of mint, 1 quart water, 4 lemons. To the sugar add stalks of mint and crush with a wooden pestle. Pour on the cold water and lemon juice and after an hour strain and freeze, adding a little green color paste as the mixture is put in the freezer.

CHICKEN SALAD WITH ALMONDS.

1 hen, 1/2 pound almonds blanched, 3 stalks celery, cooked salad dressing. Steam or stew chicken until tender, having when ready to take from fire one quart or more of stock. Cut chicken and celery same size. Cut almonds lengthwise into two or three pieces. Mix lightly together and add enough cooked dressing to season well. Serve on lettuce with mayonnaise or some kind of dressing with whipped cream. Stuffed olives may be added.
1 box gelatine, 1/2 pint cold water, 1 quart chicken stock, 1 small onion, salt, pepper, 6 hard-boiled eggs (yolks). Soak Knox gelatine in cold water for 15 minutes. Put chicken stock and onion on the fire, season to taste with salt and pepper and bring to a boil. Strain into dissolved gelatine. Pour in "ring mold" and just before it sets add yolks of boiled eggs which have been run through a ricer. When set fill center of ring with chicken salad. Garnish with cream.

Only With the New Edison Is This Possible

COME AND HEAR Edison's new invention, which actually re-creates all forms of music so perfectly that the blase music critics of the leading newspapers of this country admit in their papers that they cannot distinguish an artist's voice or instrumental performance from Edison's re-creation of it.

YOU NOW have the opportunity to hear this wonderful instrument—Edison Diamond Disc Phonograph—providing you attend Mrs. Kate B. Vaughn's lectures on "Domestic Science" at the Eleventh-Street Playhouse every day this week.

There you will hear the re-creation of voices of many of the world's greatest singers; also Herman Kenin, Portland's wonderful boy violinist, play along with the instrument. Be sure to attend as many of the lectures and demonstrations as possible.

We invite all music lovers to visit our beautiful music rooms on the second floor, Eilers Bldg., where all the different styles are on exhibition. If you live out of town we will gladly mail you catalogue upon request.

EASY TERMS

To those who do not wish to pay cash, we will gladly arrange a most convenient payment plan. Some instruments as low as \$5.00 per month.

We carry the largest stock in the Pacific Northwest and offer you the best service.
